The Secretary of Administration also includes in such certification a statement that, except as disclosed in the final offering statement, there has been no material adverse change in the financial condition and affairs of the State since the fiscal year end of the most recent CAFR. KPERS provides similar certifications with respect to the Appendix B referred to above.

For each issuance of the Bonds, the State engages State Disclosure Counsel to assist the State in preparation of the State Appendices and advise the State with respect to disclosure obligations and requirements under the federal securities law. An Authority may engage Authority Disclosure Counsel to assist in the preparation of the offering statements other than the State Appendices and advise the Authority with respect to disclosure obligations and requirements under the federal securities laws. State Disclosure Counsel advises the Department of Administration with respect to such matters and provides a letter of negative assurance to the State in connection with the use of the State Appendices in each issuance of Bonds. The General Counsel of KPERS advises KPERS with respect to such matters.

2.2 Continuing and Voluntary Disclosure. CDAs require annual updating of certain of the information in the State Appendices, including the CAFR, and annual filing with EMMA. CDAs also require filing of Event Notices by the State, a State Entity, or an Authority with EMMA from time to time under the circumstances described in the CDA.

The State, a State Entity, or an Authority may also file Voluntary Filings with EMMA or otherwise disseminate State Disclosure. In addition, information of the type included in the State Appendices, including the CAFR, may be from time to time provided by an Authority or the State to rating agencies and other municipal market participants, including investors. .

In order to ensure compliance with the State Financial Disclosure Policies, the Secretary of Administration hereby adopts these Disclosure Procedures for the preparation, review, revision, updating and approval of any State Disclosure prior to any filing with EMMA or other dissemination to the public or to a rating agency. The Secretary of Administration is hereby designated to implement the Disclosure Procedures, except as specifically set forth herein. The Secretary of Administration or his/her designee may, from time to time, as may be necessary, review the Disclosure Procedures and provide updates. By adopting these Disclosure Procedures and requiring staff to adhere to these Disclosure

Procedures, the Secretary of Administration hereby formalizes due diligence procedures to comply with the State Financial Disclosure Policies, the State's disclosure obligations under federal securities law and to provide a reasonable basis for the Secretary of Administration to provide the certification described above.

5.0 ANNUAL FINANCIAL AND OPERATING REPORT, ISSUANCE OF THE CAFR AND ANNUAL CONTINUING DISCLOSURE FILINGS

Certain of the information in the State Appendices shall be updated, revised and reissued no less frequently than annually pursuant to one or more existing CDAs at the time the annual continuing disclosure filings are required to be filed for outstanding Bonds. Such

annual continuing disclosure filings are required to include the Annual Financial and Operating Report. The update and filing of the Annual Financial and Operating Report is normally expected to coincide with the release of the CAFR near the beginning of the calendar year.

The procedures for preparation of the Annual Financial and Operating Report are as follows:

- 5.1 Legal shall send an e-mail notice to every Primary asking each to identify potentially significant events of which they may have become aware since the last update of the State Appendices or Annual Financial and Operating Report and have not otherwise notified the State Disclosure Committee, as well as requesting any update of such events for which notice has been provided. Responses shall be required and appropriate records of the responses shall be maintained by Legal.

5.9 Any of the actions to be taken pursuant to this Section 5.0 may be taken by a person authorized to serve as a designee.

6.0 UPDATES OF STATE APPENDICES FOR THE ISSUANCE OF BONDS

The information in the State Appendices shall be updated, revised and reissued in connection with each issuance and sale of Bonds. In connection with each issuance and sale of Bonds it is expected that a preliminary offering statement and a final offering statement will be prepared, each of which is expected to include the State Appendices. The procedures for preparation of updates for a preliminary offering statement and a final offering statement, will be as described in 5.1 through 5.9 above and the procedures for preparation of the State Appendices attached to the offering statements shall be the same as the procedures for an Annual Financial and Operating Report pursuant to 5.0.

In connection with the issuance and sale of Bonds, representations or certifications regarding the information in the State Appendices are made at the time of the pricing and sale of the Bonds and again upon the closing and delivery of the Bonds. The information in the State Appendices for these purposes is, in the usual course of a transaction, finalized at the time the preliminary offering statement is printed and distributed to market participants. The printing of the preliminary offering statement usually occurs one to two weeks prior to pricing and sale of the Bonds. The closing and delivery of the Bonds usually follows pricing and sale of the Bonds by another one to two weeks. While it is not anticipated that any changes shall be required to be made to the State Appendices prepared at the time of printing the preliminary offering statement pursuant to 6.1 below, because of the representations and certifications required at the time of pricing and sale and at the time of closing as described above, it is necessary to have a procedure in place to make sure that there have been no material changes in the financial condition and affairs of the State which would warrant a change to the State Appendices. In order to determine whether there are any material changes that may require an update to the State Appendices, the procedures below shall be followed in connection with the following events (the "Bond Issuance Events"): (i) the printing of a preliminary offering statement, (ii) the signing of a purchase contract in a negotiated underwriting or taking of bids for a competitive sale and (iii) the pre-closing.

6.1 No later than the morning of the expected occurrence of the above-mentioned Bond Issuance Events, Legal or State Disclosure Counsel shall contact the Primaries, or their designee, to ask if there are any developments that may be material. Timely responses shall be required and appropriate records of the responses shall be maintained by Legal.

6.2 Legal and State Disclosure Counsel shall conduct an internal review to determine if there are any material changes to the "Litigation" section contained in the State Appendices. To the extent deemed appropriate by Legal and State Disclosure Counsel, such internal review shall include coordination with the AG and other counsel to the State.

6.3 If a potentially material development is identified, State Disclosure Counsel shall advise

Legal and the other DoA Primaries and together with Legal advise the Authority and Disclosure Counsel of any change to State Disclosure.

- 6.4 If necessary, potentially material developments shall be further raised to the State Disclosure Committee.

7.0 TRAINING

Annual training shall be conducted regarding disclosure obligations for each of the following or his/her designee: (i) the Secretary of Administration and (ii) each Primary and, if it is a different person, the director or other head of the office, department or agency represented by each Primary. It is intended that this training shall assist these staff members in identifying significant items that may need to be included in the State Appendices.

8.0 GENERAL PRINCIPLES

- 8.1 Everyone involved in the disclosure process is responsible for raising potential disclosure items (matters that might be of sufficient import to affect the information included in the State Appendices) at all times in the process.
- 8.2 Everyone involved in the disclosure process should err on the side of raising issues to the next level of the review chain.
- 8.3 All participants in the process should raise any issue with the State Disclosure Committee at any time.
- 8.4 The disclosure procedures are a "work in progress" and recommendations for improvement shall be solicited and regularly considered.
- 8.5 The process of revising and updating the State Appendices should not be viewed as a mechanical insertion of more current numbers. While it is not anticipated that there will be major changes in the form and content of the State Appendices at the time of each update, everyone involved in the process should consider the need for revisions in the form and content of the sections for which they are responsible at the time of each update.

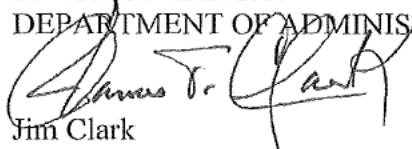

A copy of this Disclosure Policy shall be distributed annually to all Primaries, the Authority and Disclosure Counsel and any updates to this Disclosure Policy shall be distributed to such group upon issuance.

This Disclosure Policy amends, restates and replaces the prior policy which was effective as of April 1, 2013.

This Disclosure Policy is hereby approved and adopted by and for the State of Kansas, to be effective as of the date first above-written.
