LEVELS OF WORK

- Class Group consists of four classes.

Registered Nurse: This is full performance professional nursing work. Work involves providing direct individual care and treatment, participating in the development and implementation of professional nursing practices and maintaining individual records and charts. Functional supervision may be exercised over direct care staff.

Minimum Requirements: Eligible to be licensed as a Registered Nurse (RN) in the State of Kansas.

Necessary Special Requirements: Some positions require an approved drug test unless the incumbent is moving from one safety-sensitive position to another safety-sensitive position within the same agency performing substantially similar duties.

Registered Nurse Senior: This is supervisory or specialized professional nursing work. Work involves performance of supervisory or coordinating nursing duties of all nursing services for a designated work area, or the performance of investigations or utilization review.

Minimum Requirements: Eligible to be licensed as a Registered Nurse (RN) in the State of Kansas and one year of experience in registered nursing.

Necessary Special Requirements:

Some positions require an approved drug test unless the incumbent is moving from one safety-sensitive position to another safety-sensitive position within the same agency performing substantially similar duties.

Registered Nurse Specialist: This is managerial or supervisory nursing work. Work involves responsibility for coordinating special programs or facility wide nursing services on a shift; serving as an Assistant Director of Nursing within a major treatment facility or Director of Nursing within a moderate sized treatment facility.

Minimum Requirements: Eligible to be licensed as a Registered Nurse (RN) in the State of Kansas and one year of experience in registered nursing.

Necessary Special Requirements:

Some positions require an approved drug test unless the incumbent is moving from one safety-sensitive position to another safety-sensitive position within the same agency performing substantially similar duties.

Registered Nurse Administrator: This is administrative nursing work responsible for the overall management and direction of the nursing services at a major treatment facility. Work involves the responsibility for organizing, supervising, and coordinating the work of nursing care services; maintaining professional, legal and ethical standards of performance, and the development of agency policies.

Minimum Requirements: Eligible to be licensed as a Registered Nurse (RN) in the State of Kansas and four years of experience in registered nursing.

Necessary Special Requirements:

Some positions require an approved drug test unless the incumbent is moving from one safety-sensitive position to another safety-sensitive position within the same agency performing substantially similar duties.
