- 4) For the last bank statement of the year, compare the name of the depository institution to an entry in the official minutes that designate the institution as the municipality's official depository.

No exceptions were found as a result of applying this procedure.

- 5) For a minimum of two months (to be selected by the certified public accountant) trace any interest income from the bank statement to the municipality's cash receipt records.

No exceptions were found as a result of applying this procedure.

- 6) For a minimum of two separate months (to be selected by the certified public accountant), trace non-mail cash receipts from the receipt book to the bookkeeping records to determine if the receipts were properly recorded. Also, for the same two months, trace bookkeeping entries for cash receipts to the bank statement to determine if receipts are deposited intact and on a timely basis.

No exceptions were found as a result of applying this procedure.

- 7) For approximately ten percent of the non-payroll cash disbursements (to be selected by the certified public accountant), trace disbursements from the bookkeeping records to the related invoice, bank statement, and canceled check.

No exceptions were found as a result of applying this procedure except for the following:

- 9) Examine evidence of encumbrances and accounts payable, and determine if they have been properly stated in the financial statement as of the end of the year. Evidence of encumbrances would include unpaid purchasing orders and contracts. Evidence of accounts payable would include unpaid invoices and receiving reports.

No exceptions were found as a result of applying this procedure.

- 10) Review the credit card policy and internal controls of the municipality. For a minimum of two months (to be selected by the certified public accountant) review the municipality's credit card transactions to determine if approvals, expenditure procedures, and proper classification of expenditures were followed. In the agreed upon procedures report, describe the credit card procedures, if the credit card procedures and internal controls are being followed, and if the municipality's credit cards are only in the name of the municipality.

Credit Card Policy: Full-time employees are issued a credit card in the name of the City of Macksville. Purchases up to \$500.00 can be charged without prior approval by the Mayor and/or Council. All purchases must be supported by a receipt and/or other supporting documentation and given to the Clerk which is reconciled to the monthly credit card statement. Employee notes on the receipt and/or other supporting documentation, or communicates to the Clerk, what the purchase is for so it can be recorded to the proper fund and account. After all charges have been accounted for the Clerk prepares a check, made payable to the credit card company, which is reviewed and approved by the Council at their monthly meeting prior to being sent by mail unless payment needs to be remitted earlier to avoid late fees.

No exceptions were found as a result of applying this procedure except for the following:

Receipt or supporting documentation was not attached to substantiate a charge made on credit card ending #5550 in the amount of \$5.26.

Credit card procedures and internal controls were being followed on other charges reviewed and credit cards are in the name of the municipality.

- 11) Review payroll for a minimum of one month (to be selected by the certified public accountant) to determine that proper deductions and employer contributions are being remitted.

For variances larger than 25% examine the variance, then document and report on the reason.

Variances larger than 25% were examined and the reasons appear reasonable.

- 14) For a minimum of two months (to be selected by the certified public accountant), review the municipality's month-end Statement of Cash Receipts and Cash Disbursements to determine that the ending unencumbered cash balance is greater than or equal to zero.

No exceptions were found as a result of applying this procedure.
