Independent Auditor's Report

Board of Trustees
Comanche County Hospital
Coldwater, Kansas

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Comanche County Hospital (Hospital), a component unit of Comanche County, Kansas, as of and for the years ended December 31, 2023 and 2022, and the related notes to the financial statements, which comprise Comanche County Hospital's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Comanche County Hospital as of December 31, 2023 and 2022, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Comanche County Hospital, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Comanche County Hospital's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Comanche County Hospital's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Comanche County Hospital's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the pension and other postemployment benefits information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Note 1. Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations and Reporting Entity

Comanche County Hospital (Hospital) is a rural acute care hospital located in Coldwater, Kansas. The Hospital is a component unit of Comanche County (County) and the Board of County Commissioners appoints members to the Board of Trustees of the Hospital. The Hospital primarily earns revenues by providing inpatient, outpatient and emergency care services to patients in the Comanche County area.

Basis of Accounting and Presentation

The financial statements of the Hospital have been prepared on the accrual basis of accounting using the economic resources measurement focus. Revenues, expenses, gains, losses, assets, liabilities and deferred inflows and outflows of resources from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated or voluntary nonexchange transactions (principally federal and state grants and county appropriations) are recognized when all applicable eligibility requirements are met. Operating revenues and expenses include exchange transactions and program-specific, government-mandated or voluntary nonexchange transactions. Government-mandated or voluntary nonexchange transactions that are not program specific (such as county appropriations), property taxes, investment income and interest on capital assets-related debt are included in nonoperating revenues and expenses. The Hospital first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position are available.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

The Hospital considers all liquid investments with original maturities of three months or less to be cash equivalents.

Investments and Investment Income

Investments in nonnegotiable certificates of deposit are carried at amortized cost.

Investment income includes interest income earned on bank deposits and certificates of deposit.

Patient Accounts Receivable

The Hospital reports patient accounts receivable for services rendered at net realizable amounts from third-party payers, patients and others. The Hospital provides an allowance for uncollectible accounts based upon a review of outstanding receivables, historical collection information and existing economic conditions.

Supplies

Supply inventories are stated at the lower of cost or market. Costs are determined using the first-in, first-out (FIFO) method.

Capital Assets

Capital assets are recorded at cost at the date of acquisition, or acquisition value at the date of donation if acquired by gift. Depreciation is computed using the straight-line method over the estimated useful life of each asset. Assets under capital lease obligations are depreciated over the shorter of the lease term or their respective estimated useful lives. The following estimated useful lives are being used by the Hospital:

Land improvements	20 years
Buildings	10-40 years
Fixed equipment	5-20 years
Moveable equipment	3-30 years

Lease Assets

Lease assets are initially recorded at the initial measurement of the lease liability, plus lease payments made at or before the commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease, plus initial direct costs that are ancillary to place the asset into service. Lease assets are amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset.

Capital and Lease Asset Impairment

The Hospital evaluates capital and lease assets for impairment whenever events or circumstances indicate a significant, unexpected decline in the service utility of a capital or lease asset has occurred. If a capital or lease asset is tested for impairment and the magnitude of the decline in service utility is significant and unexpected, accumulated depreciation or amortization is increased by the amount of the impairment loss. No asset impairment was recognized during the years ended December 31, 2023 and 2022.

Deferred Outflows of Resources

The Hospital reports the consumption of net position that is applicable to a future reporting period as deferred outflows of resources in a separate section of its balance sheets.

Compensated Absences

Hospital policies permit most employees to accumulate vacation and sick leave benefits that may be realized as paid time off or, in limited circumstances, as a cash payment. Expense and the related liability are recognized as vacation benefits are earned whether the employee is expected to realize the benefit as time off or in cash. Expense and the related liability for sick leave benefits are recognized when earned to the extent the employee is expected to realize the benefit in cash determined using the termination payment method. Sick leave benefits expected to be realized as paid time off are recognized as expense when the time off occurs and no liability is accrued for such benefits employees have earned but not yet realized. Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at the balance sheet date plus an additional amount for compensation-related payments such as social security and Medicare taxes computed using rates in effect at that date.

Risk Management

The Hospital is exposed to various risks of loss from torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters; medical malpractice; and employee health, dental and accident benefits. Commercial insurance coverage is purchased for claims arising from such matters. Settled claims have not exceeded this commercial coverage in any of the three preceding years.

Cost-Sharing Defined Benefit Pension Plan

The Hospital participates in a cost-sharing multiple-employer defined benefit pension plan, the Kansas Public Employees Retirement Savings Plan (KPERS). For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of KPERS and additions to/deductions from KPERS' fiduciary net position have been determined on the same basis as they are reported by KPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Defined Benefit Other Postemployment Benefit Plan

The Hospital participates in a defined benefit other postemployment benefit (OPEB) plan, Long-Term Disability (LTD) Plan (the OPEB Plan). For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms.

Deferred Inflows of Resources

The Hospital reports an acquisition of net position that is applicable to a future reporting period as deferred inflows of resources in a separate section of its balance sheets.

Net Position

Net position of the Hospital is classified in two components on its balance sheets.

- Net investment in capital assets consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of borrowings used to finance the purchase or construction of those assets.
- Unrestricted net position is the remaining net position that does not meet the definition of net investment in capital assets or restricted net position.

Net Patient Service Revenue

The Hospital has agreements with third-party payers that provide for payments to the Hospital at amounts different from its established rates. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers and others for services rendered and includes estimated retroactive revenue adjustments and a provision for uncollectible accounts. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such estimated amounts are revised in future periods as adjustments become known.

Charity Care

The Hospital provides care without charge or at amounts less than its established rates to patients meeting certain criteria under its charity care policy. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, these amounts are not reported as net patient service revenue.

Noncapital Appropriations – Comanche County

The Hospital received approximately 6% of its financial support from noncapital appropriations from Comanche County property tax levy in 2023 and 2022.

Property taxes are assessed on a calendar basis and are received beginning January 1 of each year. Revenue from noncapital appropriations – Comanche County is recognized in full in the year in which use is first permitted.

Provider Relief Funds (CARES Act)

On March 27, 2020, the *CARES Act* was signed into law as part of the government's response to the spread of the SARS-CoV-2 virus and the incidence of COVID-19. The *CARES Act* contained provisions for certain healthcare providers to receive Provider Relief Funds (PRF) from the U.S. Department of Health and Human Services (HHS). The distributions from the Provider Relief Funds are not subject to repayment, provided the Hospital is able to attest to and comply with the terms and conditions of the funding, including demonstrating that the distributions received have been used for qualifying expenses or lost revenue attributable to COVID-19, as defined by HHS. The Hospital is accounting for such payments as voluntary nonexchange transactions. Payments are recognized as revenue once the applicable terms and conditions required to retain the funds have been met and are classified as nonoperating revenue in the accompanying statements of revenues, expenses and changes in net position.

Income Taxes

As an essential government function of the County, the Hospital is generally exempt from federal and state income taxes under Section 115 of the Internal Revenue Code and a similar provision of state law.

Note 2. Deposits

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The Hospital's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State law requires collateralization of all deposits with federal depository insurance; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities or the state of Kansas, bonds of any city, county, school district or special road district of the state of Kansas; bonds of any state; or a surety bond having an aggregate value at least equal to the amount of the deposits.

At December 31, 2023 and 2022, respectively, $38,861 and $123,308 of the Hospital's bank balances of $538,861 and $623,308 were exposed to custodial credit risk as follows:

	2023	2022
Uninsured and collateral held by pledging financial institution	$ 38,861	$ 123,308

Summary of Carrying Values

The carrying values of deposits shown above are included in the balance sheets as follows:

	2023	2022
Carrying value		
Deposits	$ 508,091	$ 481,867
Included in the following balance sheet captions		
Cash	$ 108,091	$ 179,587
Short-term investments	400,000	302,280
	$ 508,091	$ 481,867

Note 3. Patient Accounts Receivable

The Hospital grants credit without collateral to its patients, many of whom are area residents and are insured under third-party payer agreements. Patient accounts receivable at December 31 consisted of:

	2023	2021
Medicare	$ 411,166	$ 679,120
Medicaid	8,013	288
Blue Cross	67,324	115,717
Other third-party payers	71,426	144,085
Patients	349,619	252,395
	907,548	1,191,605
Less allowance for uncollectible accounts	221,320	215,796
	$ 686,228	$ 975,809

Note 4. Capital and Lease Assets

Capital assets activity for the years ended December 31 was:

	2023

	5,600,557	438,064	(178,558)	-	5,860,063
Capital Assets, Net	$ 2,039,893	$ (142,728)	$ (9,168)	$ -	$ 1,887,997

Lease asset activity for the year ended December 31, 2023 was:

	2023			
	Beginning Balance	Additions	Disposals	Ending Balance
Major moveable equipment	$ -	$ 145,473	$ -	$ 145,473
	-	145,473	-	145,473
Less accumulated amortization				
Major moveable equipment	-	14,547	-	14,547
	-	14,547	-	14,547
Lease Assets, Net	$ -	$ 130,926	$ -	$ 130,926

Note 5. Professional Liability Coverage and Claims

The Hospital purchases professional liability insurance under a claims-made policy on a fixed premium basis. Accounting principles generally accepted in the United States of America require a health care provider to accrue the expense of its share of professional liability claim costs, if any, for any reported and unreported incidents of potential improper professional service occurring during the year by estimating the probable ultimate costs of the incidents. Based upon the Hospital's claims experience, no such accrual has been made. It is reasonably possible that this estimate could change materially in the near term.

Note 6. Long-term Obligations

The following is a summary of long-term obligation transactions for the Hospital for the years ended December 31:

	2023				
	Beginning Balance	Additions	Deductions	Ending Balance	Current Portion
Long-term debt					
Financed purchase obligations	$ 41,375	$ -	$ (41,375)	$ -	$ -
Other long-term obligations					
Lease liabilities	-	145,473	(13,434)	132,039	27,580
	$ 41,375	$ 145,473	$ (54,809)	$ 132,039	$ 27,580

	2022				
	Beginning Balance	Additions	Deductions	Ending Balance	Current Portion
Long-term debt					
Financed purchase obligations	$ 143,725	$ -	$ (102,350)	$ 41,375	$ 41,375

Financed Purchase Obligations

Financed purchase obligations were in the form of notes payable to vendors at various interest rates. The notes were secured by the related capital assets as collateral.

Lease Liabilities

The Hospital leases equipment, the terms of which expires in 2028. Variable payments based upon the use of the underlying asset are not included in the lease liability because they are not fixed in substance.

The following is a schedule by year of payments under the leases as of December 31, 2023:

Year Ending December 31,	Total to be Paid	Principal	Interest
2024	$ 31,665	$ 27,580	$ 4,085
2025	31,665	28,558	3,107
2026	31,665	29,570	2,095
2027	31,665	30,618	1,047
2028	15,830	15,713	117
	$ 142,490	$ 132,039	$ 10,451

Note 7. Net Patient Service Revenue

The Hospital has agreements with third-party payers that provide for payments to the Hospital at amounts different from its established rates. These payment arrangements include:

Medicare. The Hospital is licensed as a CAH, and is paid for inpatient acute care, skilled swing-bed and outpatient services rendered to Medicare program beneficiaries at one hundred one percent (101%) of actual cost subject to certain limitations. The Hospital is reimbursed for certain services at tentative rates with final settlement determined after submission of an annual cost report by the Hospital and audit thereof by the Medicare administrative contractor.

Medicaid. Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed on a prospective payment methodology, which includes a hospital specific add-on percentage based on prior filed cost reports. The add-on percentage may be rebased at some time in the future.

Approximately 79% and 76% of net patient service revenue is from participation in the Medicare and state-sponsored Medicaid programs for the years ended December 31, 2023 and 2022, respectively. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates will change materially in the near term.

The Hospital has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Hospital under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

Note 8. Charity Care

The costs of charity care provided under the Hospital's charity care policy were approximately $10,000 and $21,000 for 2023 and 2022, respectively. The cost of charity care is estimated by applying the ratio of cost to gross charges to the gross uncompensated charges.

Note 9. Pension Plans

Plan Description

The Hospital contributes to the Kansas Public Employees Retirement System (KPERS) plan, a cost-sharing multiple-employer defined benefit pension plan covering substantially all employees. The KPERS is an umbrella organization administering the following three statewide retirement systems under one plan as provided by K.S.A. 74, Article 49: *Kansas Public Employees Retirement System, Kansas Police and Fire Retirement System and Kansas Retirement System for Judges*.

The KPERS plan is a cost-sharing multiple-employer, defined benefit pension plan. KPERS is intended to be a qualified retirement plan under Section 401(a) of the Code. Information relating to KPERS, including stand-alone financial statements, is available by writing to KPERS, 611 South Kansas Avenue, Suite 100, Topeka, Kansas 66603-3869 or accessing the internet at www.KPERS.org.

KPERS makes separate calculations for pension-related amounts for the following four groups participating in the plan:

- State/School
- Local
- Police and Firemen
- Judges

The Hospital's employees participate in the Local group.

Benefits Provided

Retirement benefits for employees are calculated based on the credited service, final average salary and a statutory multiplier. KPERS has two levels of benefits depending on retirement age and years of credited service. Tier 1 benefits are for members who are age 65 or age 62 with ten years of credited service or of any age when combined age and years of credited service equal 85 "points." Tier 2 benefits are for members who are age 65 with five years of credited service or age 60 with 30 years of credited service. Tier 1 members receive a participating service credit of 1.75% of the final average salary for years of service prior to January 1, 2014. Participating service credit is 1.85% of final average salary for years of service after December 31, 2013. Tier 2 members retiring on or after January 1, 2012, participating service credit is 1.85% for all years of service.

Early retirement is permitted at the age of 55 and ten years of credited service. Benefits are reduced by 0.2% per month for each month between the ages of 60-62, plus 0.6% for each month between the ages of 55 and 60 for Tier 1 members. For Tier 2 members, benefits are reduced actuarially for each early commencement. The reduction factor is 35% at the age of 60 and 57.5% at age 55. If the member has 30 years of credited service, the early retirement reduction is less (50% of regular reduction). The plan also provides disability and death benefits to plan members and their beneficiaries.

The terms of the plan provide for annual 2% cost-of-living adjustment for Tier 2 members who retired prior to July 1, 2012, beginning the later of age of 65 or the second July 1 after retirement date. Other participants do not receive a cost-of-living adjustment.

Contributions

The law governing KPERS requires an actuary to make an annual valuation of the liabilities and reserves and a determination of the contributions required to discharge the KPERS liabilities. The actuary then recommends to the KPERS Board of Trustees the statewide employer-contribution rates required to maintain the three systems on the actuarial reserve basis. Prior to January 1, 2014, Tier 1 participants were required to contribute 4% of their annual pay. Effective January 1, 2014, the rate was raised to 5% with an increase in the benefit multiplier to 1.85% beginning January 1, 2014, for future years of service only. Effective January 1, 2015, the contribution rate was raised to 6%. Tier 2 participants are required to contribute 6% of compensation. The Hospital's contractually required contribution rate for the years ended December 31, 2023 and 2022, was 8.43% and 8.89% of annual payroll, respectively. The employer contribution is actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

The Hospital's contributions to KPERS for pensions for the years ended December 31, 2023 and 2022, were $245,075 and $255,260, respectively.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2023 and 2022, the Hospital reported a liability of $2,846,018 and $2,758,352, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023 and 2022, respectively, and the total pension liability used to calculate the net pension liability was determined by actuarial valuations as of December 31, 2022 and 2021, respectively, rolled forward to June 30, 2023 and 2022, respectively. The Hospital's proportion of the net pension liability was based on the ratio of the Hospital's actual contributions to total employer and nonemployer actual contributions of the group for the respective measurement periods. At June 30, 2023, the Hospital's proportion was 0.135660%, which was a decrease of 0.003087% from its proportion measured as of June 30, 2022, of 0.138747%. At June 30, 2021, the Hospital proportion was 0.155476%.

For the years ended December 31, 2023 and 2022, the Hospital recognized pension expense of $469,503 and $373,979, respectively. At December 31, 2023 and 2022, the Hospital reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2023	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 236,586	$ 401
Net difference between projected and actual earnings on pension plan investments	166,223	-
Changes of assumptions	301,638	-
Changes in proportion	129,298	173,856
Hospital's contributions subsequent to the measurement date	121,982	-
Total	$ 955,727	$ 174,257

	2022	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 104,332	$ 4,944
Net difference between projected and actual earnings on pension plan investments	233,494	-
Changes of assumptions	440,907	-
Changes in proportion	194,578	182,440
Hospital's contributions subsequent to the measurement date	132,653	-
Total	$ 1,105,964	$ 187,384

At December 31, 2023, the Hospital reported $121,982 as deferred outflows of resources related to pension contributions made subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the year ending December 31, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources at December 31, 2023, related to pensions that will be recognized in pension expense as follows:

2024	$ 242,521
2025	142,461
2026	240,798
2027	32,741
2028	967
	$ 659,488

Actuarial Assumptions

The total pension liability in the December 31, 2022 and 2021, actuarial valuations were determined using the following actuarial assumptions, applied to all periods included in the measurement:

	2023	2022
Inflation	2.75%	2.75%
Salary increases, including inflation	3.5% to 12%	3.5% to 12%
Investment rate of return, net of pension plan investment expense, including inflation	7.00%	7.00%

Mortality rates were based on the RP-2014 Healthy Annuitant Table for males or females, as appropriate with adjustments for mortality improvements based on Scale MP-16 for the December 31, 2022 and 2021, actuarial valuations.

The actuarial assumptions used in the December 31, 2022 and 2021, valuations were based on the results of an actuarial experience study for the three-year period ended December 31, 2018, respectively.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following tables:

	2023		2022	
Asset Class	Target Allocation	Long-term Expected Real Rate of Return	Target Allocation	Long-term Expected Real Rate of Return
U.S. equities	23.5%	5.20%	23.5%	5.20%
Non-U.S. equities	23.5%	6.40%	23.5%	6.40%
Private equity	8.0%	9.50%	8.0%	9.50%
Private real estate	11.0%	4.45%	11.0%	4.45%
Yield driven	8.0%	4.70%	8.0%	4.70%
Real return	11.0%	3.25%	11.0%	3.25%
Fixed income	11.0%	1.55%	11.0%	1.55%
Short-term investments	4.0%	0.25%	4.0%	0.25%
	100.0%		100.0%	

Discount Rate

The discount rate used to measure the total pension liability was 7.00% for the years ended June 30, 2023 and 2022, respectively. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the contractually required rate. Participating employer contributions do not necessarily contribute the full actuarial determined rate. Based on legislation passed in 1993, the employer contribution rates certified by KPERS' Board of Trustees for these groups may not increase by more than the statutory cap. The expected KPERS employer statutory contribution was modeled for future years, assuming all actuarial assumptions are met in future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Hospital's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The Hospital's proportionate share of the net pension liability has been calculated using a discount rate of 7.00%. The following presents the Hospital's proportionate share of the net pension liability calculated using a discount rate 1% higher and 1% lower than the current rate as of December 31, 2022:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Hospital's proportionate share of the net pension liability	$ 4,080,886	$ 2,846,018	$ 1,817,244

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued KPERS' financial report.

Deferred Compensation Plan

The Hospital provides an additional deferred compensation plan (457 plan). The purpose of the plan is to benefit those employees who choose to participate by permitting them to defer a portion of future compensation in order to provide payments at retirement. The Hospital provides the 457 plan to substantially all employees of the Hospital. The employees may contribute up to 100% of their salary to the 457 plan. The employees' salary deferral is limited by the Internal Revenue Service (IRS) annually. Employees are 100% vested in the contributions they choose to defer. If an employee is 50 years old or older and has met the annual IRS deferral limit, the employee may contribute a catch-up deferral that is also limited by the IRS annually. Contributions from employees to the 457 plan were $6,500 and $8,450 for the years ended December 31, 2023 and 2022, respectively. The Hospital does not contribute to the 457 plan.

Note 10. Other Postemployment Benefit Plan

Plan Description

The Hospital contributes to the KPERS Long-Term Disability plan (the OPEB Plan), a single-employer defined benefit other postemployment benefit (OPEB) plan covering substantially all employees. The OPEB Plan is administered by a board of trustees appointed by KPERS. The OPEB Plan's assets are not accumulated in a qualified trust because contributions from the employer to the OPEB plan and earnings on those contributions are not irrevocable. Benefit provisions are contained in the plan document and were established and can be amended by action of the KPERS's governing body. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided

The OPEB Plan provides LTD and life insurance benefits to eligible disabled members. Benefits provided are self-funded, and the full cost of the benefits is covered by the OPEB Plan. The monthly benefit is 60% of the member's monthly rate of compensation, with a minimum of $100 and a maximum of $5,000. The monthly benefit is subject to reduction by deductible sources of income, which include Social Security primary disability or retirement benefits, worker's compensation benefits, other disability benefits from any other source by reason of employment, and earnings from any form of employment. If the disability begins before age 60, benefits are payable while disability continues until the member's 65th birthday or retirement date, whichever first occurs. If the disability occurs at or after age 60, benefits are payable while disability continues, for a period of five years or until the date of the member's retirement, whichever first occurs. Upon the death of a member who is receiving monthly disability benefits, the plan will pay a lump sum benefit to eligible beneficiaries. The benefit amount will be 150% of the greater of (a) the member's annual rate of compensation at the time of disability, or (b) the member's previous 12 months of compensation at the time of the last date on payroll. If the member had been disabled for five or more years, the annual compensation or salary rate at the time of death will be indexed before the life insurance benefit is computed. The indexing is based on the consumer price index, less one percentage point. If a member is diagnosed as terminally ill with a life expectancy of 12 months or less, he or she may be eligible to receive up to 100% of the death benefit rather than having the benefit paid to the beneficiary.

The employees covered by the benefit terms at June 30 (the measurement date), are:

	2023	2022
Active employees	43	45
Disabled employees	-	-
	43	45

Total OPEB Liability

The Hospital's total OPEB liability of $23,517 and $23,669 was measured as of June 30, 2023 and 2022, for the years ended December 31, 2023 and 2022, respectively, and was determined by actuarial valuations as of December 31, 2022 and 2021, respectively, and rolled forward to June 30, 2023 and 2022, respectively.

The total OPEB liability in the December 31, 2022 and 2021, actuarial valuations was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	2023	2022
Inflation	2.75%	2.75%
Discount rate	3.65%	3.54%
Salary increases, including inflation	3.50% to 10%	3.50% to 10%

The discount rate was based on the Bond Buyer General Obligation 20-Year Municipal Bond Index. The discount rate changed from 2.16% in 2021 to 3.54% in 2022 to 3.65% in 2023.

Mortality rates were based on the RP-2014 Mortality Tables, with age setbacks and age set forwards as well as other adjustments based on different membership groups, as appropriate with adjustments for mortality improvements based on MP-2021 Mortality Tables for the December 31, 2022 and 2021, actuarial valuations.

The actuarial assumptions used in the December 31, 2022 and 2021, valuations were based on the results of an actuarial experience study for the period January 1, 2016 – December 31, 2018, respectively.

Changes in the Total OPEB Liability

Changes in the total OPEB liability are:

	2023	2022
Balance, beginning of year	$ 23,669	$ 31,560
Changes for the year:		
Service cost	8,428	12,272
Interest	1,136	947
Differences between expected and actual experience	(9,560)	(12,336)
Changes of assumptions	(102)	(8,774)
Net changes	(98)	(7,891)
Balance, end of year	$ 23,571	$ 23,669

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The total OPEB liability of the Hospital, at December 31, 2023, has been calculated using a discount rate of 3.65%. The following presents the total OPEB liability using a discount rate 1% higher and 1% lower than the current discount rate.

	1% Decrease (2.65%)	Current Discount Rate (3.65%)	1% Increase (4.65%)
Hospital's total OPEB liability	$ 24,422	$ 23,571	$ 22,591

The total OPEB liability of the Hospital is not impacted by health care cost trend rates given the nature of the benefits provided by the OPEB plan, as such no sensitivity tables were prepared for the health care trend rates.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the years ended December 31, 2023 and 2022, the Hospital recognized OPEB expense (credit) of ($1,983) and $2,624, respectively. At December 31, 2023 and 2022, the Hospital reported deferred outflows or resources and deferred inflows of resources related to OPEB from the following sources:

	2023	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 34,493	$ (115,751)
Changes of assumptions	2,954	(9,507)
Total	$ 37,447	$ (125,258)

	2022	
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 42,442	$ (124,606)
Changes of assumptions	3,546	(11,078)
Total	$ 45,988	$ (135,684)

Amounts reported as deferred outflows of resources and deferred inflows of resources at December 31, 2023, related to OPEB will be recognized in OPEB expense as follows:

2024	$ (11,547)
2025	(11,547)
2026	(11,377)
2027	(11,866)
2028	(15,201)
Thereafter	(26,273)
	$ (87,811)

Note 11. Management Agreement

The Board of Trustees has entered into a management agreement with Great Plains Health Alliance, Inc. The agreement can be cancelled with 60 days' notice. Fees incurred under this agreement were $102,090 and $98,163 in 2023 and 2022, respectively. There are $8,995 and $0 included in accounts payable related to these services at December 31, 2023 and 2022, respectively.

Note 12. COVID-19 & CARES Act Funding

Provider Relief Fund

During the years ended December 31, 2023 and 2022, the Hospital received no distributions from the *CARES Act* Provider Relief Fund. These distributions from the Provider Relief Fund are not subject to repayment, provided the Hospital is able to attest to and comply with the terms and conditions of the funding, including demonstrating that the distributions received have been used for qualifying expenses or lost revenue attributable to COVID-19, as defined by HHS.

The Hospital accounts for such payments as voluntary nonexchange transactions. Payments are recognized as revenue once the applicable terms and conditions to retain the funds have been met. Based on an analysis of the compliance and reporting requirements of the Provider Relief Fund and the effect of the pandemic on the Hospital's operating revenues and expenses through December 31, 2023 and 2022, the Hospital recognized $0 and $148,717, related to the Provider Relief Fund, and these payments are recorded as Provider Relief Funds (*CARES Act*), classified as nonoperating revenues in the accompanying statements of revenues, expenses and changes in net position (deficit).

The Hospital will continue to monitor compliance with the terms and conditions of the Provider Relief Fund and the effect of the pandemic on the Hospital's revenues and expenses. The terms and conditions governing the Provider Relief Fund are complex and subject to interpretation and change. If the Hospital is unable to attest to or comply with current or future terms and conditions, its ability to retain some or all of the distributions received may be affected. Additionally, the amounts recorded in the financial statements compared to the Hospital's Provider Relief Fund reporting could differ. Provider Relief Fund payments are subject to government oversight, including potential audits.

Other COVID-19 Funding

During the year ended December 31, 2023 and 2022, the Coronavirus Small Rural Hospital Improvement Program (SHIP) provided support to small rural and Critical Access Hospitals (CAHs) which were seeing increased demands for clinical services and equipment, as well as experiencing short-term financial and workforce challenges related to responding to meeting the needs of patients with COVID-19 seeking care at their facilities. These funds were administered through the Small Rural Hospital Improvement Program to provide emergency funding support to CAHs and non-CAH rural hospitals with less than 50 beds. This approach provided funding directly to the states to target those rural hospitals and the communities they serve who are facing the greatest strain from this crisis. The Hospital received $152,927 and $104,440 during 2023 and 2022, respectively, related to this SHIP grant. The $152,927 received during 2023 was recorded as a receivable at December 31, 2022. The Hospital recognized $0 and $237,276 for the years ended December 31, 2022 and 2022, respectively, related to this SHIP grant. The recognition is recorded as a component of noncapital grants and gifts in the accompanying statements of revenues, expenses and changes in net position.
