INDEPENDENT AUDITOR'S REPORT

Board of County Commissioners **Butler County, Kansas**

Report on Financial Statement

We have audited the accompanying fund summary statement of regulatory basis receipts, expenditures, and unencumbered cash balances of the Butler County, Kansas and the related municipal entities of the Butler County Extension Council and Butler County Public Building Commission (collectively, the Butler County, Kansas Financial Reporting Entity), as of and for the year ended December 31, 2018 and the related notes to the financial statement.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with the Kansas Municipal Audit and Accounting Guide as described in Note IB; this includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statement in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *Kansas Municipal Audit and Accounting Guide*. Those standards require we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note IB of the financial statement, the financial statement is prepared by the Butler County, Kansas Financial Reporting Entity on the basis of the financial reporting provisions of the Kansas Municipal Audit and Accounting Guide, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statement of the variances between the regulatory basis of accounting described in Note IB, and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statement referred to above does not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Butler County, Kansas Financial Reporting Entity as of December 31, 2018, or changes in financial position and cash flows thereof for the year then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statement referred to above presents fairly, in all material respects, the aggregate cash and unencumbered cash balance of the Butler County, Kansas Financial Reporting Entity as of December 31, 2018, and the aggregate receipts and expenditures for the year then ended in accordance with the financial reporting provisions of the *Kansas Municipal Audit and Accounting Guide* described in Note IB.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the fund summary statement of regulatory basis receipts, expenditures, and unencumbered cash balances (basic financial statement) as a whole. The supplementary information as listed in the table of contents is presented for analysis and is not a required part of the basic financial statement, however, is required to be presented under the provisions of the *Kansas Municipal Audit and Accounting Guide*. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statement. The information has been subjected to the auditing procedures applied in the audit of the basic financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statement or to the basic financial statement itself, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statement as a whole, on the basis of accounting described in Note IB.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 24, 2019 on our consideration of the Butler County, Kansas Financial Reporting Entity's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Butler County, Kansas Financial Reporting Entity's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Butler County, Kansas Financial Reporting Entity's internal control over financial reporting and compliance.

NOTES TO THE FINANCIAL STATEMENT

DECEMBER 31, 2018

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Municipal Financial Reporting Entity

Butler County, Kansas (County) is organized under the laws of the State of Kansas (Kansas or State) and is governed by an elected five-member board. This regulatory financial statement presents the County and certain of its related municipal entities. The related municipal entities are included in the County's reporting entity because they were established to benefit the County and/or its constituents.

Excluded Related Municipal Entities

The Butler County Fire Districts (Fire Districts), defined as separate taxing entities by applicable Kansas statutes, provide fire protection services to the unincorporated areas of the County. The costs of providing such services, including retirement of general long-term debt, are provided from property taxes assessed to property owners in the unincorporated areas of the County. For financial reporting, the financial activities of the Fire Districts have been excluded from the County's financial statements. The effects of their exclusion are not reasonably determinable. Financial statements for the Fire Districts may be obtained from the Butler County Department of Administration.

Included Related Municipal Entities

The Butler County Sewer Districts (Sewer Districts) are governed by the Butler County Board of County Commissioners acting as separate governing bodies. Their sole purpose is to provide sewage disposal services to County residents. They have a December 31 year-end. These entities, although legally separate entities, are in substance, part of the County's operations, and data from these entities are combined with data of the County and are accounted for as a special purpose fund in the County financial statements. As provided by Kansas statutes, resources required for the financing of utility plants are provided through the issuance of bonds of Butler County, Kansas. The maintenance costs and debt service costs, associated with the bonds are allocated, to the property owners within the benefit district. Collections of such costs are recorded as revenue in the Sewer Districts' maintenance fund and bond and interest fund from which the bonds are retired, respectively.

The Butler County Public Building Commission (BCPBC) was established to benefit the County and other governmental entities. The BCPBC consists of five members, those members being the Board of County Commissioners of Butler County. The BCPBC has the authority to issue revenue bonds to finance the cost of acquiring and/or constructing land and facilities operated for a public purpose by a governmental entity. The BCPBC finances the debt service of the revenue bonds by leasing the land and facilities to the governmental entity that operates it. The operating governmental entity guarantees the rentals under the BCPBC lease. The BCPBC has no power to levy taxes, and revenue bonds issued by the BCPBC are not included in any legal debt limitations of the operating governmental entity.

The Butler County Extension Council provides services in such areas as agriculture, home economics, horticulture, and 4-H clubs, to all persons in the County. The Council is a 24-member elected board with a nine-member executive board. The County annually provides significant operating subsidies to the Council. Kansas State University provides the County Extension Council non-cash receipts and disbursements related to salaries for operations of the Council. Those non-cash receipts and disbursements are reflected as receipts and expenditures for regulatory basis reporting purposes.

B. Fund Types and Basis of Accounting

1. Regulatory Basis Fund Types

The accounts of the County are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for separately. Funds are classified into three categories: governmental, business, and fiduciary. Within each of these three categories there are one or more fund types. The County uses the following regulatory basis fund types:

Governmental Fund Types

These are the funds through which most governmental functions typically are financed. The funds included in this category are as follows:

General Fund - This fund is the chief operating fund. This fund is established to account for resources devoted to financing the general services that the County performs for its citizens. General tax revenues and other sources of revenue used to finance the fundamental operations of the County are included in this fund. This fund is used to account for all resources except those required to be accounted for in another fund.

Special Purpose Funds - These funds are established to account for the proceeds of specific tax levies and other specific regulatory receipt sources (other than tax levies for long-term debt and major capital projects) that are intended for specified purposes.

Bond and Interest Funds - These funds are established for the purpose of accumulating resources, including tax levies, transfers from other funds and the payment of interest and principal on long-term general obligation debt, other than those payable from Enterprise Funds.

Capital Project Funds - These funds account for debt proceeds and other financial resources to be used for the acquisition or construction of major capital facilities or equipment which are not financed by Enterprise funds.

Business Fund Types

Enterprise Funds - These funds are used to account for operations where it is the stated intent that costs of providing that service to the general public on a continuing basis is to be financed in whole or in part by fees charged to users of the goods or services.

Internal Service Funds - These funds are used to account for health insurance reserves, which are services provided to other departments on a cost-reimbursement basis.

Fiduciary Fund Types

Agency funds - These funds are used to report assets held by the municipal reporting entity on a purely custodial capacity (county treasurer tax collection accounts, etc.).

2. Regulatory Basis of Accounting

Regulatory Basis of Accounting and Departure from Accounting Principles Generally Accepted in the United States of America. The Kansas Municipal Audit and Accounting Guide (KMAAG) regulatory basis of accounting involves the recognition of cash, cash equivalents, marketable investments, and certain accounts payable and encumbrance obligations to arrive at a net unencumbered cash and investments balance on a regulatory basis for each fund, and the reporting of changes in unencumbered cash and investments of a fund resulting from the difference in regulatory basis revenues and regulatory basis expenditures for the fiscal year. All recognized assets and liabilities are measured and reported at cost, unless they have been permanently impaired and have no future cash value or represent no future obligation against cash. The KMAAG regulatory basis does not recognize capital assets, long-term debt, accrued receivables and payables, or any other assets, liabilities or deferred inflows or outflows, other than those mentioned above.

The municipality has approved a resolution that is in compliance with K.S.A. 75-1120a(c), waiving the requirement for application of generally accepted accounting principles and allowing the municipality to use the regulatory basis of accounting.

C. Deposits and Investments

The County maintains a cash and investment pool that is available for use by all funds. The pool has the general characteristics of demand deposit accounts in that each fund may deposit additional cash at any time and also effectively may withdraw cash at any time without prior notice or penalty. The pooled cash is invested to the extent available in authorized investments.

Earnings from the investments are allocated to the general fund. Investments for the County as of December 31, 2018 consisted of certificates of deposits, which are recorded at cost.

The County's investment policy and Kansas law (K.S.A. 12-1675 - 12-1677) allow monies not otherwise regulated by statute to be invested in:

- 1. Temporary notes of Butler County, Kansas.
- 2. Time deposits, open accounts, or certificates of deposits with maturities of not more than two years.
- 3. Repurchase agreements with commercial banks, or state or federally chartered savings and loan associations that have offices located in Butler County, Kansas.
- 4. U.S. Treasury bills or notes with maturities not exceeding two years.
- 5. U.S. government agency securities with a maturity of not more than four years.
- 6. The municipal investment pool fund operated by the Kansas Treasurer. This pool is not an SEC registered pool. The Pooled Money Investment Board (PMIB) provides the regulatory oversight for this pool.
- 7. A municipal investment pool established through the trust department of commercial banks that have offices located in Butler County, Kansas.

The County's investment policy and Kansas law (K.S.A. 10-131) allow investment of the proceeds of bonds and temporary notes in the following in addition to those stated above:

- 1. U.S. government and agency obligations.
- 2. Time deposits with banks and trust companies in Butler County, Kansas.
- 3. FNMA, FHLB, and FHLMC obligations.
- 4. Collateralized repurchase agreements.

- 5. Investment agreements with financial institutions, including broker/dealers whose obligations are rated in one of the three highest rating categories by either Moody's or Standard & Poor's.
- 6. Mutual funds whose portfolio consists entirely of obligations of the U.S. government, U.S. government agencies, FLMA, FHLB, and FHLMC.
- 7. Certain Kansas municipal bonds.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

Kansas statutes require an annual operating budget be legally adopted for the general fund, special purpose funds (unless specifically exempted by statute), bond and interest funds, and business funds. Although directory rather than mandatory, the statutes provide for the following sequence and timetable of the legal annual operating budget:

- * Preparation of the budget for the succeeding calendar year on or before August 1st.
- * Publication in a local newspaper on or before August 5th of the proposed budget and notice of public hearing on the budget.
- * Public hearing on or before August 15th, but at least ten days after publication of notice of hearing.
- * Adoption of the final budget on or before August 25th.

The County has the following levels of budget control:

- * The legal level of control is established at the fund level by Kansas statutes.
- As allowed by Kansas statute, the governing body can increase the fund level expenditures by amending the budget. An amendment may only be made for previously unbudgeted increases in regulatory receipts other than ad valorem property taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after publication, the hearing may be held and the governing body may amend the budget at that time.

The statutes permit transferring budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Budget comparison schedules are presented for each budgeted fund showing actual receipts and expenditures compared to budgeted receipts and expenditures. These schedules are shown at the legal level of control, which is at the fund level. Budgetary data in the financial statements represent the amended budget amounts.

All legal operating budgets are prepared using the regulatory basis of accounting, in which regulatory receipts are recognized when cash is received and expenditures include disbursements, accounts payable, and encumbrances with disbursements being adjusted for prior year's accounts payable and encumbrances. Encumbrances are commitments by the County for future payments and are supported by a document evidencing the commitment, such as purchase order or contract.

Any unused budget expenditure authority lapses at year-end except for capital project funds appropriations, which are carried forward until such time as the project is completed or terminated. Encumbered appropriations are not reappropriated in the ensuing year's budget but are carried forward until liquidated or canceled.

A legal operating budget is not required for capital project funds, the landfill capital improvements fund and the following special purpose funds:

Special Ambulance Drug Asset and Seizure

Landfill Post Closure County Attorney Diversion Fees
Special Highway Improvement Prosecutor's Training and Assistant

Special Highway Improvement Prosecutor's Training and Assistance Special Road Machinery Juvenile Justice Diversion Fees

Special Law Enforcement Juvenile Justice EMP Fees

Jail Reserve Community Corrections

Dept. of Aging Reserve Court Services Diversion Fees 800Mhz Maintenance and Upgrade Child Support Enforcement

Conceal/Carry Permits Register of Deeds Technology

Health Department Reserve Clerks Technology
Motor Vehicle Operating Treasury Technology

Capital Improvements

Department on Aging Grants

Chariff Capital Basery of Capital

Licelth Basery of Capital

Sheriff Capital Reserves Health Department Grants
Election Reserve Federal and State Assistance

Spending in funds which are not subject to the legal annual operating budget requirement is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the governing body.

III. DETAILED NOTES ON THE FUNDS AND ACCOUNTS

A. Deposits and Investments

Deposits - At year end, the carrying amount of deposits for the County was \$90,963,954 and the bank balance was \$91,034,652.

K.S.A. 9-1401 establishes the depositories which may be used by the County. The statute requires banks eligible to hold the County's funds have a main or branch bank in the County, or in an adjoining county if such institution has been designated as an official depository, and the banks provide an acceptable rate of return on funds. In addition, K.S.A. 9-1402 requires the banks to pledge securities for deposits in excess of FDIC coverage. The County has no other policies that would further limit interest rate risk.

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that, in the event of a bank failure, the County's deposits may not be returned to it. State statutes require the County's deposits in financial institutions to be entirely covered by federal depository insurance or by collateral held under a joint custody receipt issued by a bank within the State of Kansas, the Federal Reserve Bank of Kansas City, or the Federal Home Loan Bank of Topeka, except during designated "peak periods" when required coverage is 50%. The County does not have a formal deposit policy for custodial credit risk. As of December 31, 2018, the County was not exposed to custodial credit risk with its deposits since all were either covered by the federal deposit insurance corporation, or the collateral was held by a separate financial instruction in the County's name.

Custodial Credit Risk - Investments. For an investment, this is the risk that, in the event of the failure of the issuer or counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State statutes require investments to be adequately secured.

Credit Risk. State law limits the types of investments that the County may make. The County's investment policy does not add any further limitations.

Interest Rate Risk. State law and the County's investment policy limit investments in U.S. Treasury bills and agency securities or notes to those with maturities not exceeding two years.

Concentration of Credit Risk. State statutes place no limit on the amount the County may invest in any one issuer as long as the investments are adequately secured under K.S.A. 9-1402 and 9-1405.

B. Long-Term Debt

Changes in long-term debt for the County for the year ended December 31, 2018 were as follows:

<u>lssue</u>	Interest Rates	Date of Issue	Amount of Issue	Date of Final Maturity	Balance Beginning of Year	Additions	Reductions/ Payments	Balance End of Year	Interest Paid

On February 15, 2018, the Butler County Public Building Commission (BCPBC) issued \$3,860,000 Refunding Revenue Bonds, Series 2018A with an interest rate of 4% and \$4,305,000 Taxable Refunding Revenue Bonds, Series 2018B with interest rates ranging from 1.88%-2.40%. The proceeds of both issues were used to refund \$8,035,000 of outstanding Series 2005 Refunding which had an interest rate of 4.5%.

The BCPBC refunded this bond to achieve interest cost savings, to reduce debt service requirements for certain years, to restructure the debt payments on the Refunded Bonds and to provide an orderly plan of finance for the BCPBC. The economic gain is approximately \$331,000.

Conduit Debt - The County has issued Industrial Revenue Bonds not directly obligated by the County. The total amount outstanding at December 31, 2018 was \$7,143,241 for the Industrial Revenue Bonds. These bonds did not constitute an indebtedness or pledge of the faith and credit of the County.

C. Other Long-Term Obligations from Operations

1. Compensated Absences

It is the County's policy to permit employees to accumulate vacation to a maximum of 200 hours (5 weeks) for 8 hour employees, 212.5 hours (5 week equivalent) for 8.5 hour employees and 281 hours (5 week equivalent) for 12 hour employees. Upon termination or resignation from service to the County, employees who have completed at least 6 months of employment are entitled to payment for all accrued vacation earned prior to their termination or resignation. During the first 5 years of employment, employees earn vacation at the rate of 2 weeks (or its equivalent) per year; 6-10 years, employees earn the equivalent of 2 weeks and 2 days; 11-20 years, employees earn the equivalent of 3 weeks per year; and after 20 years, the equivalent of 4 weeks of vacation is earned each year.

All full-time equivalent employees earn sick leave at the rate of one calendar day per month. Upon retirement or termination, any employee in good standing, employed for two years or more, shall be compensated for accrued sick leave up to a maximum of 1,040 hours at the rate of one-half of his or her regular rate of pay. Employees with hire dates on or after April 2003 will be compensated for accrued sick leave at the rate of one-fourth of his or her regular rate of pay.

At December 31, 2018 the County had a liability of \$1,793,408 for compensated absences.

2. Landfills

Closure and post-closure costs - Kansas and federal laws and regulations require the County place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for 30 years after closure. The Butler County Landfill #1 was closed on October 5, 1996 and stopped accepting waste. As of December 31, 2018, all closure costs had been incurred, and the estimated post-closure cost was \$1,048,549 based on 100% usage.

On October 5, 1996, the County opened a new 75-acre Subtitle D landfill and began filling 7.4-acre area #1a. On September 1, 1999, the County opened additional 7.2-acre area #2a. In April 2005, the County opened additional 7.5-acre area #1b. In July 2011, the County opened additional 7.5-acre area #2b. During fiscal year 2015, the Kansas Department of Health & Environment approved a permit change that increased the permitted disposal area footprint for the landfill and increased the fill height. This change significantly increased the planned life expectancy of the landfill compared to prior years' estimates. As of December 31, 2018, cell #1a was 90% full, cell #2a was 90% full, cell #1b was 88% full, and cell #2b was 84% full. The estimated closure cost for these areas was \$1,316,193, and the estimated post-closure cost was \$780,121 based on 35% usage of the open cells of the new Subtitle D landfill. These cells have a combined remaining useful life of approximately 3 years; however, will not be filled to capacity for several years until the footprint of the landfill area in use is big enough to allow landfill operations to continue in a vertical direction. The entire 75-acre Subtitle D landfill is expected to reach capacity in 70 years.

In addition, the County operates a household hazardous waste facility, composting facility, and a construction/demolition landfill with closure costs of \$7,625, \$17,186, and \$392,123, respectively. There are no post-closure care costs associated with these facilities.

The recognition of these landfill closure and post-closure care costs is based on the amount of the landfill used during the year. The estimated liability for landfill closure and post-closure care costs was \$3,561,797 as of December 31, 2018. It is estimated an additional \$1,646,711 will be recognized as closure and post-closure care expenses between the date of the financial statements and the date the landfill is expected to be filled to capacity. The estimated total current cost of the landfill closure and post-closure care, \$5,208,507, is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor, and maintain the landfill were acquired as of December 31, 2018. Actual cost of closure and post-closure care may be higher due to inflation, changes in technology, or changes in landfill laws and regulations. The closure and post-closure will be financed by user fees and may potentially require the sale of bonds.

Financial assurance for closure and post-closure care costs of the landfill has been demonstrated by the local government financial test, as specified in 40 CFR 258.74(f), adopted by reference for use in Kansas by K.A.R. 28-29-2110.

3. Defined Benefit Pension Plan

General Information about the Pension Plan

Plan description. The County participates in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, et. seq. Kansas law establishes and amends benefit provisions. KPERS issues a publically available financial report that includes financial statements and required supplementary information. KPERS' financial statements are included in its Comprehensive Annual Financial Report which can be found on the KPERS website at www.kpers.org or by writing to KPERS (611 South Kansas, Suite 100, Topeka, KS 66603) or by calling 1-888-275-5737.

Contributions. K.S.A. 74-4919 and K.S.A. 74-49,210 establish the KPERS member-employee contribution rates. KPERS has multiple benefit structures and contribution rates depending on whether the employee is a KPERS 1, KPERS 2 or KPERS 3 member. KPERS 1 members are active and contributing members hired before July 1, 2009. KPERS 2 members were first employed in a covered position on or after July 1, 2009, and KPERS 3 members were first employed in a covered position on or after January 1, 2015. Effective January 1, 2015, Kansas law established the KPERS member-employee contribution rate at 6% of covered salary for KPERS 1, KPERS 2 and KPERS 3 members. Member contributions are withheld by their employer and paid to KPERS according to the provisions of Section 414(h) of the Internal Revenue Code.

State law provides that the employer contribution rates for KPERS 1, KPERS 2 and KPERS 3 be determined based on the results of each annual actuarial valuation. Kansas law sets a limitation on annual increases in the employer contribution rates. The actuarially determined employer contribution rate (not including the 1% contribution rate for the Death and Disability Program) and the statutory contribution rate was 8.39% for the fiscal year ended December 31, 2018. Contributions to the pension plan from the County were \$1,521,118 for the year ended December 31, 2018.

Net Pension Liability

At December 31, 2018, the County's proportionate share of the collective net pension liability reported by KPERS was \$12,341,300. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017, which was rolled forward to June 30, 2018. The County's proportion of the net pension liability was based on the ratio of the County's contributions to KPERS, relative to the total employer and non-employer contributions of the local subgroup within KPERS. Since the KMAAG regulatory basis of accounting does not recognize long-term debt, this liability is not reported in the financial statement.

The complete actuarial valuation report including all actuarial assumptions and methods, and the report on the allocation of the KPERS collective net pension liability to all participating employers are publicly available on the website at www.kpers.org or can be obtained as described above.

4. Other Post-Employment Benefits

As provided by K.S.A. 12-5040, Butler County allows retirees to participate in the group health insurance plan. While each retiree pays the full amount of the applicable premium, conceptually, the local government is subsidizing the retirees because each participant is charged a level of premium regardless of age. However, the cost of this subsidy has not been quantified in this financial statement. Under the Consolidated Omnibus Budget Reconciliation Act (COBRA), the government makes health care benefits available to eligible former employees and eligible dependents. Certain requirements are outlined by the federal government for this coverage. The premium is paid in full by the insured.

Death and Disability Other Post Employment Benefits. As provided by K.S.A. 74-4927, disabled members in the Kansas Public Employees Retirement System (KPERS) receive long-term disability benefits and life insurance benefits. The plan is administered through a trust held by KPERS that is funded to pay annual benefit payments. The employer contribution rate is set at 1% for the year ended December 31, 2018.

5. Self-Insurance Claims

The County established a limited risk management program for employees' health care insurance as of November 1, 2012. The program includes a stop-loss provision for claims over \$125,000 per individual and aggregate claims over \$3,866,580. The estimated liability for payment of incurred (both reported and unreported) but unpaid claims are recorded in the Self-Insurance Fund. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amounts of payouts, and other economic and social factors. Liabilities related to risks of loss are reported when it is probable that a loss has occurred and the amount of loss can be reasonably estimated. The County has \$432,000 recorded as accounts payable in the Self-Insurance Fund for incurred but unpaid health claims.

D. Interfund Transfers

A summary of interfund transfers is as follows:

From	То	Authority	Amount

			\$6,749,696

IV. OTHER INFORMATION

A. Litigation

The County is a defendant in various legal actions pending or in process for tax appeals, property damage, and miscellaneous claims. The ultimate liability that might result from the final resolution of the above matters is not presently determinable. Management and the County's counsel are of the opinion that the final outcome of the cases will not have an adverse material effect on the County's financial statements.

B. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County carries commercial coverage for buildings and personal property, general liability, automobile fleet, inland marine, public official and employee errors and omissions, workers' compensation, medical professional liability, boiler and machinery, and law enforcement liability. Claims have not exceeded coverage in any of the last three years, and coverage has not been reduced substantially from the prior year.
