### INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the business-type activities of Rural Water District No. 1, Riley County (the District) as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities as of December 31, 2018 and 2017, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

# Independent Auditor's Report

Rural Water District No. 1 Riley County, Kansas  
(Continued)

**Other-Matters**

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

# Financial Statements

**RURAL WATER DISTRICT NO. 1 RILEY COUNTY, KANSAS**  
Manhattan, Kansas  
**NOTES TO FINANCIAL STATEMENTS**  
December 31, 2018 and 2017

**Notes to Financial Statements**

**Note 1: Summary of Significant Accounting Policies**

Rural Water District No. 1, Riley County, Kansas (the District) was organized under K.S.A. 82a-612 et. seq. on July 22, 1974 to provide water to areas of Riley County. The operations of the District constitute a single proprietary-type fund.

***The Financial Reporting Entity***

The financial reporting entity of the District is comprised of the primary government, the District.

The accompanying financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, in that the financial statements include all organizations, activities, and functions that compromise the District. Component units are legally separate entities for which the District (the primary government) is financially accountable. Financial accountability is defined as the ability to appoint a voting majority of the organization's governing body and either (1) the District's ability to impose its will over the organization or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the District. Using these criteria, the District has no component units.

***Basis of Presentation and Accounting***

The District's basic financial statements are presented on the full accrual basis of accounting and conform to accounting principles generally accepted in the United States of America. The GASB is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The District has elected under GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Activities That Use Proprietary Fund Accounting*, to apply all applicable GASB pronouncements as well as any applicable pronouncements of the Financial Accounting Standards Board (FASB), the Accounting Principles Board, or any Accounting Research bulletins issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements. The more significant of the District's accounting policies are described below.

The accounts of the District are organized on the basis of a proprietary fund type, specifically an enterprise fund. The activities of the fund are accounted for with a separate set of self-balancing accounts that comprise the District's assets, liabilities, net assets, revenues and expenses. Enterprise funds account for activities: (i) that are financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity; or (ii) that are required by laws or regulations that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues; or (iii) that the pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

The accounting and financial reporting treatment applied to the District is determined by its measurement focus. The transactions of the District are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations are included on the statements of net assets. Net assets (i.e., total assets net of total liabilities) are segregated into invested capital assets, net of related debt; restricted for debt services; and unrestricted components.

***Cash and Cash Equivalents***

Cash and cash equivalents include investments in money market and savings accounts and certificates of deposits.

**RURAL WATER DISTRICT NO. 1 RILEY COUNTY, KANSAS**  
Manhattan, Kansas  
**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**  
December 31, 2018 and 2017

**Note 1: Summary of Significant Accounting Policies (Continued)**

***Operating Revenues and Expenses***

Operating revenues and expenses consist of those revenues that result from the ongoing principal operations of the District. Operating revenues consist primarily of charges for services.

***Capital Assets***

The District maintains an account for capital assets, which consists of buildings, telemetry, wells and water system, standpipes, office furniture and equipment, and software. The District does not possess any infrastructure. All capital assets are stated at historical cost and are reported in the Statement of Net Assets. Capital assets are depreciated using the straight-line method over the estimated useful life of the asset. When capital assets are disposed, the cost and applicable depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations.

***Net Assets***

Net assets present the difference between assets and liabilities in the statements of net assets. Net assets invested in capital assets are reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are legal limitations imposed on their use by District legislation or external restrictions by creditors, grantors, laws or regulations of the government. Unrestricted net assets consist of net assets that do not meet the definition of invested in capital assets, net of related debt, or restricted net assets.

***Capital Contributions***

Assets contributed by new benefit units are recorded as capital contributions when received. When a benefit unit is returned, operation revenue is recognized for the amount of the capital contribution that was originally recorded. The balance at December 31, 2018 and 2017 was \$1,400,053 and \$1,364,053, respectively.

***Income Taxes***

The District is a quasi-municipality and, as such, it is not subject to income taxes.

***Estimates***

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

***Allowance for Doubtful Accounts***

An allowance for doubtful accounts is estimated based on the Districts historical losses, the existing economic conditions in the industry and the financial stability of its customers. There is no allowance as the District believes all accounts to be collectible as of December 31, 2018 and 2017.

**RURAL WATER DISTRICT NO. 1 RILEY COUNTY, KANSAS**  
Manhattan, Kansas  
**NOTES TO FINANCIAL STATEMENTS (CONTINUED)**  
December 31, 2018 and 2017

**Note 2: Deposits and Investments**

As of December 31, 2018 and 2017 the District's investments consisted of certificates of deposit.

K.S.A. 9-1401 establishes the depositories which may be used by the District. The statute requires banks eligible to hold the District's funds have a main or branch bank in the county in which the District is located, or in an adjoining county if such institution has been designated as an official depository, and the banks provide an acceptable rate of return on funds. In addition, K.S.A. 9-1402 requires the banks to pledge securities for deposits in excess of FDIC coverage. The District has no other policies that would further limit interest rate risk.

K.S.A. 12-1675 limits the District's investment of idle funds to time deposits, open accounts, and certificates of deposit with allowable financial institutions; U.S. Government securities; temporary notes; no-fund warrants; repurchase agreements; and the Kansas Municipal Investment Pool. The District has no investment policy that would further limit its investment choices. The District had no investments, other than certificates of deposit which are included in the bank deposits; therefore they do not have a rating.

***Concentration of Credit Risk***

State statutes place no limit on the amount the District may invest in any one issuer as long as the investments are adequately secured under K.S.A. 9-1402 and 9-1405.

***Custodial Credit Risk - Deposits***

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. State statutes require the District's deposits in financial institutions to be entirely covered by federal depository insurance or by collateral held under a joint custody receipt issued by a bank within the State of Kansas, the Federal Reserve Bank of Kansas City, or the Federal Home Loan Bank of Topeka, except during designated "peak periods" when required coverage is 50%. The District had no agreements for designated "peak periods."

***December 31, 2018***

At December 31, 2018, the carrying amount of the District's deposits, including certificates of deposit, was \$2,090,440 and the bank balance was \$2,112,941. The total bank balance was fully covered by federal depository insurance or securities held by the pledging financial institutions' agents in the District's name.

***December 31, 2017***

At December 31, 2017, the carrying amount of the District's deposits, including certificates of deposit, was \$1,841,123 and the bank balance was \$1,842,463. Of the total bank balance, \$1,779,852 was covered by federal depository insurance or securities held by the pledging financial institutions' agents in the District's name. The remaining \$62,611 was unsecured.

***Custodial Credit Risk - Investments***

For an investment, this is the risk that, in the event of the failure of the issuer or counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State statutes require investments to be adequately secured.

The minimum interest receivables are as follows for December 31,

	<u>2018</u>	<u>2017</u>
2018	\$ -	6,772
2019	6,305	6,474
2020	6,007	6,168
2021	5,700	5,852
2022	5,383	5,527
2023	5,057	5,057
Thereafter	31,291	32,224
	<u>\$ 59,743</u>	<u>\$ 68,074</u>

**Note 6: Commitments and Contingencies**

**Construction Contracts**

At December 31, 2018 and 2017, the District did not have any pending construction project contracts. Commitments related to significant contracts might include contracts for the District's relocation of water lines, installations of water lines, and repairs and maintenance on the water system.

**Risk Management**

The District is exposed to various risks of loss related to theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District manages these various risks of loss through commercial insurance with varying deductibles. All deductibles are under \$1,000. Insurance claims have not exceeded commercial insurance coverage in any of the past three fiscal years.
