INTRODUCTORY SECTION

June 12, 2025

To the Citizens of the City of Winfield, Kansas
Honorable Mayor and City Commissioners

This document is the Annual Comprehensive Financial Report (ACFR) of the City of Winfield, Kansas for the year ended December 31, 2024. This report was prepared by the City's finance department. Responsibility for both the accuracy of the presented data and the completeness and fairness of presentation, including all disclosures, rests with the management of the City. We believe the report, as presented, is accurate in all material respects. We also believe it is presented in a manner designed to set forth the financial position and results of operations of the City as measured by the financial activity of its various funds. Finally, we believe that all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included.

The Annual Comprehensive Financial Report is presented in three sections: Introductory, Financial, and Statistical. The introductory section includes a description of the City, including services provided, and explanation of the City's accounting system and budgetary controls, and a brief discussion of the City's economic condition and outlook. The City's organizational chart is also included to assist the reader in understanding the structure of the City. The financial section includes the independent auditor's report, Management's Discussion & Analysis, Government-wide financial statements, fund financial statements, notes to the financial statements, and individual and combing statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

The reader is specifically directed to Management's Discussion and Analysis (MD&A) which immediately follows the independent auditor's report. MD&A provides a narrative explanation and overview of significant features and trends reflected by data in the financial statements.

Management of the City is responsible for establishing and maintaining an internal control structure to ensure that the assets of the City are protected from loss, theft, or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The cost of the internal controls should not outweigh their benefits. Thus, the City of Winfield's internal controls are designed to provide reasonable, rather than absolute, assurance that the financial statements are free from material misstatement.

Kansas Statute 75-1122 requires an annual audit of all funds of the City by independent certified public accountants. The firm of Loyd Group, LLC issued an unmodified opinion on the City of Winfield's financial statements for the year ended December 31, 2024. The independent auditor's report is located on page 9 in the Financial Section of this report.

Profile of the Government

The City of Winfield, incorporated in 1873, has a population of 11,678 and has an incorporated area of 12.35 square miles. Winfield is located in south central Kansas, less than an hour away from Wichita, and two hours from Tulsa and Oklahoma City. Winfield serves as the county seat for Cowley County, population of approximately 34,157.

The City is unique in providing its citizens with a full range of municipal utility services, including electric and gas utilities, water, wastewater, and sanitation services. Other municipal services include police and fire protection, ambulance services, construction and maintenance of streets, drainage facilities, and other infrastructure, recreation and cultural activities, a municipal golf course, community, and industrial development, planning and zoning, building inspection, cemetery operations and maintenance, general administration, and internal support services. The City provides limited recycling to its citizens and composting site facilities, available at no charge to area residents. In addition, library services and low-income housing are provided by component units of the City. Additional information on the component units can be found in Note 1 in the notes to the financial statements.

The City of Winfield operates under a Commission/Manager form of government. One member of the three-member commission is elected annually by the Commission to act as Mayor. The City Manager is appointed by the City Commission and is responsible to them for the management of all City employees and administration of all City affairs. Regular city elections are held in odd years. The person receiving the largest number of votes is elected to a four-year term and the person receiving the second largest number of votes is elected to a two-year term.

Expenditures are authorized by a budget approved by the City Commission as required by State statute. The State statute level of budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) is established at an individual fund level but is monitored by department within each fund. The City Manager and Finance Department continually review and approve all significant deviations from budget authorizations. The Kansas cash basis and budget laws requires cash be on hand before an expenditure is authorized, that all expenditures be budgeted (unless specifically exempted by statute), and that the budget not exceed anticipated revenues, including carry forward balances. Budget-to-actual comparisons are provided in this report for each individual fund in which an adopted annual operating budget is required by Kansas statute.

Economic Condition and Outlook

Winfield is home to three state agencies including the Winfield Correctional Facility, the Department of Children and Family Services, and the Kansas Veterans Home at Winfield.

The City manages its economic development and industrial development work in tandem with Cowley First, the eco-devo arm of Cowley County. The City and County worked together in 2024 to create a “certified site” through the Kansas Department of Commerce. The year 2024 brought expanded economic opportunities including the ongoing strength of GE Aviation, Galaxy Group scaling, a footprint expansion for Vector Tooling, and a footprint expansion by Newell Brands, The year 2025 started out with an announcement of the relocation to Winfield of Schwihag a Swiss rail component manufacturer. Additionally, the City works closely with Winfield Economic Development, Inc., a non-profit economic development group that works to improve the economic condition of the community; The City supports the operations and development of both the Winfield Chamber of Commerce, and Winfield Main Street as well as many other non-profit entities that support the community.

2024 sales tax showed a 2.51% negative change in sales tax collections from 2023 based on a 1 cent sales tax—attributable to key projects in 2023 that did not occur in 2024. In June of 2019, the City’s residents approved a measure to replace the four-tenths of one percent (.40%) which was to be used for street improvements with a one percent (1%) sales tax to be used for funding the proposed Public Safety Facility, street improvements, and other capital projects. The one percent (1%) sales tax began October 1, 2020 and will expire September 30, 2045. The City announced two large tourism events choosing to locate at the Winfield Fairgrounds in 2025. This should have a positive impact on sales tax receipts.

Real estate property assessed valuation showed a 6.5% increase in 2024, reflecting steady property values. The total value of construction for the 2024 year was $4M higher than last year. The City issued 6 single-family dwelling permits which is near the average for recent years. These projects along with several substantial commercial projects brought the total value of permits to $28,356,960. At the end of 2024, Cowley County unemployment was at 3.9%, which is slightly higher than the unemployment rate of 2.3% at the end of 2023.

City Business and Financial Planning

The City annually revises the current year's budget during preparation of the upcoming year budget, to provide internal management with better oversight. Additionally, the City maintains a five-year projected budget for its Capital Improvement Fund, for internal purposes.

The City manages its finances with a long-term perspective. Reacting to the ongoing inflationary pressures and the public dislike for property taxes, the City has used a market approach and increased fees for many of its fee-based services. Over the last five years, the City modestly increased utility rates for water, refuse, natural gas and electric services after completing cost of service studies for those utilities. The City has worked to reduce the mill levy rate of property tax collections as valuations have increased in recent years. This has been done with a target fund balance of 15% in the General Fund. Management and the governing body work to be at or below the inflationary trend in the broader economy.

Over the past fifteen years, the City has undertaken numerous significant capital projects that have greatly improved the overall quality of life for its residents while also ensuring the maintenance of essential city infrastructure. From 2009 to 2012, the focus was on stabilizing the city's financial situation by reducing bonded indebtedness. In October 2015, the City opted to refinance existing debt and temporary notes by issuing general obligation debt. In 2018, bonds were issued to pay off previous temporary note obligations related to various projects.In 2019, the City issued bonds to initiate Phase I of the Public Safety Facility and also refinanced existing debt, temporary notes, and financed new projects such as Country Club Villas. Two bond issues were completed in 2020. The first, Issue 2020-A, supported a project at Strother Field Industrial Park, jointly owned by the City of Winfield and the City of Arkansas City, as well as a CCLIP project on US Highway 77. The second, Issue 2020-B, funded a benefit district for infrastructure improvements in Stonebrook Subdivision, supported the 2020 CCLIP project on US Highway 160, and financed a significant transmission project for the Electric Utility.

In 2021, the City issued temporary notes for repairs to Meyer Hall and the implementation of the Advanced Metering Infrastructure project. In 2022, the City issued bonds to refinance the temporary notes from 2021, finance two transmission projects for the Electric Utility, and support a project at Strother Field Industrial Park. Most recently, in 2024, the City issued bonds to support a project at Strother Field Industrial Park. The City continues to assess its financial objectives with the expectation of an improving economy.

The City has constructed new fire-ems apparatus bays using General Obligation debt. A subsequent project to renovate the existing fire-ems facility was completed with no debt. The construction of a new police station and shared training and civic space has been funded through the issuance of temporary notes that the City plans to "buy" down in 2027 to reduce interest owed on the project.

The City's insurance and self-insurance programs have been funded and administered as part of the City's Risk management. Funds were maintained in a reserve fund as authorized in Kansas Statutes. Additionally, the City maintains insurance policies and bonds as detailed in the Additional Information Section of this report. The City currently maintains full workers' compensation coverage through the Kansas Eastern Region Insurance Trust group (KERIT) but continues to fund the Risk Management reserve to fulfill liabilities prior to transitioning to KERIT in 2011.

Cash Management Policies and Practices

The City maintains its cash and investments under a pooled concept. This mechanism enhances the City's investment possibilities. The City requests competitive bids on all investments in accordance with K.S.A. 12-1675. Idle funds are used to purchase certificates of deposit or other allowable investments, with maturities scheduled to meet anticipated cash flow requirements. During 2024, an average of $10 million was invested for an average of 207 days, at an average rate of 3.64%. The City is actively evaluating cash

flow scenarios and reinvestment opportunities through shorter term investments during the current rising rate environment.

Major Initiatives

- The City completed four years under a new city-wide software program aimed at improving efficiencies and productivity across the organization. This program has positively impacted operations and key employees continue to grow in user implementation efforts through ongoing training.

- The City continues to maintain its single-family home builds and has made significant efforts to increase the amount of multifamily workforce housing in the community. The City is actively pursuing a single-family subdivision.

- In June of 2019, the City's residents approved a measure to replace the four-tenths of one percent (.40%) with a one percent (1%) sales tax to be used for funding the proposed Public Safety Facility, street improvements, and other capital projects. The one percent (1%) sales tax began October 1, 2019 and is set to expire September 30, 2045. As of 2025, all phases of the Public Safety Facility have been constructed and are operational.

- 2024 Street Projects as follows: 2024 Mill and Overlay projects were completed for Mound Street from 9th to 19th Ave.

- Approval of an agreement between the City and Midwest Moos, Inc. for a field agreement at Broadway Sports Complex for the 2024 and 2025 baseball seasons. The Midwest Moos are a part of the Kansas Collegiate Baseball League.

- In 2020, the City completed a sale of 65% share in the City's transmission assetso GridLiance GP, LLC. The move is expected to aid the City in technical expertise and an able capital partner to complete mandated and other necessary electric transmission asset improvements. The proceeds of the sale have been directly input back into the system upgrades. The City will continue to provide maintenance for the entire system and is being reimbursed by GridLiance, LLP for such work as well as an annual franchise payment from GridLiance to the City. In 2020 and 2021, the two completed approximately $4.2M and $5M, respectively, in improvements with the City responsible for 35% of those costs. Those costs will be directly recovered through applicable transmission zonal charges to customers in the Southwest Power Pool. The City and GridLiance have made significant reliability upgrades to the electric transmission system in both 2021, 2022 and into 2023. No major upgrades were made in 2024.

- The City is currently operating from a 1.5 year planning process aimed at determining the direction from the public for policies, programs and services. That planning process was completed in 2020. The City expects to continue to make progress under the new Comprehensive Plan and looks to update the plan in 2025 with a community update process.

- The most recent Standard & Poor's Rating Services affirmed its 'A+' long-term rating on Winfield, Kansas' General Obligation (GO) bonds, based on improved general fund balance levels, strong management team, and strong liquidity.

- The City continued its sidewalk and other infrastructure improvements, related to ADA compliance.

Certificate of Achievement and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Winfield for its annual

comprehensive financial report for the year ended December 31, 2023. This was the 26th consecutive year that the City has received this prestigious award.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the assistance of numerous persons both in and out of local government. The firm of Loyd Group, LLC provided independent audit services. Specific appreciation is expressed to the dedicated staff of the City accounting department. We would also like to thank members of the other City departments who assisted and contributed to this report. Finally, preparation of this report would not be possible without the support of the City Commission. We express special appreciation to them for their leadership in planning and conducting the financial operations of the City in a professional, responsible, and progressive manner in the best interests of the residents of Winfield.

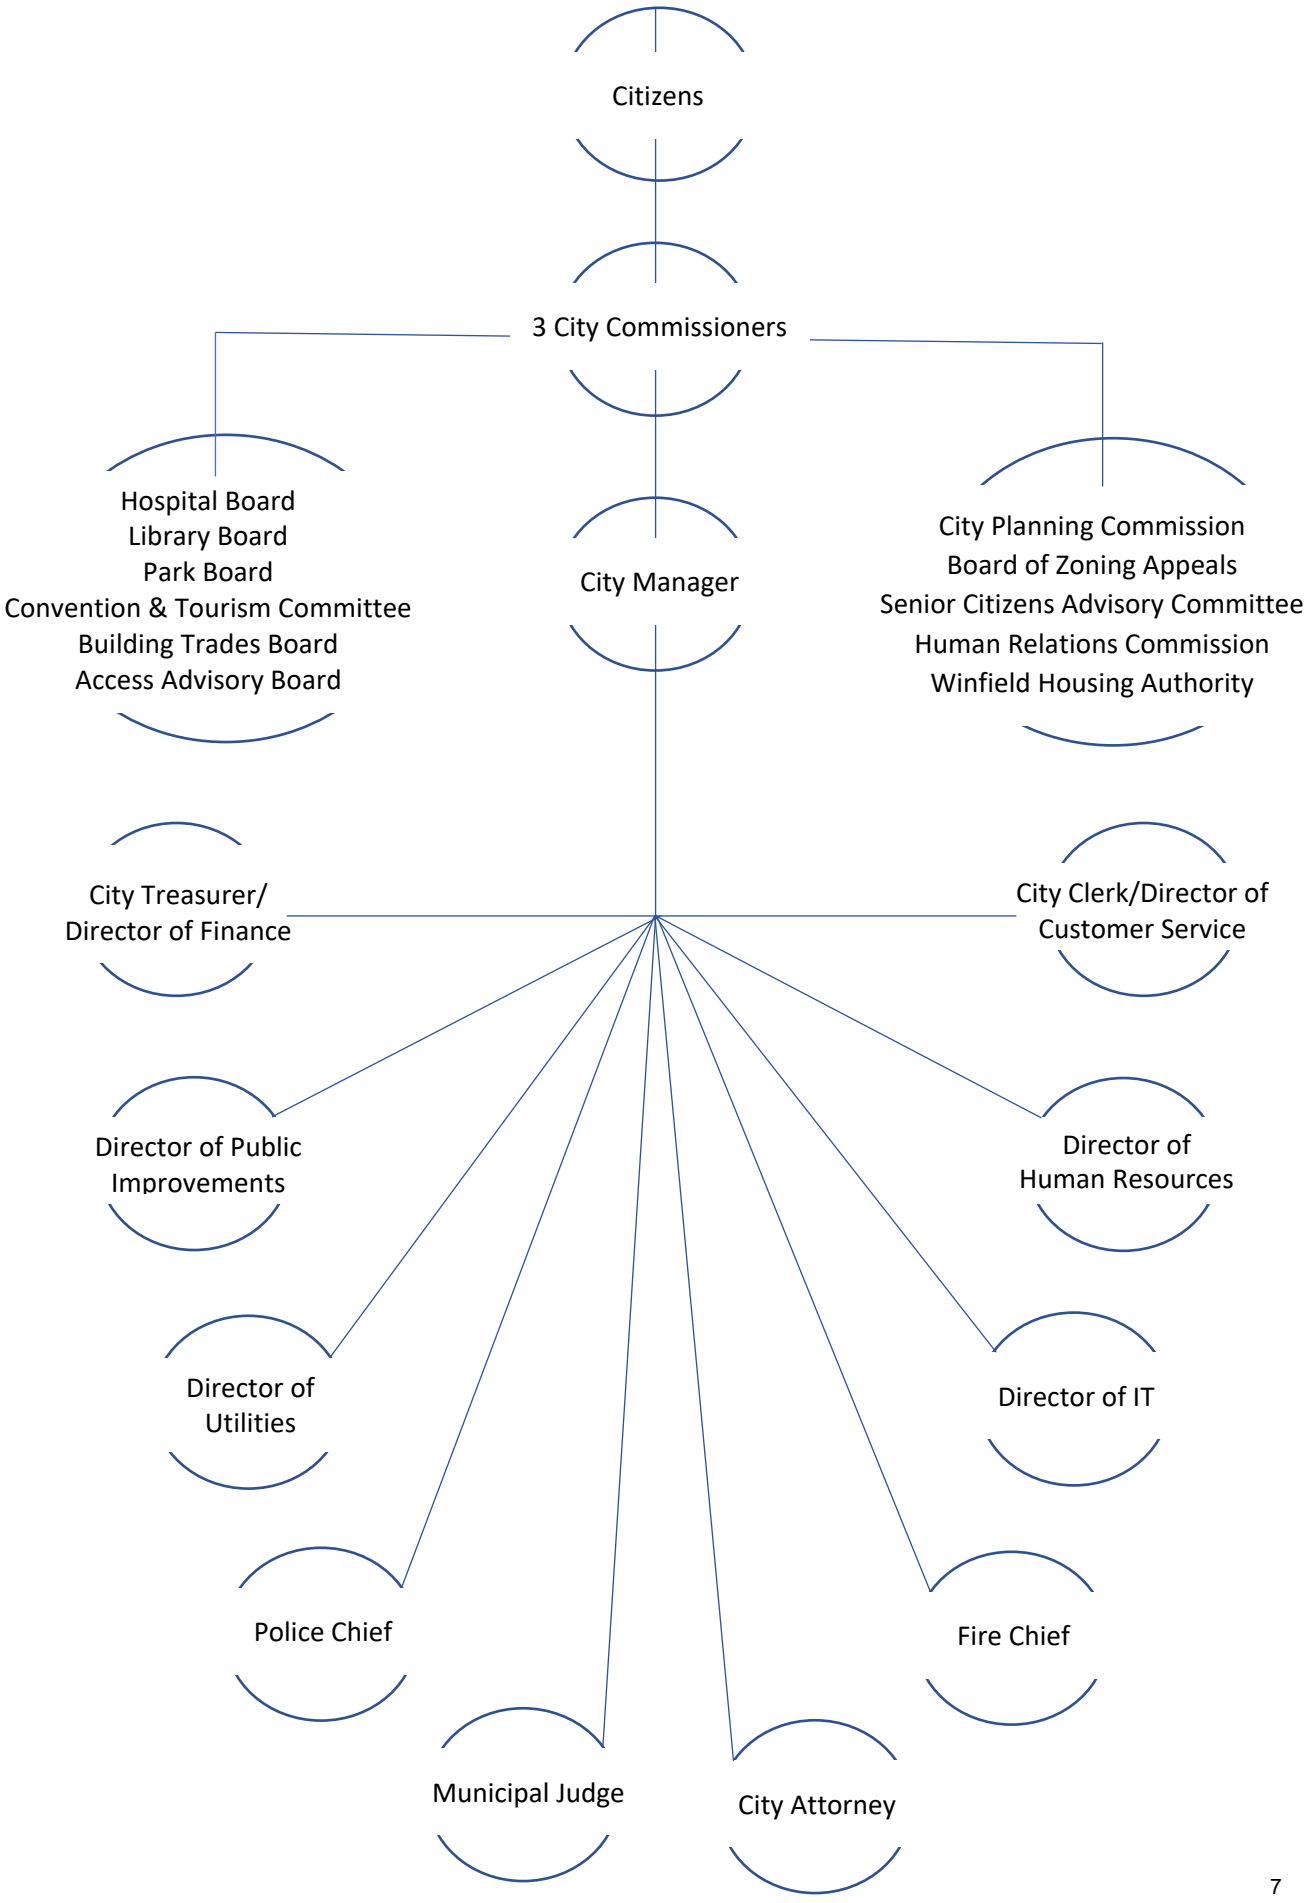

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Commission
City of Winfield, Kansas 67019

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Winfield, Kansas (City), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise City of Winfield's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Winfield, as of December 31, 2024, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and Special Streets and Highway Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the *Kansas Municipal Audit and Accounting Guide*. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of City of Winfield, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

City of Winfield's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about City of Winfield's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes

our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of City of Winfield's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about City of Winfield's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, Schedule of Changes in the Net OPEB Liability – Healthcare, Schedule of the Total OPEB Liability as a Percentage of Covered Employee Payroll - Healthcare, Schedule of Changes in the Net OPEB Liability – KPERS Death and Disability, Schedule of the Total OPEB Liability as a Percentage of Covered Employee Payroll - KPERS Death and Disability, Schedule of the City's Proportionate Share of the Net Pension Liability, Schedule of City's Contributions, and the notes to the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Winfield's basic financial statements. The introductory section, the combining and individual nonmajor fund financial statements, and statistical section as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory section, the combining and individual nonmajor fund financial statements, and statistical section as listed in the table of contents are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, introductory section, the combining and individual nonmajor fund financial statements, and statistical section as listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information Included in the Annual Comprehensive Financial Report

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the Annual Comprehensive Financial Report and Transmission schedules but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

As management for the City of Winfield, Kansas (the City) we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

Finances for this City are multifaceted and quite complex. As such, management desires for this narrative to be informative beyond what is seen on the face of the statements and to discuss the financial activities of the City. We hope you find these comments helpful as you read through them.

Financial Highlights

The assets and deferred outflow of resources for the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by $83.553 million (net position). The City's total net position in business activities and governmental activities increased by $6.104 million during the fiscal year. Of this amount, a positive $2.440 million (unrestricted net position) is the balance. Governmental net position increased 3% and business activities net position increased 10%. Highlights include revenues for the natural gas loan that exceeded expenses and an increase in investment interest of approximately $400 thousand. Additional balance was accumulated in the Transmission Utility for project expenses.

At the close of 2024, the City's governmental funds reported combined ending fund balances of $15.926 million. There is a positive $1.370 million of unassigned Fund Balance.

At the close of 2024, the City's primary operating fund, the General Fund, had a balance of $2.2 million or 22% of operating expenses. The unencumbered cash balance in the General Fund is 15% of operating expenses. This meets the management recommendation of 15% fund balance for General Fund.

At the close of 2024, the City's total long-term debt for governmental activities decreased $4.885 million. At the close of 2024, the City's total long-term debt for business activities decreased $2.640 million. The primary decrease is due to payoff of debt and leases. The bulk remaining of the decrease is related to pension liability. The City continues to make payments on existing debt. The fund balance in the Bond and Interest Fund decreased to $1.1817 million in 2024 from $4.698 million in 2023 due to the completion of the construction of the police facility.

Overview of the Financial Statements

The City's financial report consists of the following sections:

- Management Discussion and Analysis;
- The basic financial statements, which include the government-wide and the fund financial statements, along with the notes to the basic financial statements;
- Combining and individual statements and schedules for non-major funds; and,
- Statistical section

The basic financial statements of the City include the government-wide financial statements and the fund financial statements. The notes to the financial statements follow the basic financial statements and are essential for the reader's understanding of the financial statements. Other supplementary information, including the statistical section, is also included at the end of this report to provide additional context and information for the reader.

Government-wide financial statements present the results of the City's operations using the accrual basis of accounting, the basis of accounting used by private-sector businesses. These statements focus on the long-term financial picture of the City as a whole.

The *statement of net position* reports all the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference between the two reported as *net position.* Net position is an important measure of the City's overall financial health. The increases and decreases in net position can be monitored to determine whether the City's financial position is improving or deteriorating.

The *statement of activities* shows how the City's net position changed during the most recent fiscal year. The unique feature of this statement is how it shows the revenues and expenses related to specific programs and how much of the programs were supported by the general taxes of the City. Since this statement is prepared on the accrual basis of accounting, all revenues and expenses are included, regardless of when cash is received.

Both statements show the operations of the City broken down by governmental activities and business-type activities. Governmental activities are the operations of the City generally supported by taxes, such as public works, public safety, parks, land management, and general administration. Business-type activities are operations of the City that are intended to recover all or a significant portion of their costs through user fees and charges. These consist of the five utilities the City operates: electric, natural gas, water, wastewater, and storm water along with the Quail Ridge Golf Course.

Fund financial statements focus on individual parts of the City's government. These statements report the City's operations in more detail than the government-wide financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City uses fund accounting to ensure compliance with finance-related legal requirements. These funds are divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds financial statements are prepared on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available, and expenditures are recognized when the related fund liability is incurred, except for long-term debt and other similar items, which are recorded when due. The focus, therefore, is on the short-term financial picture of the operations reported rather than the City as a whole. Most of the City's basic operations are reported in the Governmental Fund financial statements. The information reported in these statements can be compared to the governmental activities information in the government-wide statements. The reconciliation at the end of the fund financial statements details the relationship between the two types of financial statements.

The City maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, debt service fund and capital projects fund, all of which are major funds. Data from the remaining governmental funds are combined into a single aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary funds are used by the City to account for activities that operate like commercial enterprises found in the private sector. Funds that charge fees for services provided to outside customers including other local governments are called enterprise funds. These funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Funds that charge fees for services provided to departments within the reporting government are known as internal service funds. Proprietary funds use the accrual basis of accounting; thus, the only reconciling items needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements relate to the elimination of internal service fund activity and capital asset ownership transfers.

The City has nine enterprise funds: Electric Transmission Fund, Electric Fund, Natural Gas Fund, Water Fund, Wastewater Fund, Natural Gas Loan Fund, Advance Metering Infrastructure Fund, Refuse Fund, and the Quail Ridge Golf Course Fund. The City has two internal service funds: Management Services Fund, and Operational Services Fund. The Electric Transmission Fund, Electric Fund, Natural Gas Fund, Water Fund, Wastewater Fund, Natural Gas Loan Fund, and Advance Metering Infrastructure Fund are the only ones considered major for presentation purposes.

Fiduciary funds are used by the City to account for resources held by the City for the benefit of a third party. Fiduciary funds are not reflected in the government-wide financial statements, since the resources of those funds are not available to support the City's operations. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the basic financial statements provide additional information that is essential to obtain a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the financial statements and accompanying notes described above, this report also contains *required supplementary information* concerning the City's progress in funding its obligation to provide postemployment benefits to its employees and supplementary information regarding non-major funds have been included to give the reader greater context of the information provided.

Analysis of the Government-Wide Financial Statements

Analysis of net position

As indicated earlier, net position may serve over time as a useful indicator of the City's financial condition. For the City, assets plus deferred outflows exceeded liabilities plus deferred inflows of resources by $83.553 million at the close of the current fiscal year. The City's net position increased by $6.104 million from the prior year, with business-type activities accounting for an increase of $2.350 million and governmental activities increasing by $3.754 million. The City expects net position to improve long term as the removal of liabilities—particularly those from Winter Storm Uri (natural gas loan)-- outpace remaining life and value of assets.

City of Winfield
Net Position

	Governmental Activities		Business-type Activities		Total	
	2024	2023	2024	2023	2024	2023

Deferred Inflows	7,531,490	6,939,172	1,261,486	714,953	8,792,976	7,654,125
Net position:						
Net investment in Capital Assets	33,742,497	24,956,686	33,481,674	33,098,515	67,224,171	58,055,201
Restricted for:						
Capital Projects	301,917	299,175	236,111	180,210	538,028	479,385
General Government	8,486,983	10,651,172	-	-	8,486,983	10,651,172
Public Safety	1,152,635	1,089,190	-	-	1,152,635	1,089,190
Health & Welfare	910,437	829,740	-	-	910,437	829,740
Cultural & Recreation	62,234	141,342	-	-	62,234	141,342
Economic Devel.	922,051	881,296	-	-	922,051	881,296
Debt Service	1,816,572	4,698,144	-	-	1,816,572	4,698,144
Unrestricted (deficit)	(11,214,902)	(11,120,171)	13,655,202	11,743,973	2,440,300	623,802
Total net position	$ 36,180,424	$ 32,426,574	$ 47,372,987	$ 45,022,698	$ 83,553,411	$ 77,449,272

As shown above, total assets were stable with a modest decrease by $275 thousand. Governmental Activities Assets decreased $498 thousand. Business-Type Activities Assets increased $224 thousand.

Liabilities decreased by $8.040 million. Governmental Activities Liabilities decreased $5.165 million. Business-Type Activities Liabilities decreased $2.876 million.

Approximately 75 percent of the City's net position reflect a net investment in capital assets (e.g., land, buildings, improvements, machinery and equipment, and construction work in process), less any outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently the capital assets are not available for future spending. This is a change from 74 percent the prior reporting period.

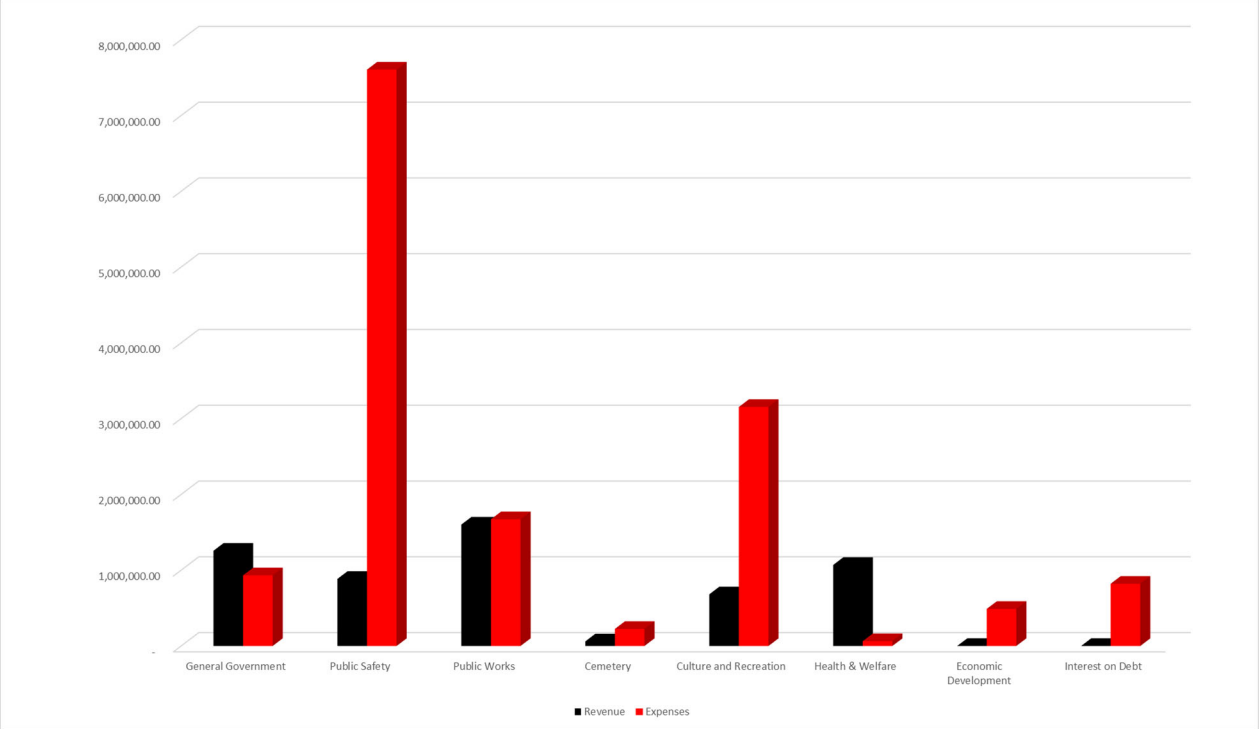

Analysis of Changes in Net Position

The following table reflects the revenues and expenses for the City's activities for the year ended December 31, 2024, and illustrate the comparison between the current year, and the prior year:

City of Winfield
Changes in Net Position

	Governmental Activities		Business-type Activities		Total	
Revenues:	2024	2023	2024	2023	2024	2023
Program revenues:

Net position, beginning	32,426,574	31,450,965	45,022,698	41,100,945	77,449,272	72,551,910
Prior period adjustment	(223,837)	(750,846)	(226,376)	750,846	(450,213)	-
Net position, ending	$ 36,180,424	$ 32,426,574	$ 47,372,987	$ 45,022,698	$ 83,553,411	$ 77,449,272

The City's net position in governmental activities increased $3.976 million. The chart below illustrates how the City's various governmental activities program revenue vs. program expenses fared in 2024.

- Public safety activities continue to represent the largest governmental activity expense, $7.606 million, or 51% percent of the City's total governmental activity expenses. Public safety expenses include police, fire, ambulance, building inspection and public parking services provided by the City.

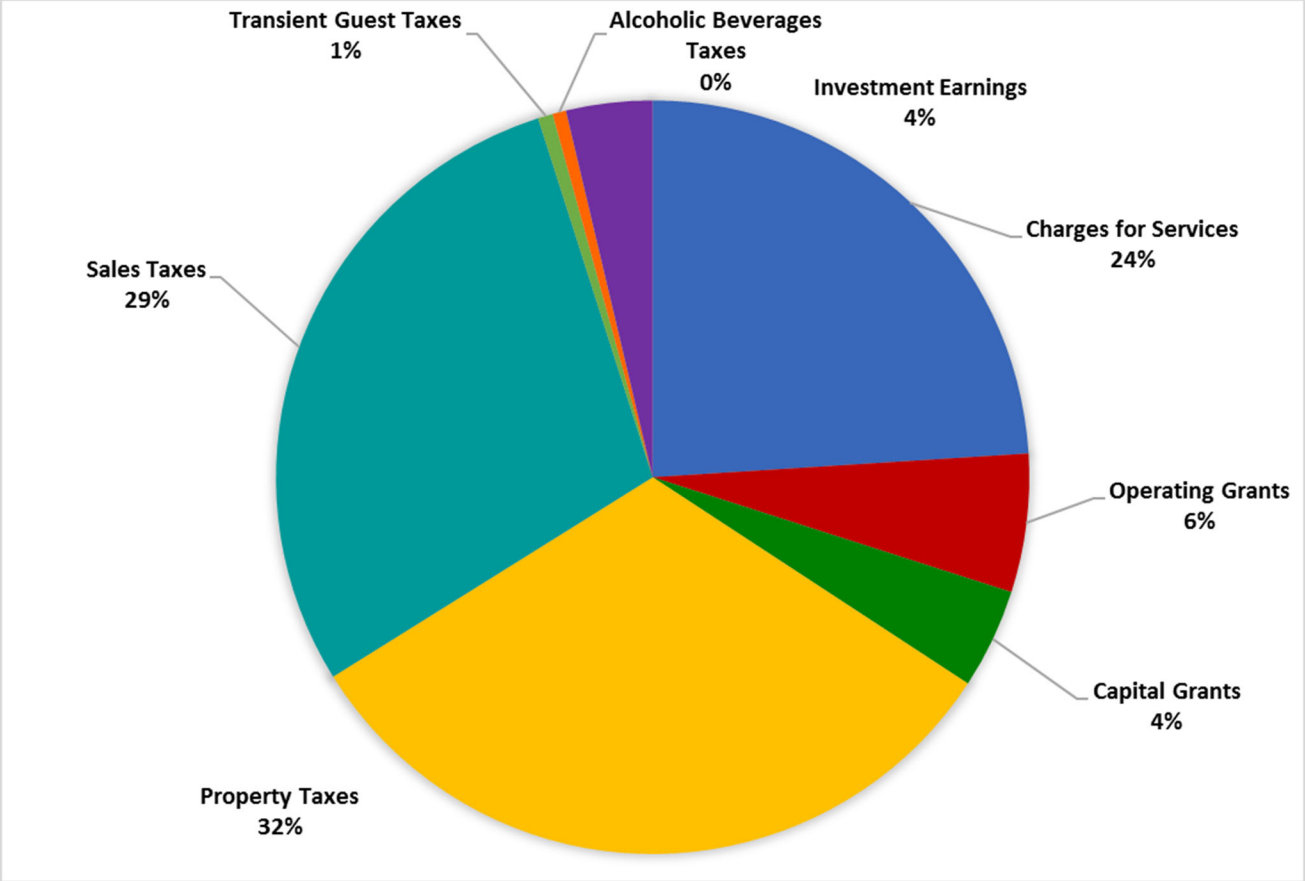

- Culture and recreation activities account for $3.155 million, or about 21.08% percent of the total governmental activity expenses. This activity includes the Aquatic Center, parks maintenance and the recreation operations at the City of Winfield Lake, the Broadway Sports Complex, and the Winfield Fairgrounds.

- Public works activities account for $1.673 million, or about 11.18% of the total governmental activity expenses. This activity primarily includes the street pavement maintenance program. This item ebbs and flows as project awards are made in conjunction with outside partners such as the Kansas Department of Transportation.

- General government activities account for $932 thousand, or 6.23% of the total governmental activity expenses. This activity includes cost not directly attributable to any other category such as streetlights, property insurance, management services, etc. Revenues exceeded expenses largely due to a one time true up of county ambulance payments due to the City.

The next chart illustrates the City's overall program and general revenues for governmental activities in 2024.

Major sources of revenue in governmental activities continue to be property, sales, and other taxes as illustrated in the graph.

- Property taxes totaled $5.180 million, or 32% of the City's governmental activities revenues. This continues to be consistent with long-term trends of support by taxes for these activities although a decrease from 34% in 2023. These revenues increased in the period due to inflationary pressures on the expenditure side.

- Charges for services totaled $3.897 million or 24% of the City's governmental activities revenues. These fees can essentially be summarized into four categories: community development, cemetery services, parks and recreation, and emergency medical services. These revenues increased $635 thousand, with a significant amount of that tied to ongoing construction permitting and improved drought conditions affecting certain services. The City annually reviews charges for services and adjusts based on market demand and service delivery costs.

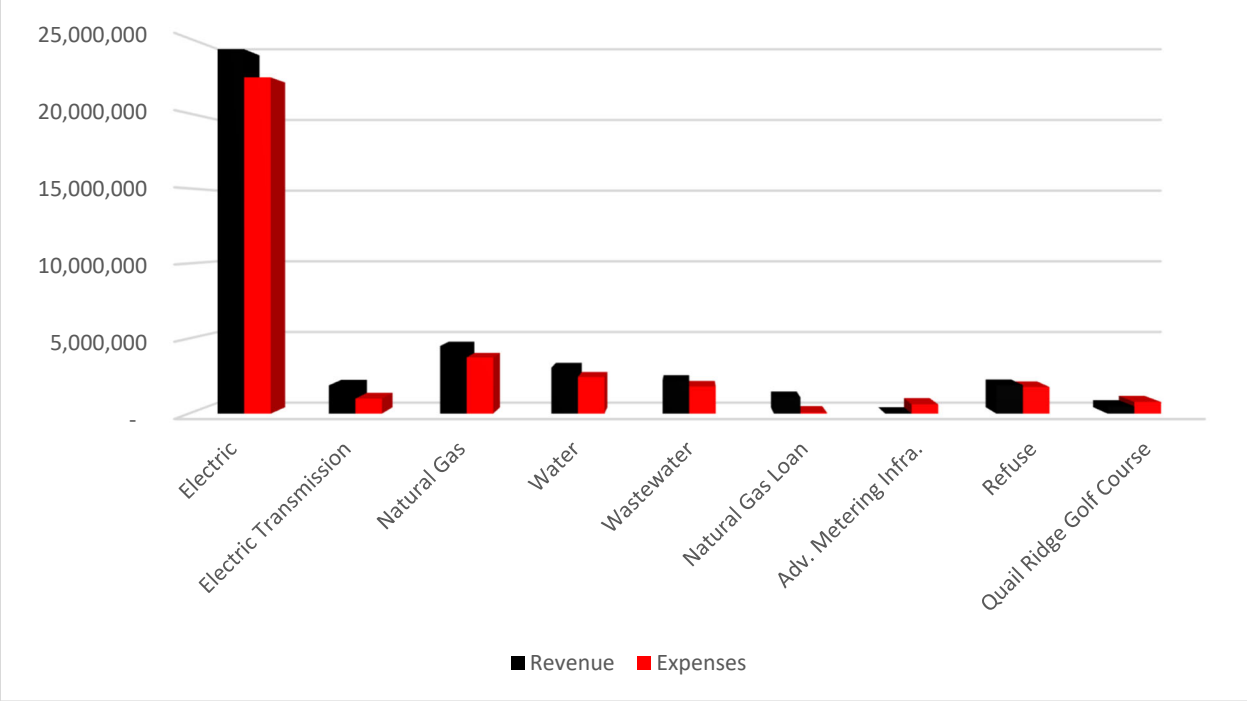

- Sales taxes totaled $4.703 million, or 29% of the City's governmental activities revenues. Budgetary basis reflects a 1% decrease in sales tax receipts for the City. This was attributed to one time utility construction other major auto retailer fleet purchases in 2023 that did not occur in 2024. The City has a 1% general sales tax. 1/2 of that tax is dedicated to Capital Projects and is recorded and tracked separately from the General Fund. The other 1/2 is used for general government services to help keep property taxes down.

- Capital grants and contributions totaled $697 thousand or 4% of the City's governmental activities revenues. These revenues include private and public contributions including federal and state grants for public safety equipment, various park improvements, and for public works street improvement projects.

Business-type Activities

The City operates six utilities and a municipal golf course. Combined, the transmission, electric and gas utilities comprise 78% of the total business-type activity charges.

The City's net position related to business-type activities increased by $2.350 million from the prior year. Contributing factors to this change is the decrease in energy charges that occurred in the period. The utilities remain to see a need for monitoring the ability to cover shared costs with governmental activities as well as future equipment and capital expenses.

Highlights in the business-type activities area include:

- The Electric Fund had revenues of $24.267 million, a decrease attributed to decreased energy costs on the Southwest Power Pool Integrated Market and sales. Lower energy costs were related to more balanced load across the Southwest Power Pool and a reliance on natural gas generation which was operating in a lower market position. Accordingly, expenses were $22.390 million. The budgetary basis reflected an increase in available cash by $478 thousand.

- The Natural Gas Fund had revenues of $4.54 million, a decrease attributed to the fall in the market costs of natural gas for resale to customers. Accordingly, expenses were $3.739 million. Budgetary basis expenditures exceeded revenues by $66 thousand.

- The Water Fund had revenues of $3.061 million, which decreased $88 thousand from the prior year mainly attributed to sales. Expenses were $2.432 million, decreased from the prior year and attributed to increased costs in materials and supplies for normal operation including chemicals and pipe. Additionally, the water meter project was flowing through this fund proportionally in 2024. Budgetary basis revenues exceeded expenses by $153 thousand.

- The Wastewater Fund had revenues of $2.203 million, which was a decrease of $143 thousand. Expenses were $1.811 million, flat with the prior year. Budgetary revenues exceeded expenses by $262 thousand. This fund continues to gain balance awaiting potential project costs for plant upgrades.

- The Refuse Fund had revenues of $1.904 million. Expenses were $1.779 million, reflecting the purchase and financing of capital for a refuse truck. Budgetary revenues were more than expenses by $150 thousand.

- The Quail Ridge Golf Course Fund had revenues of $485 thousand, which was an increase of $38 thousand over the prior year. The primary factor for the revenue increase was favorable weather inducing increased play and the adjustment of rates. The City continues working to move toward more self-support of the course through fees for service. The main resource for this fund outside of the charges for services is transfers in from other funds, which offset the difference between revenues and expenses. Expenses for 2024 were $738 thousand—up from prior years reflecting capital costs.

Financial Analysis of the City's Funds

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the City's financing requirements. Unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year. Types of governmental funds reports by the City include the general fund, special revenue funds, debt service funds, and capital project funds.

General Fund

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the total fund balance was $2.201 million. As a measure of the general fund's liquidity, it may be useful to compare the budgetary basis unencumbered available fund balance, increased to $1.530 million, to total general fund expenditures. This comparison represents 15% of total General Fund expenditure of $10.325 million.

The total revenue in the general fund was $10.554 million, an increase by $685 thousand. This change is mostly reflected in a change of sales and property taxes to the fund as well as a reduction in transfers to the fund from the proprietary funds. There was a one time true up of interagency funding for ambulance service.

The total expenditures in the general fund were $10.325 million, an increase of $560 thousand. This increase is related to inflationary trends as well as planned labor increases for public safety. The City continues to monitor expenditures through a planned quarterly management review with each operating area in addition to monthly internal reviews.

Debt Service Fund

At the end of 2024, the balance of this fund moved to $1.633 million from $4.515 million in 2023—$2.9 million of which accounts for debt held for construction of the police facility. Excerpting that amount, fund balance stayed relatively the same. This balance is restricted for the payment of future debt and expected to grow as revenues exceed expenditures in future years. The City has made concerted efforts toward this point to call future debt and lower future interest costs for the City. The fund is expected to continue to acquire fund balance that will be used to offset the refunding of current debt in 2025 and 2026.

Advanced Metering Infrastructure Fund

This fund is used to separately account for temporary note and long-term indebtedness related expenditures to accommodate the upgrade of metering system for utilities. This project has largely shifted to operating funds. The project is expected to continue into 2025 and was financed through the issuance of long-term debt—which is expected to close the fund for accounting purposes.

Special Streets and Highway Fund

At the end of the current fiscal year, the total fund balance was $3.127 million, an increase of $268 thousand over the prior year. This balance is not restricted to uses related to streets as it is largely funded by a general sales tax that the City elected to allocate to the fund beginning in 2021. Annually, the City completes a pavement analysis to determine the best application of dollars for long term asset impact. Large planned project expenditures in 2026 have necessitated the building of reserves which will require funds up front before reimbursement.

Public Safety Needs Study Fund

The fund balance of $1.712 million and related revenues and expenses in the fund are related to a facilities project the City has undertaken. Prior to 2019, when a sales tax referendum was approved with 89% voter approval for the project, the City completed necessary study demonstrating the need for improved facilities and later demolition on existing facilities. In 2020, the City began construction on a new public safety facility. The project is slated to occur in four phases:

Phase I Demolition/Study
Phase II Fire/EMS Addition
Phase III Police Facility/Shared Training Facility
Phase IV Renovation of Existing Fire Station

The second phase was completed in the fall of 2022 and financed by bonds issued in conjunction with the project in 2020. Phase III of the project was bid for construction in late 2023 and completed in 2025. Phase IV of the project was completed early and was paid for without borrowing. Total principal and interest costs of the project came in approximately $3 million less than the planned $24 million total expenditure over the 25 year horizon. Sales tax receipts are more than expected and other monies in the fund balance are related to applicable bond proceeds to finance the construction of the facility.

Expenditures in this fund occur as the project is constructed. As the bond proceeds balance is drawn down, sales tax dollars will be transferred into the fund to cover expenditures as is reflected in the reduction of fund balance for 2024. The City has employed a financial strategy of increasing the fund balance to call temporary notes in 2027 to reduce long term interest exposure of the project.

Capital Projects Fund

At the end of the current fiscal year, the total fund balance in the major capital project funds was $2.633 million, an increase of $350 thousand compared to the prior year all of which is restricted for future capital projects. The City completes an annual planning process setting priorities for the use of the funds into general areas of improvement or to specific projects.

The total revenue was $1.230 million. The largest financing source to these funds is a direct revenue from sales tax for the ½ cent sales tax attributable to capital projects/equipment.

The total expenditures were $335 thousand, a decrease from the previous fiscal year. Expenditures in this fund occur as projects become ready for construction. Major upcoming projects include Island Park lagoon expenses and City Hall expenses.

Other governmental funds (Combined)

This grouping is the summation of all other special revenue funds. These funds are not considered major funds, so the detail on each specific fund can be found in the section titled, "Combining Statement of Revenues, Expenditures and Changes in Fund Balances - Nonmajor Special Revenue Funds".

At the end of the current fiscal year, the total fund balances in all other governmental funds was $4.437 million, a decrease of $150 thousand compared to the prior year. The total revenue was $3.957 million. The total expenditures were $3.681 million. Transfers out made up the bulk of the fund balance change with most of that a change in location funds related to the public safety center.

Proprietary Funds

The City's proprietary fund statements provide the same type of information found in the government-wide statements, but for our business type activities. The funds listed below are the City's major proprietary funds:

The electric transmission fund was established in 2020. The electric transmission fund had a total net position of $3.433 million at the end of the current fiscal year. This fund supports the maintenance and capital improvements of the electric transmission system. The system is owned 65%/35% with GridLiance High Plains, a Nextera Energy Company as the majority holder. The City completes all the operations and maintenance and is reimbursed for those expenditures by the ownership. Additional revenue source for the fund comes from the return on investment that is allowed through the Federal Energy Regulatory Commission formula rates established.

The electric fund had a total net position of $20.778 million at the end of the current fiscal year. This is an increase from the prior year reflecting a higher amount of cash on hand primarily due to the favorable energy markets and adjusted rates as plant investment is planned and financial planning toward 90 days cash on hand is implemented.

The natural gas fund had a total net position of $7.600 million at the end of the current fiscal year. This is a increase from the prior year of 403 thousand and largely reflects the change in infrastructure and balances from favorable market changes.

The water fund had a total net position of $6.138 million at the end of the current fiscal year. This is an increase of $218 thousand from the previous year—a trend that will ebb and flow as labor, equipment and large capital upgrades are implemented over the next three years.

The wastewater fund had a total net position of $9.200 million at the end of the current fiscal year. This is an increase of $177 thousand from the previous year, attributed to increasing available cash assets as a planned upgrade approaches.

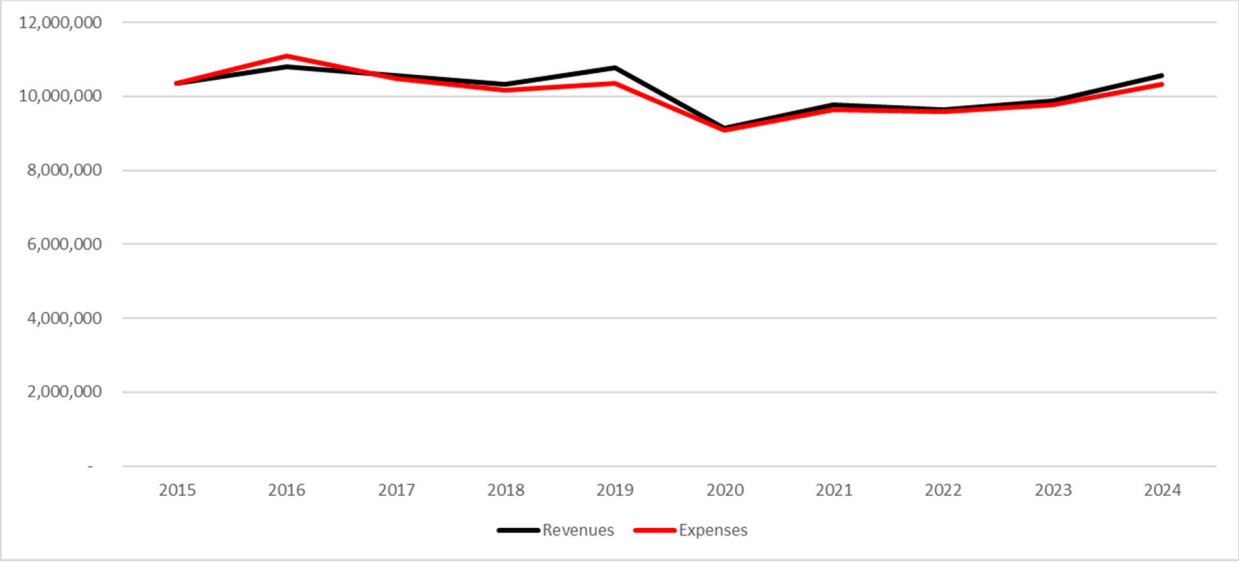

Fiduciary Funds

The City maintains three fiduciary funds: Payroll Clearing, Sales Tax, and Flexible Medical.

General Fund Budgetary Highlights

The following graph illustrates the City's General Fund Revenues against Expenditures for fiscal years ended 2014 through 2024:

As this graph illustrates, the City has had revenues more than expenditures nine of the last ten years. The City will need to continue monitoring expenditures as compared to stable growth with respect to assessed valuations. To measure against a lack of desire for increased property tax receipts, the City will need to review expenditures and likely identify user fee adjustments or ways to promote local sales tax receipts. Increases in franchise charges to utilities may need to be reviewed and adjusted upward to offset as necessary.

Capital Asset and Debt Administration

Capital Assets

The City's investment in capital assets for its governmental and business-type activities as of December 31, 2024, amounts to $97.422 million (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, improvements, machinery and equipment, intangibles, vehicles, roads, water lines, sewer lines, natural gas lines and electric lines.

City of Winfield Capital Assets

	Governmental Activities		Business-Type Activities		Total	
	2024	2023	2024	2023	2024	2023

For additional information on capital assets, see Note 4 to the Basic Financial Statements.

Debt Administration

At the end of 2024, the City had a total long-term debt outstanding of $55.921 million—a decrease of nearly $7.5 million. Of this amount, $27.264 million was general obligation debt backed by the full faith and credit of the City—a reduction of 1.6 million in 2024. Of that, $9.896 was general obligation debt that is supported by business activities.

CITY OF WINFIELD, KANSAS

Reconciliation of the Balance Sheet of Governmental Funds
To Statement of Net Position
December 31, 2024

Total Governmental Fund Balances		$ 15,925,815
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets and right-to-use (lease) assets used in governmental activities are not financial resources and therefore are not reported in the funds (capital assets net of accumulated depreciation):		
Cost	79,262,367	
Accumulated depreciation/amortization	(27,140,870)	
		52,121,497
Other assets not available to pay for current period expenditures and therefore are not reported in the governmental funds:		
Special assessments taxes receivable		844,699
Lease receivable		1,362,471
Certain items, which result in a consumption of net assets applicable to a future reporting period, are recognized as deferred outflows of resources in government-wide financial statements:		
Deferred outflows related to pensions		2,463,420
Deferred outflows related to OPEB		151,214
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds:		
Accrued interest payable on general obligation bonds	191,123	
Compensated absences payable	615,281	
Lease obligations payable	311,080	
General obligation bonds payable	17,368,040	
Notes payable	5,800,000	
Unamortized premium on sale of general obligation bonds	699,880	
Interlocal agreement payable	111,000	
Net pension liability payable	8,273,634	
Total death & disability liability payable	79,747	
Total OPEB liability payable	587,162	
		(34,036,947)
Certain items, which result in an acquisition of net assets applicable to a future reporting period, are recognized as deferred inflows of resources in government-wide financial statements:		
Deferred inflows related to pensions		(835,014)
Deferred inflows related to OPEB		(525,005)
Deferred inflows related to leases		(1,291,726)
Internal service funds are used to charge the cost of certain activities to individual funds. The accumulated equity for the governmental fund types is reported on the statement of net position as internal balances		-
Net Position of Governmental Activities		$ 36,180,424

The accompanying notes are an integral part of the financial statements.

CITY OF WINFIELD, KANSAS

Reconciliation of the Statement of Revenues, Expenditures, and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
Year Ended December 31, 2024

Net Change in Fund Balances - Total Governmental Funds		$ (4,767,147)
Amounts reported for governmental activities in the statement of net position are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlays	$ 9,423,421	
Depreciation	(1,683,657)	
Excess capital outlays over depreciation		7,739,764
Debt proceeds provide current financial resources for governmental funds but issuing debt increases long-term liabilities in the statement of net position for:		
Lease obligations payable		-
Bond proceeds		(704,000)
Interlocal agreement proceeds		
In the statement of activities, interest is accrued on outstanding debt, whereas in governmental funds, an interest expenditure is reported when due.		172
In the statement of activities, the gain or loss from the disposition of capital assets is reported, whereas in the governmental funds, only cash proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of the assets sold.		(3,124,921)
Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets:		
General obligation bond payments	1,647,218	
Lease obligation payments	3,167,220	
Interlocal agreement payments	37,000	
Total payments on long-term liabilities		4,851,438
In the statement of activities the deferred refunding costs increases deferred outflows of resources but does not provide current resources to the governmental funds. Amortization of the deferred refunding costs is reflected in the statement of activities but is not reported as expenditures in the governmental funds:		
Amortization of deferred refunding costs		
Special assessments are not considered available to liquidate liabilities of the current period. However, they are recognized as revenue in the statement of activities as soon as the related improvements is completed and the special assessments are levied.		(166,183)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental fund for long-term receivables		(45,982)
Pension contributions is an expenditure in the governmental funds but reduces the net pension liability in the statement of net position. Additionally, the effect of changes in deferred outflows and inflows for pensions are only recorded in the statement of activities.		153,477
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.		
Net Other Postemployment Benefits Other Than Pensions		283,114
Deferred inflows and outflows related to OPEB		(329,807)
Compensated absences payable		(268,038)
Amortization of premium on issuance of general obligation bonds		60,531
Deferred inflows related to leases		71,432
Prior period adjustment due to implementation of GASB 101		223,837
Change in Net Position of Governmental Activities		$ 3,977,687

The accompanying notes are an integral part of the financial statements.

The accompanying notes are an integral part of the financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The City of Winfield, Kansas (the City) was founded in 1869. Located in the northern half of Cowley County, the City has a population of over 12,000 living within an area of 12 square miles. The City operates under a charter adopted February 2, 1873, as a Commission/Manager form of government. The City provides a full range of municipal utility services to its citizens including electric, gas, water, wastewater and sanitation services. Other municipal services include police and fire protection, ambulance services, construction and maintenance of streets, drainage facilities and other infrastructure, recreation and cultural activities, a municipal golf course, community and industrial development, planning and zoning, building inspection, cemetery operations and maintenance, general administration and internal support services.

As required by generally accepted accounting principles, these financial statements present the City of Winfield, Kansas (primary government) and its component units, entities for which the City is considered to be financially accountable. A primary government is financially accountable if it appoints a voting majority of an organization's governing body and (1) it is able to impose its will on that organization or (2) there is potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The component units discussed in the following paragraphs are included in the City's reporting entity because of the significance of their operational or financial relationship with the City.

Discretely presented component units

Winfield Public Library

The Winfield Public Library operates the public library in the City. The Winfield Public Library is accounted for using the same principles as the governmental fund types of the City. The City Commission appoints all Library Board members and the Library Board may not purchase or lease a site or erect a building for use of the library without the approval of the City Commission. The Library Board taxes are levied under the taxing authority of the City and are included as part of the City's total tax levy. These taxes are accounted for in the Library special revenue fund of the City. The Library Board also receives funding through state assistance programs and other sources. The Library Board issues separate financial statements and a copy can be obtained by contacting the administrative offices of the Winfield Public Library, 605 College, Winfield, Kansas 67156.

Winfield Housing Authority

The Winfield Housing Authority (Housing Authority) operates the City's housing projects. The Winfield Housing Authority is accounted for using the same principles as the business-type funds of the City. The City created the Winfield Housing Authority as its agent in 1978 under the provisions of K.S.A. 17-2340. The City Commission appoints all board members and has the ability to impose its will on the Winfield Housing Authority. Although the City does not have the authority to approve or modify the Housing Authority's operational and capital budgets, and the Housing Authority has the ability to issue bonded debt, the City is fiscally responsible for the Housing Authority since it was created as an agent of the City. The City Commission has delegated to the Housing Authority the power to operate and manage the low-rent housing projects of the City. The Housing Authority is on a June 30th fiscal year end and data included in these financial statements are for the fiscal year ended June 30, 2020. The Winfield Housing Authority issues separate financial statements and a copy can be obtainted by contacting the administrative offices of the Winfield Housing Authority, 1417 Pine Terrace, Winfield, Kansas 67156.

Joint ventures

A joint venture is a legal entity or other organization that results from a contractual arrangement (or interlocal agreement) and is owned, operated or governed by two or more participants as a separate and specific activity subject to joint control. The participants retain (a) an on-going financial interest or, (b) an on-going financial responsibility. The City participates in the following joint ventures:

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Joint ventures (Cont.)

Strother Field Airport and Industrial Park

The Cities of Winfield and Arkansas City, Kansas entered into an interlocal agreement to create Strother Field Airport and Industrial Park (Strother Field). Three commissioners from both cities comprise the Strother Field governing body. The two cities jointly own Strother Field. The cities provide no financial support to Strother Field. Separate audited financial statements are available from Strother Field Airport and Industrial Park, P.O. Box 47, Winfield, Kansas 67156.

Cowley County Humane Society Interlocal Agreement

The Cities of Winfield and Arkansas City, Kansas entered into an interlocal agreement to jointly operate and fund the animal shelter. The purpose of this agreement is to provide for the continuity for the use of the Cowley County Humane Society to temporarily house, care for and disperse unwanted or stray animals. Each City and the Society shall continue to have equal one-third ownership interest in the shelter facility. Records and reporting are maintained by the Humane Society, and both cities contribute annually to the operations of the shelter and have an ongoing financial interest in the organization. Unaudited financial statements are available from the Cowley County Humane Society, 7468 222nd Road, Winfield, Kansas 67156.

Arkansas City/Winfield Recycling Center

The Cities of Winfield and Arkansas City, Kansas entered into an interlocal agreement to jointly purchase and operate a recycling center. Additionally, the City of Winfield offers single stream recycling to Winfield residents. Records are maintained by the City of Winfield and both cities share equally in the costs and recycling revenues. No separate financial statements are prepared for this joint venture. Further financial information can be obtained from the City of Winfield, 200 E. 9th Avenue, Winfield, Kansas 67516. A summary of 2024 revenues and expenses for the recycling center are as follows:

Recycling revenues	$	29,092
Recycling expense		56,357
Depreciation Expense		3,492

Related organizations

A related organization is an organization of which a primary government is not financially accountable (because it does not impose will or have a financial benefit or burden relationship) even though the primary government appoints a voting majority of that organization's governing board.

William Newton Memorial Hospital

The City Commission is responsible for appointing the Board members of the William Newton Memorial Hospital (Hospital), but the City's accountability for the Hospital does not extend beyond making appointments.

Basis of presentation

The financial statements of the City have been prepared in conformity with accounting principals generally accepted in the United States of America as applied to governmental units. The *Governmental Accounting Standards Board* (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The more significant of the City's accounting policies are described here-in.

The City's basic financial statements include both government-wide, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Government-wide financial statements

The government-wide financial statements, consisting of the statement of net position and the statement of activities, report information on all the nonfiduciary activities of the primary government and its component units. As a general rule, the effect of interfund activities has been eliminated from the government-wide financial statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type actives, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component units for which the primary government is financially accountable.

The statement of net position presents the financial condition of the City and its component units at year-end. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are specifically associated with a service, program or department and therefore are clearly identifiable to a particular function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as governmental revenues.

Fund financial statements

The fund financial statements provide information about the City's funds, including its fiduciary funds. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

Measurement focus and basis of accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers property tax revenues to be available in the period for which levied and other revenues if they are collected in 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgements, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under leases are reported as other financing sources.

Sales taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Property taxes and special assessments are not available as explained in Note 1, topic *Property Taxes and Other Receivable,* and result in unavailable revenue. All other revenue items are considered measurable and available only when cash is received by the City.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Measurement focus and basis of accounting (cont.)

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

The City reports the following major governmental funds:

General Fund - The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

Debt Service Fund - The Debt Service Fund is used to account for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Capital Improvements Fund - The Capital Improvements Fund is used to account for many of the major capital improvements of the City (other than those financed in proprietary funds) and is financed primarily through on-half of the local sales tax revenues and other City transfers.

Special Streets and Highway - to account for street maintenance operations. Financing is provided through motor fuel taxes distributed from the State of Kansas Special City and County Highway Fund.

Public Safety Needs Study - to account for a project authorized by the City Commission in 2015 to determine the long-term solution for police, fire and ambulance facilities.

Additionally, the City reports the following major proprietary funds:

Electric Utility Fund - The Electric Utility Fund is used to account for the operation and maintenance of the City's electric generation and distribution system. The City purchases electricity and maintains a 65 KW generation capacity. Electric service is provided to more than 7,400 meters, both within the City and in surrounding areas, and sold wholesale to neighboring cities.

Electric Transmission Fund - The Electric Transmission Fund accounts for the ongoing costs of the newly formed partnership of GridLiance Great Plains and the City of Winfield to jointly own and operate the transmission lines previously owned 100% by the City. GridLiance Great Plains now owns 65% interest of this asset with the City owning 35% of the asset.

Gas Utility Fund - The Gas Utility Fund accounts for the operation and maintenance of the City's gas distribution system. The City purchases natural gas and provides service to approximately 5,200 meters.

Water Utility Fund - The Water Utility Fund is used to account for the operation and maintenance of the City's water treatment plant and the water distribution system. The Winfield City Lake provides adequate quality water supply to Winfield citizens providing water to approximately 5,200 meters. The City also provides access to water for five rural water districts and one neighboring city.

Wastewater Utility Fund - The Wastewater Utility Fund is used to account for the operation and maintenance of the City's wastewater collection system and wastewater treatment plant. The City collects and treats effluent of City residents providing service through the City to approximately 5,000 customers.

Natural Gas Loan Fund - to account for the ongoing costs and collections related to the State of KS loan that was taken out to cover the increased costs related to the winter storm of February 2021. The City is collecting fees from customers over the next 10 years to provide funds to repay the loan.

Advance Metering Infrastructure Fund - used for the improvement of the metering system of the City’s utilities including water, sewer, electric and natural gas. Long term financing is paid through transfers from applicable utility funds by percentage of the project total.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Measurement focus and basis of accounting (cont.)

The City also reports the following fund types:

Special Revenue Funds - Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Project Funds - The Capital Project Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets other than those financed by proprietary funds.

Permanent Funds - Permanent Funds are used to report an endowment restricted to the perpetual care of the municipal cemeteries.

Internal Service Funds - The Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City on a cost reimbursement basis and to account for the City's self-insurance activities.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments for franchise fees and other charges between the City's enterprise funds and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reports for the various functions concerned.

During the course of operations, the City has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/due to other funds and advanced to/from other funds. While these balances are reported in the fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between funds included in governmental activities are eliminated so that only the net amount is included in the governmental activities column. Similarly, balances between funds included in business-type activities are eliminated so that only the net amount is included in the business-type activities column. The City does not have a formal policy on removing internal activity on the government-wide financial statements.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. In addition, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperation items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. Principal operating revenues of the proprietary fund are charges to customers for sales and services. Operating expenses for Enterprise and Internal Service Funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting these criteria are reported as nonoperation revenues and expenses.

Property taxes are not susceptible to accrual. Sales taxes collected and held by the State at year-end on behalf of the City are recognized as revenue. In addition, gaming facility revenues collected and held by the State at year-end on behalf of the City are recognized as revenue. Recognized state shared taxes represent payments received during the current fiscal period. State statutes specify distribution dates for such shared taxes and consequently, for revenue recognition purposes, amounts collected and held by the State on behalf of the City at year-end are not due and receivable until the ensuing year.

Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. Unrestricted aid is reported as revenue in the fiscal year the entitlement is received.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Measurement focus and basis of accounting (cont.)

Licenses, fees, fines, forfeitures and other revenue are generally not susceptible to accrual and are recorded when received as cash.

Cash and pooled investments

Cash and investments of the individual funds are combined to form a pool that is managed by the Director of Finance. Each fund's equity in the pool is included in "cash and cash equivalents" in the financial statements. Cash includes amounts in demand deposits. Investments in the pooled accounts consist of certificates of deposit and money market investments backed by U.S. government securities. Investments are carried at fair value. Deposits are reported at their cost, which approximates fair value. Interest income is allocated based on management discretion and is credited to the investing fund based on their average monthly balances.

Cash flows statement

For purposes of the cash flows statement, the City considers deposits of highly liquid investments with an original maturity of three months or less to be cash equivalents.

Restricted cash is related to the Wastewater Depreciation Reserve funds. See note 8 for more information on this amount.

Property taxes and other receivables

In accordance with governing state statues, property taxes levied during the current year are a revenue source to be used to finance the budget of the ensuing year. Taxes are assessed on a calendar year basis and are levied and become a lien on the property on November 1 of each year. The County Treasurer is the tax collection agent for all taxing entities within the County. Property owners have the option of paying one-half or the full amount of other taxes levied on or before December 20th during the year levied, with the balance to be paid on or before May 10th of the ensuing year. State statutes prohibit the County Treasurer from distributing taxes collected in the year levied prior to January 1 of the ensuing year. Consequently, for revenue recognition purposes, the taxes levied during the current year are not due and receivable until the ensuing year. At December 31 such taxes are a lien on the property and are recorded as taxes receivable, net of anticipated delinquencies, with a corresponding amount recorded as unearned revenue on the balance sheets of the appropriate funds. It is not practical to apportion delinquent taxes held by the County Treasurer at the end of the year and, further, the amounts thereof, are not material in relationship to the financial statements taken as a whole.

Recognized State-shared taxes represent payments received during the current fiscal period. State statutes specify distribution dates for such shared taxes. For revenue recognition purposes, amounts collected and held by the State on behalf of the City at year-end are not due and receivable until the ensuing year.

Federal and state grant aid is reported as revenue when the related reimbursable expenditures are incurred. Unrestricted aid is reported as revenue in the fiscal year the entitlement is received.

Special assessments receivable

As required by State statutes, projects financed in part by special assessments are financed through the issuance of general obligation bonds that are secured by the full faith and credit of the City and are retired from the City's debt service fund. Further, State statutes permit levying additional general ad valorem property taxes in the City's debt service fund to finance delinquent special assessments receivable. Special assessments paid prior to the issuance of bonds are recorded as revenue in the appropriate construction project. Special assessments received after the issuance of bonds are recorded as revenue in the debt service fund. Special assessment taxes are levied over a ten or fifteen-year period and the annual installments are due and payable by special assessments when delinquent assessments are two years in arrears. At December 31, the special assessment taxes levied are a lien on the property and are recorded as special assessments receivable in the debt service fund and accrued as revenues in the statement of net position. Since they are not considered available spendable resources for the funds statement, the special assessment receivables are reported as unearned revenue in the funds statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Revenue recognition for proprietary funds

Revenue is recorded as billed to customers on a cycle basis. Residential and commercial customers are billed monthly. The uncollected portion of billed services through December 31 and estimates of unbilled service at December 31 are reflected as accounts receivable net of amounts estimated to be uncollectible. All users, including other City departments are charged for services provided by the respective proprietary funds.

Inventories and prepaid expenditures

As a general rule, inventories and prepaid expenses that benefit future periods, other than those recorded in the proprietary fund types, are recorded as expenditures during the year of purchase. Inventories of supplies are stated at cost and inventories held for resale are stated at the lower of cost or net realizable value, cost being determined by the average unit cost method. Certain prepaid payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items of government funds are recorded as expenditures when consumed rather than when purchased.

Capital assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, bridges, curbs and similiar items) and construction in progress are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City defines capital assets as assets with an initial individual cost of $5,000 or more. Capital assets are valued at historical cost, or estimated historical cost (if actual historical cost is not available.) The historical cost, or estimates of historical cost, for the City's infrastructure assets include only those assets acquired subsequent to January 1, 1980. Donated capital assets are valued at their acquisition value on the date donated. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. For proprietary funds, interest costs incurred to bring certain assets to the condition and location necessary for their intended use are capitalized as part of the historical cost of acquiring the assets. Additionally, in situations involving the acquisition of certain assets financed with the proceeds of tax-exempt borrowing, any interest earned on related interest-bearing investments from such proceeds are offset against the related interest costs in determining either capitalization rates or limitations on the amount of interest costs to be capitalized. During 2024, the City had no interest costs subject to capitalization.

Property, plant and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

Asset	Life/Years
Buildings and improvements	40-50
Equipment	5-15
Vehicles	8
Meters	20-30
Asphalt and concrete streets	40-50
Sidewalk and curbs and gutters	40-50
Park/recreational infrastructure	20-30
Electric generation plans	30-35
Transformers	15-20
Electric poles	25
Conductors/related equipment	35
Gas lines/infrastructure	40-75
Water treatment plant	30-50
Water lines/infrastructure	30-65
Sewer lines/infrastructure	50-75
Lift stations	25

Amortization of capital assets acquired under lease purchase agreements is included in depreciation expense. Capital assets not being depreciated include land and construction work in process.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Compensated absences

The City provides compensated absence benefits for the following:

Vacation

Vacation leave is provided to full-time employees. Employees begin earning vacation commencing with the first day of employment. Full-time employees accrue paid vacation leave with specified accrued accumulated maximums that vary by years of service and employment category (Firefighters versus All Other).

Category	Years of Service	Accrual Rate	Accumulated Maximum
Firefighter	< 10	96 hours per year	202 hours
Firefighter	> 10	144 hours per year	269 hours
All Other	< 10	96 hours per year	144 hours
All Other	> 10	144 hours per year	192 hours

An employee who separates from service through resignation, layoff, retirement, or death is compensated at their regular rate of pay at the time of separation for all accumulated, unused vacation leave.

Sick leave

Sick leave is available to full-time employees who are unable to work because of illness, injury or disability, including illness, injury or disability of child, spouse or parent of an employee, requiring such employee's care. Full-time employees accrue paid sick leave with specified accrued accumulated maximums that vary by years of service and employment category (Firefighters versus All Other). Sick leave is not accrued during overtime, call-back or stand-by.

Category	Accrual Rate	Accumulated Maximum
Firefighter	134 hours per year	1008 hours
All Other	96 hours per year	720 hours

Sick leave reserve

Employees who accrue the maximum hours of sick leave become eligible to accrue sick leave in a reserve account. Reserve sick leave is credited at the rate of 2 hours for each 8 hours of sick leave that would have accrued had the 90 day (or equivalent) maximum accrual not been reached. There is no maximum as to the number of reserve sick leave hours that may be accumulated. Because it is designed to assist employees in the case of extended illness, reserve sick leave shall be used only after regular sick leave is exhausted.

Payout of Unused Sick Leave and Unused Sick Leave Reserve Account

In the event of a termination for medical reasons, upon retirement or upon the death of an employee eligible for retirement, employees or the employee's beneficiary receive a payout of 25% of unused sick leave hours and 100% of unused sick leave reserve account hours at the regular rate of pay at the time of termination.

Sick leave bonus

Employees may qualify for sick leave bonus as follows:

An employee who reaches the 90 day or equivalent sick leave maximum accrual becomes eligible for the annual sick leave bonus program. For each pay period which an employee begins and ends with a 90 day or equivalent maximum accrual intact, he/she will be awarded one hour's pay at the regular rate of pay. This bonus is paid to the employee on the 24th paycheck of the year for the preceding 26 pay periods.

Upon retirement, an employee will be awarded 1/4 of a day's pay for each day of sick leave accumulated plus one full day's pay for each full day accumulated in his/her sick leave reserve account. If an employee who is eligible for retirement dies prior to retirement, the sick leave retirement bonus (both regular and reserve) will be paid to the employee's beneficiary.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Accrued liabilities and long-term debt

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgements, compensated absences, general obligation bonds and lease obligations that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Deferred amounts on bond refundings and bond premiums and discounts are being amortized on a straight-line method over the life of the related bonds in the enterprise funds and for the government-wide financial statements, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

Long-term liabilities for certain general obligation bonds payable and capital lease obligations payable are recorded as liabilities in the enterprise funds. Principal payments are deducted from the liability as made.

Pension plans

Substantially all full-time employees, except for police, fire and emergency medical services employees, are members of the State of Kansas Public Employee's Retirement System, which is a cost sharing multi-employer statewide-defined benefit pension plan. Police, fire and emergency medical services employees are members of the State of Kansas Police and Firemen's Retirement System, which is also a cost sharing multi-employer statewide pension plan. The City's policy is to fund all pension costs accrued; such costs to be funded are determined annually by the System's actuary.

The City of Winfield participates in a cost-sharing multiple-employer pension plan administered by the Kansas Public Employees Retirement System (KPERS). For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Kansas Public Employees Retirement System (KPERS) and additions to/deductions from KPERS' fiduciary net position have been determined on the same basis as they are reported by KPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at actuarial value.

Other post-employment benefit plans

The City administers an Other Postemployment Benefits (OPEB) plan providing medical and dental benefits to retired employees and their dependents under certain conditions.Individuals who are employed by the City and are eligible to participate in the group medical and dental plans are eligible to continue healthcare benefits upon retirement after retiring under the KPERS or the KP&FRS. The also City participates in a multiple-employer defined benefit other postemployment benefit plan (the plan) which is administered by the Kansas Public Employees Retirement System (KPERS). The Plan provides long-term disability benefits and a life insurance benefit for disabled members to KPERS members, as provided by K.S.A. 74-04927.

For the year ended December 31, 2024, the City had a total OPEB liability of $1,554,131, which was comprised of the Health plan of of $1,368,293 and the KPERS plan of $185,838. The City recognized a combined total OPEB expense of $37,716, with $71,857 for the Health plan and ($34,141) for the KPERS plan.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Deferred outflows/Inflows of resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. The separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Finally, there is a deferred outflow related to pensions as actuarially determined and explained in Note 10 and other post employment benefits (OPEB) as actuarially determined and explained in Notes 11 and 12.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has three types of items that qualify for reporting in this category. (1) The City reports amounts related to pensions and OPEB on the government-wide statement of net position as a deferred inflow of resources. For more information on the deferred inflows for pensions, see Note 10 and for OPEB, see Notes 11 and 12. (2) Under a modified accrual basis of accounting, the governmental funds and business-type activities funds report unavailable revenues from two sources as deferred inflows of resources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available and earned. (3) The deferred change on refunding is reported in the government-wide and proprietary fund statements of net position. A deferred change on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In the government-wide financial statements, net position is classified into three components:

- Net investment in capital assets - consisting of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, leases, or other borrowing that are attributable to the acquisition, construction or improvement of those assets.
- Restricted net position - consisting of net position with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. The City first utilizes restricted resources to finance qualifying activities.
- Unrestricted net position - all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Fund balance

Governmental fund balance classifications are based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be expended. In the governmental funds financial statements, fund balance is classified into potentially five components:

- *Nonspendable fund balances* - includes amounts that are (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivables.
- *Restricted fund balances* - includes amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.
- *Committed fund balances* - includes amounts that can be used only for a specific purpose determined by a formal action of the City Commission. The City Commission is the highest level of decision-making authority for the City. Commitments may be established, modified, or rescinded only through ordinances approved through a majority vote by a quorum of the Commission.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Fund balance (Cont.)

- *Assigned fund balances* - the assigned portion of fund balance is comprised of amounts intended to be used by the City for specific purposes that are neither restricted nor committed. Intent is expressed by (1) the City Commission or (2) a body or official to whom the City Commission has delegated the authority to. The City Commission has delegated authority to the City Manager or Department Heads to assign amounts to be used for specific purposes. The portion of fund balance that is appropriated by the City Commission for the next year's budget that is not already restricted or committed is considered assigned. Encumbrances, which can be approved by designated senior staff, are included in the assigned fund
- *Unassigned fund balances* - is the residual classification for the General Fund and includes all amounts not contained in other classifications. Unassigned amounts are technically available for any purpose. The General Fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the General Fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Concentration of credit risk

The City routinely grants credit to utility customers, in accordance with applicable utility rate ordinances, all of which are located within the environs of the City.

Risk management

The City's insurance coverage consists of both self-insurance and policies maintained with various carriers. The City uses four internal service funds to address four risk areas, which include general risk management, worker's compensation, health insurance and short-term disability insurance. The City records liabilities for known claims and estimated liabilities for claims incurred, but not reported at year-end. These claims are reflected under accounts payable in the internal service funds.

Risk management reserve

The City established the Risk Management Reserve Fund in 1987 in accordance with provisions of K.S.A. 12-2615. This fund provides for payment of insurance premiums, deductibles, excess liability losses, uninsured losses and insurable losses not otherwise covered. Insurance deductibles vary by type of property insurance coverage. Funding, when determined necessary, for the Risk Management Reserve Fund, is provided by annual contributions provided by an insurance consultant to the City. The City purchases commercial insurance coverage for all substantial areas of risk, including property loss, auto liability, boiler and machinery, and general and public official's liability. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

The following is a summary of changes in liability activity under the plan for the last three years:

	Beginning of Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	End of Year Liability
2022	$ -	$ 5,360	$ 5,360	$ -
2023	-	9,116	9,116	-
2024	-	17,548	17,548	-

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

Risk management (cont.)

During 2024, the City charged $0 of unfunded Kansas Police and Firemen's Retirement System contributions to the Risk Management Reserve Fund. This liability was the result of converting certain emergency medical service personnel from the Kansas Public Employees Retirement System to the Kansas Police and Firemen's Retirement System. At December 31, 2024, Risk Management Reserve Fund cash and short-term investments of $302,908 were held for the purpose of funding the City's future claims liabilities.

Worker's Compensation Reserve

Prior to 2011, the City maintained a partially self-funded worker's compensation program to cover substantially all full-time and part-time employees. In 2011, the City joined the Kansas Eastern Region Insurance Trust (KERIT), a self-funded insurance risk pool, and claims for 2011 and forward are handled by KERIT. KERIT is comprised of eighteen government entities within the State of Kansas. It is organized under the pooling laws of the State of Kansas, is a risk sharing pool which self-insures, up to certain limits, and reinsures additional excess amounts up to certain limits, workers' compensation and other related expenses. The City pays annual premiums to KERIT based on historical experience and legal requirements mandated by the State of Kansas and participates in management decisions as a trustee. Members of the trust may be assessed additional premiums to cover losses up to the attached point of excess coverage, and for losses in excess of the aggregate loss limit of $5,000,000 per year. The City has not been involved in any settlements where the amounts exceeded coverage in the past three years.

Health Insurance Reserve

The City created the Health Insurance Reserve Fund in 1993 to accumulate monies to eventually fund a partially self-insured health insurance program. Resources accumulated may be used to pay excess losses, health claims, partial payments of health insurance premiums for employees, and other miscellaneous health insurance related expenses. Annual funding is provided by contributions from other funds, as determined by management in the budgeting process. Health insurance premiums are paid through this reserve fund. The employee health insurance program is a fully insured program with health insurance offered to substantially all full-time employees of the City. At December 31, 2024, the Health Insurance Reserve Fund had a net position of $772,473 available for future health insurance premiums. The funds are being retained to stabilize projected premium increases and to provide a reserve if the City should choose to self-insure in the future.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilites and disclosure of contingent assets and liabilities as the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Implementation of new standards

GASB Statement No. 100, Accounting Changes and Error Corrections, issued June 2022, is effective for the City beginning with its year ending December 31, 2024. There was no effect to net assets as this standard was not to be applied retroactively.

GASB Statement No. 101, Compensated Absences, issued June 2022, will be effective for the City beginning with its year ending December 31, 2024. As a result of implementing, December 31, 2023 net position was restated ($389,147). See Note 22 for more information.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

New standards

The GASB has issued the following statements, which will have an impact on the City's future financial reporting, although they are not yet required to be implemented by the City:

- GASB Statement No. 102, *Certain Risk Disclosures*, issued December 2023, will be effective for the City beginning with its year ending December 31, 2025. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints.
- GASB Statement No. 103, *Financial Reporting Model Improvements*, issued April 2024, will be effective for the City beginning with its year ending December 31, 2026. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability.
- GASB Statement No. 104, *Disclosrue of Certain Capital Assets*, issued September 2024, will be effective for the City beginning with its year ending December 31, 2026. The objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets.

The City's management has not yet determined the effect these statements will have on the City's financial statements.

2. BUDGETARY PRINCIPLES

The City is required by state statute to legally adopt annual operating budgets for the general fund, special revenue funds (unless exempted by specific statute), debt service fund, enterprise funds and internal service funds (unless exempted by specific statute). The funds exempted from legally adopted budgets include the Land Bank, American Rescue Plan Act, Kansas Fights Addiction, Payroll Clearing, Fire Insurance proceeds, Sales Tax, Flex Medical, Equipment Reserve, Grants and Contributions, Alcohol and Drug Safety Action, Barr Police Building, CDBG, Baseball Complex Maintenance Reserve, Capital Improvements, Natural Gas Loan, Advance Metering Infrastructure, Risk Management Reserve, Worker's Compensation Reserve, Health Insurance Reserve and Short-term Disability Reserve Funds. The statutes provide for the following sequence and timetable in the adoption of the legal annual operating budget:

1. Preparation of the budget for the succeeding calendar year on or before August 1st.
2. Publication in local newspaper of the proposed budget and notice of public hearing on the budget on or before August 5th.
3. Public hearing on or before August 15th, but at least 10 days after publication of notice of hearing.
4. Adoption of the final budget on or before August 25th.

If the municipality is holding a revenue neutral rate hearing, the budget timeline for the public hearing is adjusted to no sooner than August 20th and no later than September 20th, but at least ten days after all statutory notification and publication requirements have been met. Municipal budgets requiring a hearing to exceed the revenue neutral rate should be adopted on or before October 1st but may not be adopted prior to the revenue neutral rate hearing. The municipality did hold a revenue neutral rate hearing for this year.

The statutes allow for the governing body to increase the originally adopted budget for previously unbudgeted increases in revenue other than ad valorem property taxes. This process requires a notice of public hearing to amend the budget to be published in the local newspaper. At least ten days after publication the hearing may be held and the governing body may amend the budget at that time. During 2024, there were amendments to the budget.

Kansas statutes permit transferring budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Management has the authority to revise line items within a department; however, changes to total appropriations at the department level must be approved by the City Commission.

2. BUDGETARY PRINCIPLES (CONT.)

All legal annual operating budgets are prepared using the cash basis of accounting, modified further by the inclusion of accounts payable and the encumbrance method of accounting. For budgetary purposes, encumbrances of the budgeted governmental fund types, representing purchase orders, contracts and other commitments, are reported as a charge to the current year budget. All unencumbered appropriations lapse at the end of the year, except for capital project funds, which are carried forward until such time as the project is completed or terminated. In addition, revenues are not recognized as revenues until their date of receipt. Also, interfund receivable and payable transactions are recognized as revenues and expenditures in the respective funds for budgetary purposes. Accordingly, actual data presented in the budgetary comparison statements can differ from the expenditure data presented in the financial statements prepared in accordance with generally accepted accounting principles. For budget purposes, fund balances are determined by deducting accounts payable and encumbrances from cash.

Controls over spending in funds that are not subject to legal budgets are maintained by other statutes or by the use of internal spending limits established by management.

3. DEPOSITS AND INVESTMENTS

Kansas Statutes Annotated (K.S.A.) 9-1401 establishes the depositories that may be used by governmental entities in Kansas. The statutes requires banks eligible to hold the City's funds have a main or branch bank in the county in which the City is located, or in an adjoining county if such institution has been designated as an official depository, and the bank provide an acceptable rate of return on funds. In addition, K.S.A. 9-1402 requires the banks to pledge securities for deposits in excess of Federal Depository Insurance Corporation (FDIC) coverage. The City has no other policies that would further limit interest rate risk.

K.S.A. 12-1675 limits the City's investment of idle funds to time deposits, open accounts and certificates of deposit with allowable financial institutions; U.S. government securities; temporary notes; no-fund warrants; repurchase agreements; and the Kansas Municipal Investment Pool. The City's formal investment policies set forth the prime objectives, in order of priority, as safety of principal, liquidity and yield. The standard of care to be used by investment officials shall be the "prudent man rule".

Concentration of Credit Risk

State statutes place no limit on the amount the City may invest in any one issuer as long as the investments are adequately secured under K.S.A. 9-1402 ad 9-1405. The City's allocation of cash and investments as of December 31, 2024, is as follows:

RCB Bank	72%
Citizens Bank	5%
Union State Bank	11%
Community National Bank and Trust	12%

Custodial Credit Risk - Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. The City's policy follows applicable State Statutes and requires deposits to be 100% secured by collateral (pledge securities) valued at market, less the amount of the Federal Deposit Insurance Corporation (FDIC) insurance. State Statutes define the allowable pledge securities.

At year-end, the carrying amount of the City's deposits was $33,654,097, with the bank balances of such accounts being $33,011,135. Of the bank balances, $500,000 was covered by federal depository insurance and the remaining balance of $32,511,135 was covered by collateral held by the City's custodial banks in joint custody in the name of the City and its banks. The fair value of those pledged securities held by the City's custodial investment agencies was $42,046,319 at Dece mber 31, 2024.

The remaining carrying amount of the City's cash and cash equivalents at December 31, 2024, consisted of cash on hand of $3,405.

3. DEPOSITS AND INVESTMENTS

Custodial Credit Risk - Deposits (Cont.)

A reconciliation of cash and investments as reported in the financial statements at December 31, 2024, is as follows:

Cash on hand	$ 3,405
Carrying amount of deposits - City	33,654,097
Carrying amount of deposits - component unit	829,560
Total	$ 34,487,062
Amounts per statement of net position:	
Cash and cash equivalents	$ 33,421,391
Restricted assets	236,111
Component unit cash and cash equivalents	818,626
Component unit restricted assets	10,934
Total	$ 34,487,062

4. RECEIVABLES

Utility Receivables

A summary of the City's utility receivables (not including miscellaneous accounts receivable) at December 31, 2024, is as follows:

	Total receivables	Less provision for uncollectible accounts	Net receivables
Electric Utility	$ 3,323,424	$ 849,319	$ 2,474,105
Gas Utility	1,247,432	187,968	1,059,464
Water Utility	405,514	91,737	313,777
Wastewater Utility	247,971	75,733	172,238
Refuse	195,408	55,369	140,039
Management Service	31,237	-	31,237
2021 Natural Gas Utility	320,765	15,028	305,737
Sales Tax (Special Revenue Fund)	65,480	-	65,480
Totals	$ 5,837,231	$ 1,275,154	$ 4,562,077

The City adjusts its reserves for uncollectible accounts based on a eight-year average. Based on this computation, the provision for uncollectible accounts was increased by $95,852, $17,670, $13,629, $10,965, $6,869 and $2,418 for the Electric Utility, Gas Utility, Water Utility, Wastewater Utility, Refuse and 2022 Natural Gas Funds, respectively, for the year ended December 31, 2024.

Other Receivables

Miscellaneous accounts receivable are recorded at the full value of services provided. A provision for uncollectible accounts is established for all uncollected balances over one year old. For ambulance service billings, accounts are routinely settled for amounts less than the full rate as a result of negotiated contracts with third-party payers (insurance companies and Medicare). The provision for contractual adjustments is set up to reflect anticipated reductions in those settlements. The City has estimated the provision for contractual adjustments based on prior years' experience history. The City contracts with a third-party provider for all medical billing services including ambulance billings and collections.

4. RECEIVABLES (CONT.)

Other Receivables (Cont.)

The following is a summary of accounts receivable in the governmental fund types:

	Accounts receivable	Less provision for uncollectible accounts	Less provision for contractual adjustments	Net accounts receivable
Major Funds:				
General:				
Miscellaneous	$ 93,708	$ -	$ (1,573)	$ 95,281
Ambulance services	389,067	217,932	24,885	146,250
Total General Fund	482,775	217,932	23,312	241,531
Debt Service	-	-	-	-
Capital Improvements	10,000	-	-	10,000
Special Street	24,836	-	-	24,836
Total Major Funds	517,611	217,932	23,312	276,367
Nonmajor Funds:				
Fairground Improvements	700	-	-	700
Stormwater Drainage	28,993	7,366	-	21,627
Total Nonmajor Funds	29,693	7,366	-	22,327
Total miscellaneous receivables	$ 547,304	$ 225,298	$ 23,312	$ 298,694

The following is a summary of miscellaneous accounts receivable in the business type activity enterprise funds:

	Total receivables	Less provision for uncollectible accounts	Net Receivables
Electric Utility	$ 36,517	$ -	$ 36,517
Electric Transmission	170,936	-	170,936
Water Utility	1,200	-	1,200
Wastewater Utility	305	-	305
2021 Natural Gas Utility	127	-	127
Quail Ridge	13,064	-	13,064
Management Service	9,819	-	9,819
Risk Management Reserve	-	-	-
Health Insurance Reserve	2,624	-	2,624
Totals	$ 234,592	$ -	$ 234,592

4. RECEIVABLES (CONT.)

Long-term Receivables

The City has entered into several interlocal agreements with other local governmental entities which are related to debt financing and repayment arrangements. The City included project costs of these entities in general obligation bond issues and the interlocal agreements provide for repayment of the principal, interest and issuance costs to the City over various time periods. These receivables are included in governmental activities for the statement of net position and, because they are not considered to be available to liquidate liabilities of the current period, they are considered unearned and also reflected as a deferred inflow of resources in the Debt Service Fund in the governmental funds balance sheet. A summary of these long-term receivables is as follows:

Year	Strother Field	Winfield Recreation Commission	Total
2025	$ 239,993	$ -	$ 239,993
2026	241,568	-	241,568
2027	246,818	-	246,818
2028	241,530	-	241,530
Thereafter	1,211,308	-	1,211,308
	$ 2,181,217	$ -	$ 2,181,217

The Winfield Recreation Commission is a component unit of the local school district. Strother Field is a joint venture with Arkansas City.

Lease Receivable

The City is leasing a building to a local not-for-profit foundation. The lease expires December 31, 2027 and has the option to renew for three additional five year terms. This option is reasonably expected to be executed. Each five year term is to be increased by the applicable Consumer Price Index. The initial rent is to be paid monthly at $8,457. The interest rate used was the City's incremental borrowing rate of 4%. The related deferred inflows is calculated using straight-line. The total deferred inflows recognized as revenue on the financials is $71,432. The Foundation will be responsible for paying all utilities.

5. CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets follows:

	Balance January 1, 2024	Additions	Deletions	Balance December 31, 2024
Governmental Activities:				
Non-depreciable capital assets:				
Land	$ 2,155,216	$ -	$ -	$ 2,155,216
Total non-depreciable capital assets	2,155,216	-	-	2,155,216
Depreciable capital assets:				
Buildings	18,390,358	7,064,462	-	25,454,820
Improvements other than buildings	37,434,941	1,529,185	30,465	38,933,661

General obligation bonds	$ 10,548,742	$ -	$ 652,782	$ 9,895,960	$ 660,067
Leases	1,674,757	335,032	295,078	1,714,711	327,608
State of KS loan	4,576,940	-	653,639	3,923,301	671,274
Compensated absences	689,276	231,421	201,118	719,579	92,339
Net premium on issuance of general obligation bonds	223,189	-	14,881	208,308	14,881
Total other postemployment benefits obligation	1,331,814	57,450	502,042	887,222	177,444
Net pension liability	5,897,136	555,612	880,357	5,572,391	668,687
Total long-term liabilities - Business-Type activities	$ 24,941,854	$ 1,179,515	$ 3,199,897	$ 22,921,472	$ 2,612,300

6. LONG-TERM DEBT (CONT.)

General Obligation Bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both general, government, and proprietary activities. These bonds are reported in the proprietary funds if they are expected to be repaid from proprietary fund revenues. In addition, general obligation bonds have been issued to refund both general obligation and revenue bonds.

General obligation bonds payable are serial bonds to be retired through calendar year 2038. At December 31, 2024, bonds consist of the following:

	Interest rates	Bonds outstanding
General Obligation Refunding and Improvement Bonds, Series 2015-A	3.00% - 4.00%	$ 3,150,000
Taxable General Obligation Improvement Bonds, Series B 2015	3.00% - 3.00%	85,000
General Obligation Bonds, Series 2018-A	3.00% - 4.00%	4,660,000
General Obligation Bonds, Series 2019-A	2.00% - 4.00%	6,030,000
General Obligation Bonds, Series 2020-A	1.06% - 2.06%	940,000
General Obligation Bonds, Series 2020-B	1.70% - 2.00%	3,370,000
General Obligation Bonds, Series 2022-A	3.00% - 4.00%	8,325,000
General Obligation Bonds, Series 2024-A	4.25%-4.75%	704,000
Total general obligation bonds outstanding		27,264,000
Less: debt service from enterprise funds		(9,895,960)
Total general obligation bonds payable from debt service fund		$ 17,368,040

Remaining debt service requirements for general obligation bonds will be paid from the debt service fund with future property tax revenues and special assessment taxes. Annual debt service requirements to maturity for general obligation bonds to be retired from the debt service fund are as follows:

Year ended December 31:	Principal	Interest	Total
2025	$ 1,583,933	$ 552,834	$ 2,136,767
2026	1,307,452	498,902	1,806,354
2027	1,329,274	459,733	1,789,007
2028	1,369,021	414,912	1,783,933
2029	1,410,868	373,930	1,784,798
2030-2034	5,173,198	1,292,927	6,466,125
2035-2039	3,715,635	556,628	4,272,263
2040-2044	1,303,263	120,687	1,423,950
2045	175,396	2,631	178,027
Total	$ 17,368,040	$ 4,273,184	$ 21,641,224

General obligation bonds payable from enterprise funds

Remaining debt service requirements for general obligation bonds to be paid from the Water Utility Fund and Electric Transmission Fund are as follows:

Year ended December 31:	Principal	Interest	Total
2025	$ 660,067	$ 267,836	$ 927,903
2026	548,548	249,100	797,648
2027	569,726	231,861	801,587
2028	582,979	213,684	796,663
2029	603,132	195,550	798,682
2030-2034	2,975,802	747,399	3,723,201
2035-2039	2,624,365	390,495	3,014,860
2040-2044	1,246,737	93,073	1,339,810
2045	84,604	1,269	85,873
Total	$ 9,895,960	$ 2,390,267	$ 12,286,227

6. LONG-TERM DEBT (CONT.)

Loans

During 2021, the City Commission entered into a loan agreement to establish a low-interest loan program to provide assistance to cities for extraordinary electric or natural gas costs incurred during the extreme weather event. The loan agreement provides for semi-annual payments, including interest of .25%, in the amount of $431,104 through January 2030.

Year ended December 31:	Principal	Interest	Total
2025	671,274	100,677	771,951
2026	689,385	82,566	771,951
2027	707,984	63,967	771,951
2028	727,085	44,866	771,951
2029	746,702	25,249	771,951
2030	380,871	5,104	385,975
Total	$ 3,923,301	$ 322,429	$ 4,245,730

Lease obligations

During 2020 & 2021, the City Commission entered into a lease agreement for the financing of two Ambulances for the General Fund. The lease agreement provided for semi-annual payments in the amounts of $22,263 & $21,670 through October 2024 and 2026, including interest at 2.14% and 1.76%, respectively.

During 2021, the City Commission entered into a lease agreement for the financing of a Caterpillar Motor Grader for the Street Department. The lease agreement provided for an annual payment in the amount of $31,095 through May 2026, including interest at 2.28%.

During 2021, the City Commission entered into a lease agreement for the financing of a Crane Carrier for the Refuse Department. The lease agreement provided for a semi-annual payment in the amount of $16,828 through April 2026, including interest at 1.89%.

During 2021, the City Commission entered into a lease agreement for the financing of a Digger Derric Truck for the Electric Department. The lease agreement provided for a semi-annual payment in the amount of $32,369 through October 2026, including interest at 1.76%.

During 2022, the City Commission entered into a lease agreement for the financing of Meters for the various Utility Departments. The lease agreement provided for a monthly payment ranging from $12,638 to $13,159 through December 2031, including interest ranging from 4.00% to 5.00%.

During 2023, the City Commission entered into a lease agreement for the financing of a Battle Motors Refuse Truck for the Refuse Fund. The lease agreement provided for a semi-annual payment in the amount of $59,119, including interest at 3.95%.

During 2022, the City Commission entered into a lease agreement for the right to use two Skid-Steer Loaders for the Wastewater Department. The lease agreement provided for monthly payments in the amounts of $5,457 and $5,590, including interest at 4.00%.

During 2022, the City Commission entered into a lease agreement for the right to use a Skid-Steer Loader for the Refuse Department. The lease agreement provided for a monthly payment in the amount of $4,979, including interest at 4.00%.

During 2022, the City Commission entered into a lease agreement for the right to use a Skid-Steer Loader for the Street Department. The lease agreement provided for a monthly payment in the amount of $5,960, including interest at 4.00%.

During 2022, the City Commission entered into a lease agreement for the right to use Golf Carts for the Quail Ridge Golf Course. The lease agreement provided for a monthly payment in the amount of $10,936, including interest at 4.00%.

6. LONG-TERM DEBT (CONT.)

Finance and right-to-use lease obligations (cont.)

During 2022, the City Commission entered into a lease agreement for the right to use a Bobcat for the General Fund. The lease agreement provided for a monthly payment in the amount of $8,000, including interest at 4.00%.

During 2023, the City Commission entered into a lease agreement for the right to use a Bobcat for the Cemetery Fund. The lease agreement provided for a monthly payment in the amount of $8,000, including interest at 4.00%.

During 2023, the City Commission entered into a lease agreement for the right to use a Bobcat for the Wastewater Fund. The lease agreement provided for a monthly payment in the amount of $10,000, including interest at 4.00%.

During 2024, the City Commission entered into a lease agreement for software-as-a service for Electric, Gas and Water Funds. The lease agreement provided for a monthly payment of $2,495 in 2025, $2,995 in 2026, and $3,645 thereafter. Payments are split between respective funds. Interest rate is 4.25%.

The Skid-Steer lease payments are being financed from the City's Special Street and Highway Fund and the Refuse Fund. The Wastewater treatment plant lease payments are being financed from the Wastewater Utility Fund. The Ambulance lease payments are being financed from the General Fund. The Caterpiller Motor Grader is being financed from the Special Street and Highway Fund. The Crane Carrier is being financed from the Refuse Fund. The Digger Derrick Truck is being financed from the Electric Fund. The Gold Carts is being financed from the Quail Ridge Golf Course Fund. The Bobcats are being financed from the General Fund, Cemetery Fund, and Wastewater Fund. The Meters are being funded from the Advanced Metering Infrastructure Fund. The Battle Motors Refuse Truck is being funded from the Refuse Fund. The Dark Fiber Service is being funded from the Capital Improvements Fund. The software service is being funded from Electric, Gas and Water funds.

The cost and accumulated amortization of the lease assets are as follows:

	Governmental Activities	Business-Type Activities
Cost - Financing	$ 685,469	$ 1,933,385
Cost - Intangible-right-to-use	87,080	556,271
Accumulated Depreciation	(596,116)	(1,002,550)

These leases qualify as leases for accounting purposes and, accordingly, have been recorded at the present value of the net minimum lease payments at the date of the lease inception. The annual requirements to amortize the lease obligations outstanding at December 31, 2024, including interest payments, is as follows:

	Business-Type Funds		
Year ended December 31:	Principal	Interest	Total
2025	$ 327,610	$ 76,582	$ 404,192
2026	318,812	62,865	381,677
2027	219,872	49,139	269,011
2028	192,124	36,078	228,202
2029	169,578	27,563	197,141
2030-2034	486,715	(103,358)	383,357
Total	$ 1,714,711	$ 148,869	$ 1,863,580

	Governmental Activities		
Year ended December 31:	Principal	Interest	Total
2025	$ 84,581	$ 11,813	$ 96,394
2026	220,832	8,762	229,594
2027	5,666	2,334	8,000
	$ 311,079	$ 22,909	$ 333,988

6. LONG-TERM DEBT (CONT.)

Other long-term debt

The City entered into an interlocal agreement with the City of Arkansas City, Kansas related to construction of a countywide animal shelter. The agreement provides for the City of Winfield to make annual payments to the City of Arkansas City for an agreed-upon share of the costs. The City renewed the agreement in January 2023. The new agreement calls for annual payments of $37,000 through December 2027. The payments under the agreement have been made from the City's General Fund.

Compensated absences

Valuations were performed as of December 31, 2023 (for beginning of year liability measurement) and as of December 31, 2024 (for end of year liability measurement).

The City valued the liability for vacation by taking the accumulated hours the current hourly rate of pay times a load for salary related expenses. The 6.2% load relating to the employer's share of social security taxes was not applied to employees whose pay is greater than the maximum taxable wage base. The City contribution for KPERS / KP&F that applies for leave benefits is not included as defined benefit plan employer contributions are specifically excluded.

For sick leave, the City studied and evaluated historical experience. The City looked at data by year and aggregated data over the entire experience period (2021 to 2024). The experience indicates the accumulated balances will grow each year on average. The annual hours earned exceed the annual hours used. This is reflected in the data from all experience years.

The LIFO flows assumption was applied for the sick leave liability calculations. The hours used in the future are first deemed to come out of the most recent year earned. Since on average the sick leave earned is assumed to be greater than sick leave used each year, the current accrued balance will not be utilized for "sick time" under the LIFO assumption. Rather a liability applies when the employee is expected to leave employment and receive a payout. The City applied decrement assumptions using KPERS / KP&F assumptions by person to project the probability an employee will receive a benefit. The probabilities were applied to the current hourly rate times 25% of the current accrued sick leave hours balance (and to 100% of accrued sick leave reserve hours as well). To the extent an employee is projected to leave City employment prior to retiring, the sick leave liability is decreased.

The LIFO flows method is assumed for Vacation, Sick Leave and Sick Leave Reserve. Thus, the portion of the current liability due within one year relates only to the portion expected to paid out at retirement and other terminations as applicable. The usage during next year is deemed to be utilized from hours accrued next year.

Other postemployment benefits

The governmental funds portion of the other postemployment benefit obligation (OPEB) is principally liquidated from the City's General Fund. Total expense including changes in deferred inflows and outflows for all OPEB plans for the year ended December 31, 2024 was $37,716.

Net pension liability

The governmental funds portion of the net pension liability is principally liquidated from the City's General Fund. Total expense, including changes in deferred inflows and outflows for all pension plans for the year ended December 31, 2024 was ($153,477).

Conduit debt

The City has issued limited obligation bonds for the purpose of financing capital activities of unrelated third parties. Although conduit debt obligations bear the name of the City, they are payable solely from resources provided by leases or loans with the third parties on whose behalf they were issued. The bonds do not constitute an indebtedness or pledge of the faith or credit of the City of Winfield, and accordingly, are not included as liabilities in the accompanying financial statements. There are four industrial revenue bond series outstanding at December 31, 2024. During 2024, there were no new issues and $403,069 of debt retired. The aggregate outstanding balance of Industrial Revenue Bonds was $33,906,858 at December 31, 2024.

7. TEMPORARY NOTES

Kansas statutes permit the issuance of temporary notes to finance certain capital improvement projects which will be refinanced with general obligation bonds or paid through other resources available to the City. Prior to the issuance of the temporary notes, the governing body must take the necessary legal steps to authorize the issuance of general obligation bonds. Temporary notes issued may not exceed the aggregate amount of bonds authorized, are interest bearing and have a maturity date not later than four years from the date of issuance.

During 2024, the temporary note activity for the various capital improvement projects was as follows:

Beginning Balance	Additions	Retirements	Defeased	Ending Balance
$ 5,800,000	$ -	$ -	$ -	$ 5,800,000

8. WASTEWATER DEPRECIATION RESERVES

Applicable state statutes permit the governing body to legally restrict a portion of operating revenue to be used for future acquisition of equipment and utility system improvements. Net position in the Wastewater Utility Fund in the amount of $236,111 has been reserved for the portion of assets legally restricted for future equipment acquisitions and facility improvements.

9. CAPITAL PROJECT FUND AUTHORIZATIONS

At December 31, 2024, individual project authorizations compared with project expenditures from inception which are reported with the Capital Projects Fund are as follows:

Project	Project authorizations	Expenditures project inception to December 31, 2024
Public Safety Needs Study	$ 23,960,263	18,343,983
Strother Field Land Acquisition	700,000	685,000

10. PENSION PLAN

Plan Description

The City of Winfield participates in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by Kansas law and administered by KPERS, a body corporate and an instrumentality of the State of Kansas. Kansas law establishes and amends benefit provisions. KPERS issues a publicly available, stand-alone annual comprehensive financial report that includes financial statements and required supplementary information. That report may be obtained by writing to KPERS (611 S. Kansas, Suite 100, Topeka, KS 66603) or by calling 1-888-275-5737, or at the KPERS website at www.kpers.org.

KPERS provides benefit to the following statewide pension groups under one plan, as provided by K.S.A 74 article 49:

- Public employees, which include:
    - State/School Employees
    - Local Employees
- Police and Firemen
- Judges

Substantially all public employees in Kansas are covered by the pension plan. The State of Kansas and Kansas schools are required to participate, while participation by local political subdivisions is optional, but irrevocable once elected.

Those employees participating in the pension plan for City of Winfield are included in the local employee group and the Kansas Police and Firemen group.

Benefits Provided

Benefits are established by statute and may only be changed by the Legislature. Members (except Police and Firemen) with ten or more years of credited service, may retire as early as age 55 (Police and Firemen may be age 50 with 20 years of credited service), with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with ten years of credited service, or whenever a member's combined age and years of credited service equal 85 "points" (Police and Firemen normal retirement ages are age 60 with 15 years of credited service, age 55 with 20 years, age 50 with 25 years, or any age with 36 years of service).

10. PENSION PLAN (CONT.)

Benefits Provided (cont.)

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, members may withdraw their contributions from their individual accounts, including interest. Members who withdraw their accumulated contributions lose all rights and privileges of membership. For all pension coverage groups, the accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74 4922.

Members choose one of seven payment options for their monthly retirement benefits. At retirement, a member may receive a lump sum payment of up to 50% of the actuarial present value of the member's lifetime benefit. His or her monthly retirement benefit is then permanently reduced based on the amount of the lump sum. Benefit increases, including ad hoc postretirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas.

The 2012 Legislature made changes affecting new hires, current members and employers. A new cash balance retirement plan (KPERS 3) was created for new hires starting after January 1, 2015. Normal retirement age for KPERS 3 is 65 with five years of service or 60 with 30 years of service. Early retirement is available at age 55 with ten years of service, with a reduced benefit. Monthly benefit options are an annuity benefit based on the account balance at retirement.

For all pension coverage groups, the retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74 4922.

Contributions

Member contribution rates are established by state law, and are paid by the employee according to the provisions of Section 414(h) of the internal revenue code. State law provides that the employer contribution rates be determined based on the results of an annual actuarial valuation. The contributions and assets of all groups are deposited in the Kansas Public Employees Retirement Fund established by K.S.A. 74-4921. All of the retirement systems are funded on an actuarial reserve basis.

For fiscal years beginning in 1995, Kansas legislation established statutory limits on increases in contribution rates for KPERS employers. Annual increases in the employer contribution rates related to subsequent benefit enhancements are not subject to these limitations. The statutory cap increase over the prior year contribution rate is 1.2% of total payroll.

The actuarially determined employer contribution rates and the statutory contribution rates for local government employees are 9.26% and 9.26%, respectively. K.S.A. 74-4919 and K.S.A. 74-49,210 establish the KPERS member-employee contribution rates. KPERS has multiple benefit structures and contribution rates depending on whether the employee is a KPERS 1, KPERS 2 or KPERS 3 member. KPERS 1 members are active and contributing members hired before July 1, 2009. KPERS 2 members were first employed in a covered position on or after July 1, 2009, and KPERS 3 members were first employed in a covered position on or after January 1, 2015. Effective January 1, 2015, Kansas law established the KPERS member-employee contribution rate of 6% of covered salary for KPERS 1, KPERS 2 and KPERS 3 members.

Employer Allocations

Although KPERS administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense are determined separately for each of the following groups of the plan:

- State/School
- Local
- Police and Fireman
- Judges

10. PENSION PLAN (CONT.)

Employer Allocations (Cont.)

To facilitate the separate (sub) actuarial valuations, KPERS maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer and nonemployer allocations are applied to amounts presented in the schedules of pension amounts by employer and nonemployer. The allocation percentages for each group as of June 30, 2024, are based on the ratio of the employer's contributions to total employer and nonemployer contributions of the group for the fiscal years ended June 30, 2024. The contributions used exclude contributions made for prior service, excess benefits and irregular payments.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2024, City of Winfield reported a liability of $13,846,025, for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2023, which was rolled forward to June 30, 2024. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the ratio of its contributions to the total of the employer and nonemployer contributions of the group for the fiscal years ended June 30, 2024. The contributions used exclude contributions made for prior service, excess benefits and irregular payments. At June 30, 2024, the City's proportion was 0.81877% percent, which was an decrease of 0.0607% from its proportion measured as of June 30, 2023.

For the year ended December 31, 2024, rolled forward from June 30, 2024, the City recognized pension expense of $1,545,224, which includes the changes in the collective net pension liability, projected earnings on pension plan investments, and the amortization of deferred outflows of resources and deferred inflows of resources for the current period.

At December 31, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
City contributions subsequent to the measurement date	$ 1,764,476	$ -
Differences between expected and actual experience	75,596	-
Net difference between projected and actual earnings on pension plan investments	788,182	-
Changes in assumptions	48,827	-
Changes in proportion	1,445,481	1,397,406
Total	$ 4,122,562	$ 1,397,406

The deferred outflows of resources related to pensions totaling $1,764,476, resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31,	Amount
2025	$ 261,260
2026	909,913
2027	(88,667)
2028	(121,826)
2029	-
	$ 960,680

The City contributes 100% of the contributions to the pension plan, therefore, there is no revenue recognized for the support provided by nonemployer contributing entities.

10. PENSION PLAN (CONT.)

Actuarial Assumptions

The net pension liability was determined by an actuarial valuation as of December 31, 2023, which was rolled forward to June 30, 2024, using the following actuarial assumptions, applied to all periods included in the measurement:

- Inflation — 2.75 percent
- Salary increases, including wage increases — 3.50 to 15.50 percent, including inflation
- Long-term rate of return, compounded annually, net of investment expense, and including price inflation — 7.00 percent

Mortality rates were based on the PUB 2010 Mortality Tables, with age setbacks and age set forwards based on different membership groups. Future mortality improvements are anticipated using Scale MP-2021.

There were no changes between the measurement date of December 31, 2023, rolled forward to June 30, 2024, and City of Winfield's reporting date of December 31, 2024.

The long-term expected rate of return of pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class as of the most recent experience study, dated January 29, 2024, as provided by KPER's investment consultant, are summarized in the following table.

Asset class	Long-term target allocation	Long-term expected real rate of return
Non-U.S. Equities	43.00%	8.20%
Core Fixed Income	13.00%	2.20%
Yield Driven	12.00%	5.30%
Infrastructure	3.00%	6.80%
Real Estate	15.00%	5.70%
Alternatives	11.00%	12.00%
Short-term Investments	3.00%	0.30%
Total	100.00%	

Discount Rate

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate was based on member and employer contributions as outlined below.

In KPERS, the Local, Kansas Police and Firemen and Judges groups are contributing at the ful actuarial contribution rate, However, he State/School groups do not necessarily do so.

Based on legislation first passed in 1993, the employer contribtion rates certified by KPERS Board may not increase by more than the statutory cap. Subsequent legislation in 2012 set the statutory cap at 0.90 percent for Fiscal Year 2014, 1.00 percent for Fiscal year 2015, 1.10 percent for Fiscal Year 2016 and 1.20 percent for Fiscal Years 2017 and beyond.

In recent years, the Legislature has made several changes to statutory rates that deviate from the scheduled contribution increases set under the statutorily capped rates.

In 2015, S.B. 4, reduced the previously certified State/School statutory rate from 11.27 percent to 8.65 percent for the alst half of Fiscal Year 2015. That same session, S.B. 228 recertified statutory rates to 10.91 percent for Fiscal Year 2016 and 10.81 percent for Fiscal Year 2017 in anticipation of the issuance of $1.0 billion in pension obligation bonds.

10. PENSION PLAN (CONT.)

Discount Rate (Cont.)

Legislation in the 2016 session (S.B.. 161) provided for the delay of up to $100.0 million in State and School contributions to the Retirement System for Fiscal Year 2016. Concurrently, 2016 H. Sub for S.B. 249 provided that the delayed contributions would be paid in full, with interest at 8.00 percent, by June 30, 2018. However, legislation passed by the 2017 Legislature removed the repayment provision. In addition, 2017 S. Sub for H.B. 2052 delayed $64.0 million in Fiscal Year 2017 contributions, to be paid over 20 years in level dollar installments. The first-year payment $6.4 million was paid in full at the beginning of Fiscal Year 2018, and appropriations for Fiscal Year 2018 were made for the State/School group at the statutory contribution rate of 12.01 percent for that year.

Additional legislation in the 2017 Session (S. Sub for H.B. 2002) provded for a reduction of $194.0 million from the previously certified contribution rate of 13.21 percent in the State/School contributions for Fiscal Year 2019. Like the Fiscal Year 2017 reduction, it is to be paid back over a 20-year period, beginning in Fiscal Year 2020. Therefore, both reductions will be accounted for as receivables by the System.

The 2018 Legislature passed H. Sub for S.B. 109 that provided additional contributions to the school group of $56.0 million in Fiscal Year 2018 and $82.0 million in Fiscal Year 2019.

The 2019 Legislature passed S.B. 9 that provided additional contributions to the school group of $115.0 million in Fiscal Year 2019. H. Sub for S.B. 25 from the 20109 Legislative session authorized additional funding for the KPERS School Group in Fiscal Year 2020 of $51.0 million.

The 2021 Legislature pass House Bill 2405, which authorizes the State of Kansas to issue bonds with net proceeds of $500 million to fund a portion of the School Group's unfunded actuarial liability, S.B. 159 recertified the State/School contribution rates for Fiscal Years 2022 and 2023. Fiscal Year 2022 was recertified from 14.09 percent to 13.33 percent and Fiscal Year 2023 and 13.86 percent to 13.11 percent. The bond proceeds were received by KPERS on August 26, 2021.

The 2022 Legislature passed S.B. 421, which authorized the state of Kansas to transfer $1.125 billion from the State General Fund directly to KPERS in Fiscal Years 2022 and 2023. The first $253.9 million pays off the outstanding accounts receivable for KPERS-School employer contributions withheld in Fiscal Year 2017 and Fiscal Year 2019, discussed previously, while the remaining $871.1 million is applied to the KPERS-School unfunded actuarial liability. In Fiscal Year 2022, $600.0 million was transferred to the System. S.B. 421 authorized two additional transfers totaling $271.0 million in Fiscal Year 2023 (reflected in the projected cash flows of the System).

The 2023 Legislature passed HB 2196, which expanded the Deferred Retirement Option Plan (DROP) in KP&F to include all of that System;s employers as of April 27,2023. Under that same Bill, the Kansas Department of Wildlife and Parks (KDWP) became an affiliated KP&F employer making certain law enforcement positions in the Agency eligible for KP&F future service participation as of July 1, 2023. HB 2100 was also passed, defining and establishing limits on environmental, social and governance factors when entering into contracts (including investment contracts) and when making proxy votes on behalf of the System. This latter change was not expected to materially affect the asset allocation. Neither act impacted the valuation results.

The 2024 Legislature passed HP 2711 that increased both the lump sum retiree death benefit from $4,000 to $6,000 and employer contribution rates for State/School for FY 2026 and for Local employers for CY 2025 to fund this benefit improvement. The Bill also increased the employer contribution threshold for the 30% Working After Retirement (WAR) rate from $25,000 to $40,000; and the earnings limit for KP&F retirees from $25,000 to $40,000; while creating at exemption from employer contributions for nurses and direct support workers at Community Development Disability Organizations (CDDOs). Further, the Bill increased the alternative investment cap from 15% to 25% and requires the System to divest all publicly traded securities held in funds by countries of concern. None of the changes from this legislation had any impact on the valuation.

Based on employer contribution history as described above, it is a reasonable estimate that the State/School group's contribution rate may not be certified at the statutory rate. It has been assumed that contribution rates will be made within the same range as have been seen in the past few years. Using this assumption actuarial modeling indicates that employer contribution rates for the State/School group are sufficient to avoid a depletion date.

10. PENSION PLAN (CONT.)

Sensitivity of City of Winfield's proportionate share of the net pension liability to changes in the discount rate

The following presents City's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what City of Winfield's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.00%) or 1-percentage point higher (8.00%) than the current rate:

1% Decrease (6.00%)	Discount rate (7.00%)	1% Increase (8.00%)
$19,505,398	$13,846,029	$9,114,955

11. OTHER POSTEMPLOYMENT HEALTHCARE BENEFITS (OPEB)

Plan Description

The City administers an Other Postemployment Benefits (OPEB) plan providing medical and dental benefits to retired employees and their dependents under certain conditions. For GASB 75 purposes, the City is considered to be participating in a single employer health plan. The City does not issue a separate report that includes financial statements and required supplementary information for the OPEB plan. There are no assets accumulated in the GASB-compliant trust.

Individuals who are employed by the City and are eligible to participate in the group medical and dental plans are eligible to continue healthcare benefits upon retirement after retiring under the KPERS or the KP&FRS. Coverage during retirement continues in the group medical and dental plans up to age 65 for current retirees. Retirees covered by the plan make contributions toward the plan premiums.

As of January 1, 2024, plan membership consisted of the following:

Retirees and beneficiaries receiving benefits	7
Terminated plan members entitled to but not yet receiving benefits	-
Active plan members	165
Total	172

Funding Policy

The contribution requirement of plan members and the City are established and can be amended by the City's Board of Directors. Contributions are made to the plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation

The City's annual OPEB cost (expense) consists of the service cost plus interest on total OPEB liability and changes in assumptions and inputs. The service cost is the portion of the Actuarial Present Value of OPEB benefits that is allocated to the current year by the Actuarial Cost method. The following table presents the components of the City's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the City's total OPEB obligation to the Plan.

	Dec 31, 2024
Total OPEB liability - beginning of year	$ 2,094,649
Service cost	83,945
Interest cost	43,597
Changes in benefit terms	-
Differences between actual and expected experience	(647,606)
Changes in assumptions and inputs	(181,001)
Employer contributions (benefit payments)	(25,291)
Net changes	(726,356)
Net OPEB liability - end of year	$ 1,368,293

The discount rate changed from 2.06% for FY 2023 to 3.26% for FY 2024.

11. OTHER POSTEMPLOYMENT HEALTHCARE BENEFITS (OPEB) (CONT.)

Total OPEB Liability

The City's total OPEB liability of $1,368,293 reported as of December 31, 2024 was measured as of December 31, 2024 (the measurement date), and was determined by an actuarial valuation as of January 1, 2024, using the following actuarial assumptions:

Valuation Procedures and Discount Rate

General inflation	2.50%
Salary increases; including wage increases	3.00%
Discount rate	3.26%

The actuarial value of assets must be determined based on some recognition of the fair value of assets. The City's obligation is unfunded at January 1, 2024. There are no assets accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75.

As an unfunded plan, the discount rate reflects the Bond Buyer index rate for 20 year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher as of the measurement date. The discount rate used to measure the total OPEB liability as of January 1, 2024 was 3.26%.

The financial information for the year ended December 31, 2024 is based upon a GASB 75 actuarial valuation performed as of January 1, 2024 using the participant census as of January 1, 2024.

The measurement date as selected by the City under GASB 75 Standards is December 31, 2024. The results of the valuation were projected to the beginning of year and end of year measurement dates using standard actuarial techniques.

In the December 31, 2024, actuarial valuation, the Entry Age Normal - Level Percent of Pay Actuarial Cost method was applied. The actuarial assumptions included a 3.26% investment rate of return, which is a blended rate of the expected long-term investment returns on Plan assets and on the City’s pooled funds and investments. The valuation assumed annual healthcare cost trend rate of 5.5% in the first year and then decreasing by 0.25% until it reaches an ultimate rate of 5.00%. The valuation followed generally accepted actuarial methods and included tests as considered necessary to assure the accuracy of the results.

Sensitivity of Total OPEB Liability to changes in Healthcare Cost Trend Rate

The following presents the total OPEB liability of the City as of December 31, 2024, calculated using the current healthcare cost trend rates of 5.50% decreasing to 5.00% as well as what the City's total OPEB liability would be if it were calculated using trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
Total OPEB Liability	$1,187,808	$1,368,293	$1,585,515

Sensitivity of Total OPEB Liability of changes in the Discount Rate

The following presents the total OPEB liability of the City as of December 31, 2023, calculated using the discount rate of 3.26%, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.26%) or 1 percentage point higher (4.26%) than the current rate.

	1% Decrease	Current Discount Rate	1% Increase
Total OPEB Liability	$1,529,245	$1,368,293	$1,226,475

OPEB Expense

For the year ended December 31, 2023, the City recognized OPEB expense of $71,8578, which includes the changes in the total OPEB liability, and the amortization of deferred outflows of resources and deferred inflows of resources for the current period.

11. OTHER POSTEMPLOYMENT HEALTHCARE BENEFITS (OPEB) (CONT.)

Deferred Outflows of Resources and Deferred Inflows of Resources

Under GASB 75, gains and losses which are amortized over future years are referred to as deferred inflows or gains, and deferred outflows or losses. Economic and demographic gains and losses and changes in the total OPEB liability due to changes in assumptions are recognized over a closed period equal to the average expected remaining service lives of all covered active and inactive members, determined as of the beginning of the measurement period. As of December 31, 2024, and deferred inflows and outflows of resources are as follows:

Category	Deferred outflows of resources	Deferred inflows of resources
Differences between actual and expected experience (1)	$ 16,427	$ (784,812)
Changes in assumptions	323,003	(166,860)
Total	$ 339,430	$ (951,672)

(1) Economic/demographic (gains) and losses for the period ending December 31, 2024, should be adjusted by the unamortized balance of the difference between actual and employer contributions.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as an expense/(income) item in future years' OPEB expense as follows:

Year ended December 31:	Amount
2025	$ (30,394)
2026	(30,394)
2027	(30,394)
2028	(30,394)
2029	(42,814)
Thereafter	(447,852)

12. OTHER POSTEMPLOYMENT BENEFIT PLAN - KPERS DEATH & DISABILITY

Plan Description

The City participates in a single employer long-term disability other postemployment benefit (OPEB) plan (the plan) which is administered by the Kansas Public Employees Retirement System (KPERS). The Plan provides long-term disability benefits and a life insurance benefit for disabled members to KPERS members, as provided by K.S.A. 74-04927. The Plan is administered through a trust held by KPERS that is funded to pay annual benefit payments. However, because the trust's assets are used to pay employee benefits other than OPEB, the trust does not meet the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. Accordingly, the Plan is considered to be administered on a pay-as-you-go basis.

Benefits

Benefits are established by statute and may be amended by the KPERS Board of Trustees. The Plan provides long-term disability benefits equal to 60% (prior to January 1, 2006, 66 2/3 percent) of annual compensation, offset by other benefits. Members receiving long-term disability benefits also receive credit towards their KPERS retirement benefits and have their group life insurance coverage continued under the waiver of premium provision.

The monthly long-term disability benefit is 60% of the member's monthly compensation, with a minimum of $100 and a maximum of $5,000. The monthly benefit is subject to reduction by deductible sources of income, which include Social Security primary disability to retirement benefits, workers, compensation benefits, other disability benefits from any other sources by reason of employment, and earnings from any form of employment. If the disability begins before ago 60, benefits are payable while the disability continues until the member's 65th birthday or retirement date, whichever occurs first. If the disability begins after age 60, benefits are payable while the disability continues, for a period of five years or until the member retires, whichever occurs first. Benefit payments for disabilities caused or contributed to by substance abuse or non-biologically based mental illnesses are limits to the shorter of the term of the disability or 24 months per lifetime.

12. OTHER POSTEMPLOYMENT BENEFIT PLAN - KPERS DEATH & DISABILITY (CONT.)

The death benefit paid to beneficiaries of disabled members is 150% of the greater of 1) the member's annual rate of compensation at the time of disability, or 2) the members previous 12 months of compensation at the time of the last date on payroll. If the member has been disabled for five or more years, the annual compensation or salary rate at the time of death will be indexes using the consumer price index, less one percentage point, to compute the death benefit. If a member is diagnosed as terminally ill with a life expectancy of 12 months or less, the member may be eligible to receive up to 100% of the death benefit rather than giving the benefit paid to the beneficiary. If a member retires or disability benefits end, the member may convert the group life insurance coverage to an individual insurance policy.

The City has the following employees covered by the Plan as of June 30, 2024 (actuary measurement date):

Retirees and beneficiaries receiving benefits	1
Terminated plan members entitled to but not yet receiving benefits	-
Active plan members	118
Total	119

Total OPEB Liability

At December 31, 2024, the total OPEB liability recognized by the City was $185,838. The City's total OPEB liability was determined by an actuarial valuation as of December 31, 2023, calculated based on the discount rate and actuarial assumptions below, and rolled forward to the measurement date as of June 30, 2024. Any significant changes during this period have been reflected as prescribed by GASB 75.

Actuarial Assumptions

The financial information for the year December 31, 2024, is based upon an actuarial valuation performed as of December 31, 2023, rolled forward to June 30, 2024, using the participant census as of December 31, 2023.

The measurement date as selected by the City under GASB 75 Standards is June 30th. The results of the valuation were projected to the end of year measurement date using standard actuarial techniques.

Price inflation	2.75%
Salary increases, including wage increases	3.50-10.30%
Discount rate (based on the 20 year municipal bond rate with an average rating of AA/Aa or better, obtained from the index.)	3.93%

Mortality rates used for the death benefits were based on the Society of Actuaries RPH-2014 annuitant distinct mortality table Adjsut to 2006 with MP-2021 Full Generatioanl Projection of Future Mortality Improvement

The actuarial assumptions used in the December 31, 2023, valuation were based on the results of an actuarial experience study conducted for three years during 2019-2022 .

Annual OPEB Cost and Net OPEB Obligation

The City's annual OPEB cost (expense) consists of the service cost plus interest on total OPEB liability and changes in assumptions and inputs. The service cost is the portion of the Actuarial Present Value of OPEB benefits that is allocated to the current year by the Actuarial Cost method. The following table presents the components of the City's annual OPEB cost for the year, the amount actually contributed to the Plan, and changes in the City's total OPEB obligation to the Plan.

	December 31, 2024
Total OPEB liability - beginning of year	$ 187,189
Service cost	16,513
Interest cost	7,368
Changes in benefit terms	-
Differences between actual and expected experience	-
Changes in economic/demographic gains or losses	(21,835)
Changes in assumptions and inputs	288
Employer contributions (benefit payments)	(3,685)
Net changes	(1,351)
Total OPEB liability - end of year	$ 185,838

12. OTHER POSTEMPLOYMENT BENEFIT PLAN - KPERS DEATH & DISABILITY (CONT.)

The City saw no benefit changes to the disabilitant's percentage of replacement income due to the changes from FY23 to FY24.

The discount rate was updated in accordance with the requirements of GASB 75. The change went from 3.65% to 3.93%. The mortality projection scale was updated to the most recent table published by the Society of Actuaries. The overall impact of the new assumptions is a increase in the benefit obligations.

Sensitivity of Total OPEB Liability to changes in Healthcare Cost Trend Rate

The following presents the total OPEB liability of the City as of December 31, 2024, calculated using the current healthcare cost trend rates as well as what the City's total OPEB liability would be if it were calculated using trend rates that are 1 percentage point lower or 1 percentage point higher than the current trend rates. The reader should note that healthcare trend rates do not affect the liabilities related to the long-term disability benefits sponsored by KPERS, but this exhibit is provided as it is a required disclosure under GASB 75.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
Total OPEB Liability	$185,838	$185,838	$185,838

Sensitivity of Total OPEB Liability to changes in the Discount Rate

The following present the total OPEB liability of the City as of December 31, 2024, calculated using the discount rate of 3.93%, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.93%) or 1 percentage point higher (4.93%) than the current

	1% Decrease 2.93%	Current Single Discount Rate Assumption 3.93%	1% Increase 4.93%
Total OPEB Liability	$195,326	$185,838	$176,331

OPEB Expense

For the year ended December 31, 2024, the City recognized OPEB expense of ($34,141), which includes the changes in the total OPEB liability, and the amortization of deferred outflows of resources and deferred inflows of resources for the current period.

Deferred Outflows of Resources and Deferred Inflows of Resources

Under GASB 75, gains and losses which are amortized over future years are referred to as deferred inflows or gains, and deferred outflows or losses. Economic and demographic gains and losses and changes in the total OPEB liability due to changes in assumptions are recognized over a closed period equal to the average expected remaining service lives of all covered active and inactive members, determined as of the beginning of the measurement period. As of December 31, 2024 and deferred inflows and outflows of resources are as follows:

Category	Deferred outflows of resources	Deferred inflows of resources
Differences between actual and expected experience	$ -	$ 223,884
Changes in assumptions	12,951	47,891
Benefit payments subsequent to the measurement date	-	-
Total	$ 12,951	$ 271,775

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as an expense/(income) item in OPEB expense as follows:

Year ended December 31:	Amount
2025	
2026	(53,647)
2027	(47,763)
2028	(33,169)
2029	(20,368)
Thereafter	(49,540)

13. DEFERRED COMPENSATION PLAN

The City offers its employees a deferred compensation plan (the Plan) in accordance with Internal Revenue Cost Section 457. Employees may choose between VOYA Financial 457 Plan or the ICMA Plan. The Plan, available to all city employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. Assets of the Plan, values at current fair values, are held in trust for the benefit of the participants.

All amounts of compensation deferred under the Plan as well as earnings attributable to those amounts, are solely the property of the participant employees. Accordingly, the assets and related liabilities for the Plan are not recorded in the accompanying financial statements. In addition, the City Commission has adopted by resolution a salary reduction flexible benefit plan (125 Plan) under Section 125 of the Internal Revenue Code. All permanent full-time employees are eligible to participate in the 125 Plan beginning after one full month of employment. Each participant may elect to reduce his or her salary to purchase benefits offered through the 125 Plan. Benefits offered through the 125 Plan include various insurances and disability benefits.

14. BUDGETARY DATA

As described in Note 1, the actual data presented in the budgetary comparison statements differ from data presented in accordance with generally accepted accounting principles (GAAP) for the governmental fund types. The following reconciliations are presented to provide a correlation between the different bases of reporting:

	General Fund	Debt Service Fund	Capital Improvements	Special Streets and Highway
GAAP Fund balance at December 31, 2024	$ 2,200,821	$ 1,816,572	$ 2,632,757	$ 3,126,780
Adjustments:				
Accrued sales tax revenues	(179,914)	-	79,735	(63,788)
Accrued franchise fee revenues	(25,480)	-	-	-
Due to (from) other funds	(20,265)	(183,277)	-	-
Other receivables	(241,530)	-	(10,000)	(24,835)
Land held for resale	-	-	-	-
Reserves for encumbrances - budgeted funds	(199,620)	-	-	(62,735)
Budgetary Fund Balance at December 31, 2024	$ 1,534,012	$ 1,633,295	$ 2,702,492	$ 2,975,422

	Public Safety Needs Study	Other Nonmajor Governmental Funds
GAAP Fund balance at December 31, 2024	$ 1,711,614	$ 4,437,271
Adjustments:		
Accrued sales tax revenues	-	(95,682)
Accrued franchise fee revenues	-	-
Due to (from) other funds	-	183,277
Other receivables	-	(22,327)
Land held for resale	-	(710,252)
Reserves for encumbrances - budgeted funds	-	-
Budgetary Fund Balance at December 31, 2024	$ 1,711,614	$ 3,792,287

15. DEFINED CONTRIBUTION PLAN

The City established a 401(a) money purchase deferred compensation plan in 2004 for the benefit of City employees. Employees, who have reached the top step in their position's pay range, and make a minimum contribution of $20 per pay period into the City sponsored 457 plan, are additionally eligible for employer contributions into the 401(a) plan. The plan provides that the City make matching contributions, up to $20 per pay period. The City contributed $15,973 to employee accounts in 2024. The City of Winfield administers the plan and has the authority for establishing and amending the plan's provisions and contribution requirements. Employees have the option of investing contributions with VOYA Financial or ICMA-RC Investments.

16. INTERFUND RECEIVABLES AND PAYABLES

Individual interfund receivables and payables (due to/due from funds) at December 31, 2024, were as follows:

Fund	Due From	Due To
Major Funds:		
General	$ 20,265	$ -
Debt Service	183,277	-
Electric Utility	27,588	-
Gas Utility	6,645	-
Water Utility	2,970	-
Wastewater Utility	4,912	-
Total major funds	245,657	-
Nonmajor Funds:		
Stormwater Drainage	-	183,277
Refuse	7,620	-
Operations Center	-	70,000
Total nonmajor funds	7,620	253,277
	$ 253,277	$ 253,277

The amount due to the Debt Service Fund is related to debt service payments actually paid by the Debt Service Fund in prior years' but were scheduled to be paid by the Stormwater Drainage Fund.

17. FUND BALANCE DISCLOSURE

The nonspendable balance of $6,468 in the Cemetery Endowment Fund are funds donated to the Endowment and are permanent in nature. Only the income can be spent, unless authorized by the Commission for specific improvements.

At December 31, 2024, the City had the following significant contractual or purchase commitments that were outstanding and encumbered against available resources:

Fund	Encumbered for	Amount
General	Vehicle for emergency services	$ 180,083
Special Street	Salt Briner	30,675
Special Street	Asphalt	32,060
Capital Improvements	Software	58,067
Capital Improvements	Tanker truck	407,537
Capital Improvements	Grounds improvements	62,049
Capital Improvements	Safety surface for Hiat	18,850
Pike Road Improvements	Street improvements	136,865
ARPA	Building and structural improvements	523,407
Public Safety Needs Assessment	Building and structural improvements	1,053,582
Advance Metering Infrastructure	Meters	306,118

18. INTERFUND TRANSFERS

A summary of interfund transfers by individual fund for 2024 is as follows:

Fund	Transfers In	Transfers Out
Major Funds:		
General	$ 2,332,796	$ 481,873
Debt Service	1,382,812	3,585,000
Capital Improvements	58,300	376,999
Special Streets and Highway	350,000	579,921
Public Safety	3,758,036	-
Electric Utility	464,824	2,396,777
Electric Transmission	-	221,418
Gas Utility	-	443,102
Water Utility	-	426,636
Wastewater Utility	50,000	325,429
Advance Metering Infrastructure	462,075	-
Total major funds	8,858,843	8,837,155
Nonmajor Funds:		
Water Preservation	49,240	8,300
Senior Citizens Facility	5,000	-
Operational services	-	25,000
Management Services	-	3,236
Public Safety/Other CIP	-	1,390,704
Grants and Contributions	10,923	-
Pike Road Improvement	425,284	-
Winfield Recreation Expansion	685,000	-
Land Bank	10,000	-
Refuse	-	117,548
Quail Ridge Golf Course	248,836	-
Pedestrian Access Expansion	43,817	-
2025 CLLIP Project	45,000	-
Total nonmajor funds	1,523,100	1,544,788
	$ 10,381,943	$ 10,381,943

Interfund transfers reflect the flow of resources from one fund to another fund, generally from the fund in which the resources are received or reside to the fund in which the resources will be expended.

The General Fund received transfers from the Electric Utility, Electric Transmission, Gas Utility, Water Utility and Refuse Funds in the amounts of $1,484,702, $106,594, $257,333, $165,493 and $93,673 respectively. These transfers represent in lieu of franchise taxes ranging from 4% to 6.9% of gross sales. The in lieu of taxes mirror the payment received from external utilities providing services to the City, such as telephone and cable services. All other transfers represent operational transfers, capital equipment transfers, and transfers to assist with debt service payments.

19. FUND DEFICITS

At December 31, 2024, the following individual funds had incurred deficits:

Fund	Amount
Walnut Energy SS Pipeline	$ 8,152
Pike Road Improvements	822,848

These fund deficits will be financed through the sale of bonds authorized by the City Commission, not yet sold at December 31, 2024, or through other revenue sources available to the City.

20. TAX ABATEMENTS

The City operates three economic development programs that qualify as tax abatements under Governmental Accounting Standards Board (GASB) No. 77. These programs include: (1) Neighborhood Revitalize Plan (NRP), (2) Economic Development Tax Exemption (EDX) and (3) Industrial Revenue Bond Exemption (IRB). NRP authority is K.S.A. 12-17,114 et. seq. EDX authority is given to local units of government in Article II, Section 13 of the Kansas Constitution. IRB exemptions authority is K.S.A. 12-1740 et. seq. Those programs as are summarized as follows:

Neighborhood Revitalization Programs Property Tax Abatements

The City of Winfield Neighborhood Revitalization Plan (NRP), which was effective January 1, 2015 and approves property tax abatements in accordance with K.S.A. 79-201a Second and Twenty-Fourth and K.S.A. 12-1740 to 12-1749d, inclusive. The NRP incentive program requires that the construction of an improvement must have been commenced on or after January 1, 2015 and be located within the designated Neighborhood Revitalization Areas. The NRP program shall expire on December 31, 2020, however, the City Commission will review the program annually on or before August 15, at which time the City Commission will consider modifications and extensions. An application for tax rebate must be filed within 60 days of the issuance of a building permit. The minimum investment in an improvement is $5,000, as determined by the building permit value, for residential, commercial and historic property. Rehabilitation, alterations and additions to any existing residential commercial and industrial structure or multi-family residential, commercial or industrial new construction, shall be eligible. The rebate period will be for a period of 7 years with the rebate amount being 75% of the increased valuation from such improvements. Single-family residential new construction is also eligible with a rebate period of 5 years at 50% of the first $150,000 of appraised value. In addition, properties in the National , Kansas or Local Historical Register shall be eligible with a rebate period of 10 years with the rebate amount being 100%. Properties within the City of Winfield located with Cowley County are eligible. On June 1, 2015, the City Commission amended the NRP Plan to include properties within the Winfield city limits acquired by delinquent tax or mortgage foreclosures. Building permits must be issued from a minimum of $20,000 and improvements made with 24 months after filing of the Sheriff's Deed. Eligibility will be revoked if building permit and improvement requirements are not met. Eligible properties will receive a rebate of 75% for 7 years after final project completion. Upon timely payment in full of all real estate tax and special assessments for the property, a rebate of the taxes related to the valuation improvement (less an administrative fee not to exceed 5% to be retained by Cowley County, Kansas) will be made to the property owner. Cowley County issues the rebate checks directly to the individual taxpayers. All taxing subdivisions overlapping the City of Winfield participate in this NRP program.

For the year ended December 31, 2024, the City abated property taxes totaling $72,488 under the NRP program.

Eligible properties for economic development tax exemptions are new or existing business engaged in manufacturing articles of commerce, conducting research and development or storing goods or commodities which are sold or traded in interstate commerce.

The City's Tax Exemption Policy allows tax abatements that meet the guidelines for EDX and IRB tax exemptions under Kansas law. The City considers granting an exemption incentive upon a clear and factual showing of direct economic benefit to the City Factors considered in determining the amount and term of a tax exemption include, but are not limited to: increased employment and earnings, additional revenues from new or expanded business, types of jobs created, degree to which the business improves diversification of the economy, potential for future expansion and additional job creation, utilization of local products or materials in manufacturing and the additional direct and indirect public costs for additional infrastructure. All applications require a Cost Benefit Analysis per Kansas regulations, which can be prepared by an independent consultant or Kansas Department of Commerce.

The business is required to report any change in ownership of exempt assets which requires a new application for property tax exemption.

There is an annual requirement that the business submit an Annual Claim for Exemption from Property Taxation form with the County Appraiser. The annual review of the business report by the County is to ensure that the ownership and se of the property and any other qualifying criteria of the business for the tax exemption incentive shall continue to exist.

20. TAX ABATEMENTS (CONT.)

Economic Development Tax Exemption (EDX) and Industrial Revenue Bond (IRB) Tax Abatements

All applications and records pertaining to a property tax exemption request shall be subject to the provisions of the Kansas Open Records Act. Any business records or information eligible to remain confidential will be kept confidential only if requested by the applicant.

The City has no provisions to recapture abated taxes if the business does not meet initial new employment or salary estimates used in the preparation of the initial Cost Benefit Analysis. If the use changes to another qualifying use the annual tax abatement will most likely continue following review of the Annual Claim for Exemption Form. The tax abatement incentive is cancelled for any business that ceases to operate or no longer is considered an eligible property.

Property tax incentives issued by the City are abated based on the new or expanded costs of improvements at 100% of the cost of the improvements. Per Kansas law, machinery and equipment placed in use by a business after June 30, 2006, is exempt from ad valorem taxes.

The City has made no commitments other than reduced taxes to business receiving tax abatement incentives.

The City negotiates property tax abatement agreements on an individual basis. The abated taxes reflect the amounts that would have been levied on behalf of the City of the 2023 tax roll to fund expenditures during the calendar year 2024 were it not for an exemption.

A summary of economic development tax abatements for 2024 is as follows:

Location of Exempt Property	Amount
EDX and IRB Tax Abatements:	
City	$ 363,764
Other taxing entities	793,129
Total abatements	$ 1,156,893

21. COMMITMENTS AND CONTINGENCIES

Electric Purchase Commitments

The City became a member of the Kansas Power Pool (KPP), a municipal energy agency, in January 2005. KPP was created to provide economic benefits to its member cities, through coordination of collective electrical resources, facilities and loads. The City has power supply contracts with the Kansas Municipal Energy Agency (KMEA) for power supply from the Grand River Dam Authority (GRDA). The scheduling responsibilities for those contracts and the City's contract with the Southwestern Power Administration (SPA) have been assigned to KPP. That agency manages power supply on behalf of the City. The contracts with KMEA for GRDA Power were in force through December 31, 2015, KPP has entered into transmission arrangements with the Southwest Power Pool on behalf of the City. The City terminated its SPA power supply arrangement from KMEA in 2010 and entered into a contract directly with SPA. This contract is in force through May 31, 2025. In September 2012 the city entered into a twenty-year power purchase contract with KPP, to purchase all of the City's required electrical power. That contract was amended in June 2017 to provide a commitment to purchase power and energy and the associated transmission service not to exceed 40 years.

The payment and scheduling responsibilities under all these contracts have all been assigned to KPP and all billings and payments are handled through KPP. Payment responsibility for each of these contracts remains with the City for the full term of each contract and would be under the respective contract conditions should the City withdraw from KPP.

Natural Gas Purchase Commitments

The City entered into a contract with the Kansas Municipal Gas Agency (KMGA) in February 2014 to purchase its entire gas requirements from and through KMGA for the term of the agreement. The contract provides that the City may provide for alternative supplies not to exceed 35% of its total annual gas supply. The contract provides for a year-to-year term until terminated by either party giving at least a 1-year written notice to the other party.

22. PRIOR PERID ADJUSTMENT

The City implemented GASB 101, *Compensated Absences* for the year ended December 31, 2024. The standard requires it to be retroactively applied. As a result of implementation, the following funds had an adjustment to net position:

Government funds	
General Fund	$ (117,955)
Special Streets and Highway Fund	(34,720)
Stormwater Drainage Fund	(10,096)
	(162,771)
Proprietary funds	
Electric Fund	$ (47,351)
Gas Fund	(32,777)
Water Fund	(28,149)
Wastewater Fund	(33,475)
Refuse Fund	(16,698)
Quail Ridge Golf Course Fund	(6,860)
Management Servcies Fund	(52,122)
Operations Center Fund	(8,944)
	(226,376)
Total effect to net position	$ (389,147)

23. SUBSEQUENT EVENTS

Management has evaluated the effects on the financial statements of subsequent events occurring through the date of this report, which is the date at which the financial statement was available to be issued.

COMBINING FINANCIAL STATEMENTS
AND
INDIVIDUAL FUND SCHEDULES

CITY OF WINFIELD, KANSAS

GOVERNMENTAL FUNDS

NONMAJOR SPECIAL REVENUE FUNDS

The primary purpose of the Special Revenue Funds is to account for the proceeds of designated revenue sources which are used to finance specified activities as required by law or administrative regulation. The following nonmajor Special Revenue Funds are reported:

Flood Control - to account for maintenance costs of the flood levee.

Special Parks and Recreation - to account for park and recreation upgrades. Financing is provided through one-third of the 10% gross receipts tax on the sale of alcoholic liquor, which is a statewide alcohol liquor tax.

Special Alcohol - to account for expenditures of drug and alcohol education, treatment and prevention services for City residents. Financing is provided through one-third of the 10% gross receipts tax on the sale of alcoholic liquor, which is a statewide alcohol liquor tax.

Law Enforcement Trust - to account for the net proceeds of sale of forfeited property and moneys related to controlled substances activities. The enabling statute defines allowable expenditures.

Water Preservation - established in 2004 to provide funding for programs to protect the upstream quality of water flowing into the Winfield City Lake, the primary water source for the City. A portion of the lake permit fees and two cents for every one thousand gallons of water billed provide the revenue sources for this fund.

Senior Citizens Facility - to account for the operations of the Senior Center activities. Financing is provided from appropriations from the Cowley County Council on Aging and other sources.

Special Liability - to account for City employee legal defense costs and various uninsured risk costs as provided by applicable statutes. Financing is provided by a specific tax levy.

Land Bank - to account for funds used to establish the land bank fund.

American Rescue Plan Act - used for the strategic investment in long-lived assets responding to the public health and economic impacts of Covid-19 Pandemic. The City elected to receive the entirety of funds using the standard revenue allowance which provided flexibility of uses under general government spending on previously provided public services including utilities, as well as simplified reporting mechanisms. The funds must be obligated by December 31, 2024 and expended by December 31, 2026.

Kansas Fights Addiction - to acccount for proceeds from state opioid settlements. All moneys are to be expended for drug abuse prevention programs.

Industrial Development - to account for the promotion of industrial development. Financing is provided through a specific tax levy.

Convention and Tourism - to account for the administration of the Transient Guest Tax received by the City. All moneys are to be expended for convention and tourism promotion per applicable State statutes.

Payroll Clearing - to account for moneys held on behalf of City employees' payroll for related payroll taxes, retirement contributions, insurance and other authorized withholdings by City employees.

Fire Insurance Proceeds - to collect and pass through flexible benefit contributions.

Sales Tax - to account for sales tax collected and to be remitted to the State of Kansas.

Flex Medical - to account for moneys held on behalf of City employees' payroll for reimbursement of qualifying medical expenses by City employees.

Fairgrounds Improvements - to account for Cowley County Fairgrounds maintenance and improvement expenditures. Financing is provided by fairgrounds facility usage fees.

Cemetery Improvements - Cemetery operations and maintenance expenditures are paid from this fund with one-third of sales proceeds of each cemetery space and pre-need payments providing the funding for this fund.

Library - to account for the City's tax levy funding of the operation of the Winfield Public Library. Financing is provided by a specific tax levy.

Equipment Reserve - to account for the resources provided by other City funds to provide for future equipment purchases.

Grants and Contributions - to account for federal and state grants and contributions from private enterprise for general government type projects.

Alcohol and Drug Safety Action - to account for assessment fees collected by the Municipal Court for alcohol and drug related charges, as established by state statues. Resources can only be used for court expenditures involved in administering the provisions of the related statute.

Barr Police Building - The City received a $542,972 bequest in 2015 restricted for use of police improvements.

Street Sales Tax - to account for the .4% cent sales tax approved by the voters of the city beginning July 1, 2014 and ending June 30, 2021 to be used for library, street and other capital improvements. The first $600,000 of sales tax collections is committed to library improvements with 50% of the remaining collections allocated to the library, to a maximum of $900,000, with the remaining resources for the specified City purposes.

CDBG - to account for housing rehabilitation of approximately 15 rental units occupied by qualifying low to moderate income families.

Baseball Complex Maintenance Reserve - to track the revenues and expenses associated with the Broadway Complex Facility Lease Agreement between the City, USD 465, Southwestern College and the Winfield Recreation Commission.

Stormwater Drainage - established in 1996 to fund major drainage projects throughout the City. Financing is provided through stormwater drainage fees charges to City utility customers.

NONMAJOR CAPITAL PROJECT FUNDS

The primary purpose of the capital projects fund is to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds. Nonmajor projects included within this fund type are as follows:

Walnut Energby SS Pipeline - to account for the costs associated with the preliminary design engineering for natural gas pipeline to serve the Walnut Energy Center.

2023 CCLIP - to account for the costs of the street improvements funded in part by KDOT grant funds to be completed on 1) US77 between 19th Ave. and the S. Walnut Bridge and 2) US 160 from Wheat Rd. to the Industrial Park.

2025 CCLIP - to account for the costs of the street improvements funded in part by KDOT grant funds to be completed on Main St. (US77) from 6th Ave. to 11th Ave.

Pike Road Improvements - to account for the costs of the street improvements to be completed on Pike Rd. from 19th Ave. to the Dillons Entrance.

Vaughn Tennis Center Project - to account for the improvements to the tennis center facilities located on the south end of Whittier Elementary School. The City entered into an agreement with the Winfield Unified School District No. 465, Southwestern College and the Winfield Recreation Commission to expand and improve the tennis center.

Strother Field - to account for the use of bond proceeds for the purchase of real estate contiguous to the existing Strother Field Airport and Industrial Park parcel.

Pedestrian Access Expansion - to account for the costs of pedestrian sidewalk improvements funded in part by KDOT grant funds on US 160 between Mound and Wheat Rd.

PERMANENT FUNDS

Cemetery Endowment - the fund is an endowment from a citizen and prohibits the use of the principal and only the investment earnings can be used for cemetery improvements.

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The fund measurers focus is upon determination of net income, financial position and change in financial position. The following Enterprise Funds are reported:

Electric Utility - to account for the operations and maintenance of the City's electric generation and distribution system. The City purchases electricity and maintains a 65 KW generation capacity. Electric service is provided to approximately 7,500 meters both within the City and in surrounding areas, and sold wholesale to neighboring towns. Financing is provided by user charges.

Electric Transmission - to account for the ongoing costs of the newly formed partnership of GridLiance Great Plains and the City of Winfield to jointly own and operate the transmission lines previously owned 100% by the City. GridLiance Great Plains now owns 65% interest of this asset with the City owning 35% of the asset.

Gas Utility - to account for the operations and maintenance of the City's gas distribution system. The City purchases natural gas and provides service to approximately 5,200 customers. Financing is provided by user charges.

Water Utility - to account for the operation and maintenance of the City's water treatment plan and water distribution system. The Winfield City Lake provides adequate quality water supply to Winfield citizens providing water to approximately 5,200 meters. The City also provides water to five rural water districts and one neighboring town. Financing is provided by user charges.

Wastewater Utility - to account for the operation and maintenance of the City's wastewater collection system and wastewater treatment plan. The City collects and treats effluent of City residents providing service to approximately 5,000 households. Financing is provided by user charges.

Advance Metering Infrastructure - used for the improvement of the metering system of the City's utilities including water, sewer, electric and natural gas. Long term financing is paid through transfers from applicable utility funds by percentage of the project total.

Natural Gas Loan Fund - to account for the ongoing costs and collections related to the State of KS loan that was taken out to cover the increased costs related to the winter storm of February 2021. The City is collecting fees from customers over the next 10 years to provide funds to repay the loan.

Refuse - to account for revenues and expenses related to the operation and maintenance of the refuse collection and recycling programs operated by the City. All activities necessary to provide such services are account for into his fund, including but not limited to, administration, operations and maintenance, financing and related debt service, and capital improvements. In addition, a prorata portion of administration, utility billings and collection expenses are charged to this fund from the Management Services Fund. Financing is provided by user charges.

Quail Ridge Golf Course - to account for the operation and maintenance of the City's eighteen hole golf course owned and operated by the City. The golf course revenues consist of memberships, round fees, cart rentals and driving range fees.

CITY OF WINFIELD, KANSAS

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for services performed by one governmental department to other departments of the City on a cost-reimbursement basis, and for risk financing activities. The following Internal Service Funds are reported:

Management Services - a cost center for the City's engineering, management information systems, utility billing and general administration departments' expenses. These expenses are charged to other City funds based on several criteria and ratios.

Operation Center - a cost center for the City's operations building and its equipment and for the Service Center department activities. The building and equipment maintenance costs are charged to other City funds on a square footage basis. The Service Center charges other departments based on usage.

Risk Management Reserve - pays for deductibles, excess liability losses, uninsured losses, and insurable losses not otherwise covered by commercial insurance. Funding is provided by annual contributions form other City funds that have insurable risk, based on actuarial computations provided by an insurance consultant. The City purchases commercial insurance coverage for substantial areas of risk, including property loss, auto liability, boiler and machinery and general and public officials' liability. Individual funds pay their portions of insurance policy premiums that are recorded as expenditures/expenses in those funds.

Worker's Compensation Reserve - accounts for all workers' compensation-related claims, judgements and expenses through September 24, 2011. At this time, the City purchased workers' compensation insurance to cover all future claims. The City's workers' compensation program was a partially self-funded program covering substantially all full-time and part-time employees of the City. Funds have been provided by annual contributions from other City functions that have an insurable risk, based on actuarial computations provided by an insurance consultant.

Health Insurance Reserve - created to eventually fund a partially self-insured health insurance program. The fund currently is used to pay a portion of the employee health insurance premiums.

Short Term Disability Reserve - used to provide short-term disability for up to twenty-six weeks of financial assistance to City full-time employees following sixty days of continuous disability.

CITY OF WINFIELD, KANSAS

COMPONENT UNITS

Winfield Housing Authority

The Winfield Housing Authority was created in 1978 as an agent of the City under K.S.A. 17-2340. The City Commission appoints all Board members and has the ability to impose its will on the Winfield Housing Authority. Although the City does not have the authority to approve or modify the Housing Authority's operational and capital budgets, and the Housing Authority has the authority to issue bonded debt, the City is fiscally responsible for the Housing Authority since it was created as an agency of the City. The City has delegated to the Housing Authority the power to operate and manage the low-rent housing projects of the City. The Housing Authority is on a June 30th fiscal year end and financial data included in these financial statements are for the fiscal year ended June 30, 2023.

Winfield Public Library

The Winfield Public Library is reported as a discretely presented component unit within the financial statements of the City of Winfield (the reporting entity) to emphasize its separate legal status. The Winfield Public Library Board is appointed by the City Council and operates the public library of the City. The Library Board taxes are levied under the taxing authority of the City and are included as part of the City's total tax levy. There taxes are accounted for in the Library special revenue fund of the City. The Library Board also received funding through state assistance programs, fines and donations from the public.

Notes: Details regarding the City's outstanding debt can be found in the notes to the financial statements.

[a] See Table 5 for property value data
[b] In accordance with KSA 10-1116 and KSA 79-5028, KDOT loans constitute 'bonds' characterization. KDOT debt for street improvements are being repaid as general obligation debt.
[c] Includes $3,525 thousand of general obligation debt, that is being repaid from water revenues, net of related premiums, discounts, and adjustments.

CITY OF WINFIELD, KANSAS

Governmental Activities Direct and Overlapping Debt
December 31, 2022

Table 12

	Debt	Percent of Debt Applicable to City	City Share of Debt
Direct debt:			
General obligation bonded debt	$ 18,067,920	100.00%	$ 18,067,920
Interlocal agreement debt	111,000	100.00%	111,000
Temporary notes payable	5,800,000	100.00%	5,800,000
Leases	311,080	100.00%	311,080
Total direct debt			24,290,000
Overlapping debt:			
USD 465	$ 15,000,000	60.55%	$ 9,083,143
Cowley County	8,875,000	25.13%	2,230,365
Total overlapping debt			11,313,508
Total direct and overlapping debt			$ 35,603,508

Sources: Assessed valuation provided by Cowley County Clerk.
Debt outstanding data is provided by each governmental unit.

Percentage of debt applicable to the City of Winfield is based on the proportion that the assessed valuation of the City of Winfield bears to the assessed valuation of the overlapping entity.
