INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members of the City Council City of Fairway, Kansas

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Fairway, Kansas (the City), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Fairway, Kansas, as of December 31, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud
 or error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of
 time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules as listed in the table of contents are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Fairway's (the City) financial statements provides a narrative overview and analysis of the City's financial activities for the fiscal year ended December 31, 2021. This discussion follows guidelines prescribed by the Governmental Accounting Standards Board (GASB) Statement 34, which enhances comparability between governments. The information presented here should be read in conjunction with the accompanying basic financial statements and the notes to those basic financial statements.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$11,711,047 (net position).
- The City's total net position increased during this fiscal year by \$1,593,756, and the City's unrestricted portion increased by \$589,471.
- At the close of 2021, the City's governmental funds reported combined ending fund balances of \$3,896,676, an increase of \$717,937 over the prior year. This increase is at least partially due to an increase in sales tax revenues.
- At the close of 2021, the available fund balance for the General Fund was \$987,621, an increase
 of \$75,628 over the prior year. This is primarily a result of increased revenues, particularly sales
 tax and Park & Recreation revenues.

OVERVIEW OF THE FINANCIAL STATEMENTS

Management's Discussion and Analysis is intended to serve as an introduction to the City's basic financial statements, which include three components: 1) Government-wide financial statements, 2) Fund financial statements and 3) Notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. These statements use the accrual basis of accounting, which means that the current year's revenues and expenses are recorded as they are earned or incurred, regardless of when cash is received or paid.

The Statement of Net Position presents information on all of the City's assets, liabilities and deferred inflows/outflows of resources, with the difference between the two reported as net position. These statements include infrastructure assets as well as all known liabilities, including long-term debt. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. The Statement of Activities provides information detailing how the City's net position changed during 2021.

Fund Financial Statements

A fund is a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The City uses fund accounting to demonstrate compliance with legal requirements, such as state statutes or bond covenants. There are three types of funds: governmental, proprietary, and fiduciary. All of the City's funds are classified as governmental funds. Fund accounting focuses on 1) cash flow and how financial assets can readily be converted to available resources, and 2) the balances left at the end of the fiscal year for future spending. The focus is on the budgetary, short-term financial picture of the reported operations rather than on the longer-term economic picture of the City as a whole.

Governmental funds are reported using the *modified accrual* basis of accounting, which measures cash and other financial assets that can readily be converted to cash. Under this basis of accounting, revenues are recognized when they become measurable and available, and expenditures are generally recognized when the related fund liability is incurred. Such information may be useful in determining what financial resources are available in the near future to finance the City's programs.

Therefore, both the government-wide and fund financial statements present different useful aspects of the City's financial picture. They are designed to be compared and interpreted together. The reconciliations at the end of the fund financial statements detail the relationship and differences between the two types of financial statements.

Notes to the Basic Financial Statements

The notes to the basic financial statements are an integral part of the basic financial statements. They provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required and Other Supplementary Information

Required budgetary data related to the General Fund, pension and postemployment related schedules, combining statements for non-major governmental funds and fund budgetary schedules are presented immediately following the notes to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

	Governmenta	l Activities
	2021	2020
Current and other assets	\$ 6,744,198	\$ 5,663,027
Capital assets	17,989,480	17,987,870
Total assets	24,733,678	23,641,897
Deferred outflows of resources	629,482	746,682
Long-term liabilities	10,113,087	11,443,407
Other liabilities	673,187	372,185
Total liabilities	10,786,274	11,815,592
Total deferred inflows of resources	2,865,839	2,455,696
Net position:		
Net investment in capital assets	9,932,384	9,115,359
Restricted	738,698	551,438
Unrestricted	1,039,965	450,494
Total net position	\$ 11,711,047	\$ 10,117,291

Analysis of Net Position

As previously mentioned, net position may serve as a useful indicator of a government's financial position. The City's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$11,711,047 at the close of 2021.

The largest portion of the City's net position reflects its investment of \$9,932,384 in capital assets (e.g. land, buildings, equipment and infrastructure) less any related outstanding debt used to acquire those assets. These assets are used on an ongoing basis to provide services to citizens and are thus not available for future spending. The City's investment in its capital assets is reported net of related debt; however, the resources needed to repay this debt must come from other sources. The capital assets themselves cannot be liquidated to satisfy these liabilities.

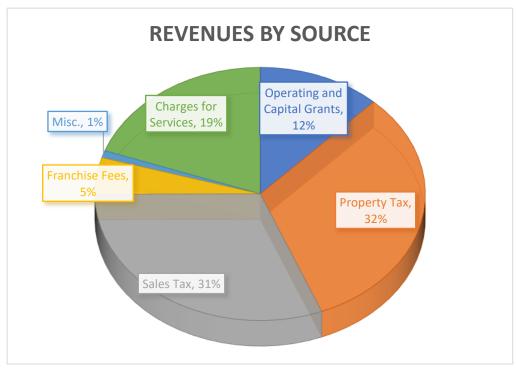

An additional \$738,698 of the City's net position represents resources that are subject to external restrictions on how they may be used. Restricted net position includes amounts from the Debt Service Fund and other special revenue funds.

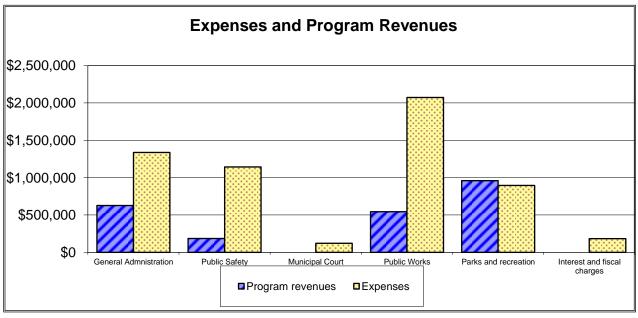

Analysis of Changes in Net Position

Condensed Statement of Changes in Net Position								
Governmental								
	Activ	ities						
	2021	2020						
Revenues:								
Program revenues:								
Charges for services	\$ 1,429,089	\$ 962,854						
Operating grants and contributions	242,240	237,256						
Capital grants and contributions	642,609	543,000						
General revenues:								
Property taxes	2,342,953	2,222,113						
Sales taxes	2,278,810	1,945,491						
Franchise taxes	343,013	344,833						
Intergovernmental not restricted	1,237	6,125						
Unrestricted investment earnings	4,602	5,818						
Miscellaneous	62,343	27,951						
Total revenues	7,346,896	6,295,441						
Expenses:								
General administration	1,337,897	1,383,112						
Public safety	1,143,838	1,214,731						
Municipal court	120,089	118,193						
Public works	2,073,376	1,631,546						
Parks and recreation	895,672	534,301						
Interest & fiscal charges	182,268	198,035						
Total expenses	5,753,140	5,079,918						
Change in net position	1,593,756	1,215,523						
Net position – beginning of year	10,117,291	8,901,768						
Net position - end of year	\$11,711,047	\$10,117,291						

The City's net position increased during the fiscal year by a total of \$1,593,756, including these changes:

- The increase in revenues include the additional charges for services resulting from the reopening of the City's pool in 2021 after having been closed in 2020 due to the pandemic, and increased sales taxes from improved economic activity during the year.
- The increase in expenses consist of additional public works outlays for street maintenance and stormwater projects, including those that were delayed in 2020 due to the pandemic, and for parks and recreation, its increase reflects the effect of operating the pool and providing recreation activities in 2021 that were cancelled in 2020 due to the pandemic.

The charts illustrate Fairway's governmental expenses and program revenues by function, and revenues by source. Public works represents the largest portion of 2021 expenses as the depreciation on infrastructure capital assets is allocated to this function. This is followed by general administration and public safety. Other revenues and expense functions fall within anticipated ranges.

For governmental activities, overall property taxes are the largest source of revenue (32%) followed closely by sales tax (31%).

ANALYSIS OF THE FUND FINANCIAL STATEMENTS

The City uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. Types of governmental funds reported by the City include the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Projects Funds.

At the close of 2021, the City's governmental funds reported combined ending fund balances of \$3,896,676, an increase of \$717,937 over the prior year. This increase was lower than the 2020 increase of \$855,975 due to increased capital outlays in 2021 for projects delayed in 2020, and additional parks and recreation expenditures due to resuming normal levels of activity in 2021 after pandemic closures in 2020.

The General Fund is the primary operating fund for the City. At the close of 2021, the available fund balance for the General Fund was \$987,621.

The fund balance for the City's General Fund increased by \$75,628 during the fiscal year, primarily from increased sales tax revenue.

The Capital Projects Fund increased by \$341,267 as a result of a \$700,000 transfer from the General Fund. The Capital Projects Fund continues to receive revenue from the passage of the .5% sales tax in 2009. Per resolution passed by the City Council, ½ of the sales tax is deposited into this fund.

The Equipment Reserve Fund's fund balance increased as a result of receiving a transfer from the General Fund of \$160,000 to accumulate resources for future equipment purchases.

The Debt Service Fund had an increase of \$36,123 based on the budgeted use of fund balance, and increased revenues that were partially offset by higher debt service. This fund receives the other $\frac{1}{2}$ of the revenue from the passage of the .5% sales tax as mentioned above.

The Federal Grants Fund reported an increase in cash and investments and unearned revenue of \$240,759 due to the receipt of \$302,166 of ARPA grant funds that will be used in a future fiscal year.

Other governmental funds increased by \$154,919 primarily due to increased sales and fuel taxes.

The 2014 Sales Tax Fund receives revenues from the passage of a .5% sales tax in 2014 which are to be used to pay costs of the debt service on the new public works facility and for parks and recreation capital improvements and associated debt service.

GENERAL FUND BUDGETARY HIGHLIGHTS

Variances between the final budget and actual amounts are not expected to impact either liquidity or future services. The City budgets for reserves and contingency, but does not expect to expend more than a portion of the contingency. This creates a positive budget variance each year.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The City's net investment in capital assets was \$17,989,480 as of December 31, 2021. These capital assets include land, buildings, improvements, equipment, drainage improvements, streets and bridges. Major capital asset activity included approximately \$517,000 for land and improvements other than buildings additions related to the construction of a new park, and \$262,000 of purchases of public safety, public works and parks related equipment.

Capita (net of de

Additional information about the City's capital assets may be found in Note 2 to the basic financial statements.

Long-Term Debt

At December 31, 2021, the City had total long-term bonds backed by the full faith and credit of the City outstanding of \$7,605,000. In December 2012, to take advantage of low interest rates, the City issued \$2,670,000 in GO Refunding Bonds (Series 2012-A) to refinance a portion of the Series 2008-A and Series 2008-B GO Bonds. The refunding will save the City \$272,000 in interest costs. This savings was allocated to 2014-2018 bond payments. In 2017, the City issued \$2,320,000 in temporary notes to fund the acquisition and construction of a new City Hall. In 2019 these were converted to Series 2019-A GO Bonds.

In October 2016, to take advantage of low interest rates, the City issued \$3,760,000 (Series 2016-A) in GO Refunding Bonds to refinance a portion of the Series 2010-A GO Bonds. The refunding will save the City \$575,573 in future interest costs.

The City's total long-term bonds payable decreased by \$680,000 during the fiscal year, the amount of the scheduled payments on outstanding bond issues. Series 2012-A Bonds will be fully paid in 2022.

In January 2010, the City received notification that Standard & Poor's assigned an 'AA' rating to the City's series 2010-A GO Bonds. S&P affirmed this rating for the Series 2012-A GO Refunding Bonds. S&P assigned the City a 'AA+' rating to the series 2015-A GO Bonds and that rating was re-affirmed with the Series 2016-A GO Bond and again with the issuance of Series 2019-A GO Bonds.

Kansas statutes limit the amount of general obligation debt a governmental entity may acquire to 30% of their total assessed valuation. The current debt limitation for the City is \$36,323,558, leaving a debt margin of \$28,718,558. The City's general obligation debt is \$7,605,000 which equates to only 6.3% of the total assessed valuation.

Additional information on the City's long-term debt can be found in Note 4 of the basic financial statements.

Economic Factors and Next Year's Budgets and Rates

Residential assessed valuations have increased during 2021 and into 2022, providing a larger property tax base going forward. In addition, sales tax revenue continues to exceed budget assumptions, also adding to a solid total revenue base. Other sources of revenue such as building permits and pool related income are also expected to remain strong and exceed budget assumptions. A new commercial project that began in 2021 is anticipated to come on-line in 2023, providing even more property and sales tax revenue.

Expenditures are expected to be subject to rising inflation factors, especially where material and fuel costs are involved. The 2022 and 2023 Budgets, including Capital Improvement Projects, contemplate ongoing inflation issues, but will be monitored closely to prioritize expenditures.

The 2022 Budget calls for slight increases in revenues and expenditures, with a flat mill levy rate.

REQUESTS FOR INFORMATION

This financial report is designed to provide an overview of the City's finances for all interested parties. Questions concerning any of the information provided in the report or requests for additional information should be directed to the City Administrator of the City of Fairway, 5240 Belinder Road, Fairway, Kansas 66205.

City of Fairway, Kansas

Reconciliation of the Balance Sheet to the Statement of Net Position Governmental Funds December 31, 2021

Amounts reported for governmental activities in the Statement of Net Position are different because:

Ending fund balances - total governmental funds

Governmental funds report capital outlays as expenditures.

However, in the Statement of Net Position the cost of those assets is capitalized and shown at cost, net of accumulated depreciation. This is the amount of net capital assets reported in the Statement of Net Position.

17,989,480

Long-term liabilities are not due and payable in the current period and, accordingly, are not reported as liabilities within the fund financial statements. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. Discounts, premiums, and deferred amounts on refunding are reported in the governmental fund financial statements when the debt was issued, whereas these amounts are deferred and amortized over the life of the related debt in the government-wide financial statements. Balances as of December 31, 2021 for long-term liabilities and related items are:

Deferred amount on refunding	51,310
Accrued interest payable	(62,179)
Pension related deferred outflows of resources	507,339
Pension related deferred inflows of resources	(616,808)
Other postemployment related deferred outflows of resources	70,833
Other postemployment related deferred inflows of resources	(12,517)
Long-term liabilities	(10,113,087)

Total net position of governmental activities <u>\$ 11,711,047</u>

City of Fairway, Kansas

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the year ended December 31, 2021

Amounts reported for governmental activities in the Statement of Activities are different because:

different because:	
Net changes in fund balances - total governmental funds	\$ 717,937
Governmental funds report capital outlays as expenditures in the year acquired. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. These amounts are the effect of capital additions and depreciation in the current period: Capital additions Depreciation expense	932,287 (892,146)
The proceeds from the sale of capital assets are reported as revenues in the governmental funds. However, the cost and accumulated depreciation are removed from the capital asset accounts and offset against the proceeds in the Statement of Activities. This is the amount of the net book value of the assets disposed.	(29,531)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. These amounts are the effect of the differences in the treatment of long-term debt and related items:	
Principal payments Accrued interest expense Amortization of bond premiums Amortization of the deferred amount on refunding	796,716 5,971 30,084 (20,385)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds: Pension expense	53,866
Change in compensated absences Change in other postemployment benefits	 9,365 (10,408)
Total change in net position of governmental activities	\$ 1,593,756

Notes to the Basic Financial Statements

Note 1: Summary of Significant Accounting Policies

The City of Fairway, Kansas (the City), was incorporated in 1949 as a City of the second class. The City operates under a Mayor-Council form of government and provides the following services as authorized by its charter: public safety (police), street maintenance, solid waste removal, culture and recreation, public improvements, and general administrative services.

The accounting and reporting policies of the City of Fairway, Kansas conform to accounting principles generally accepted in the United States of America. The more significant accounting and reporting policies and practices employed by the City are as follows:

A. Reporting Entity

Generally accepted accounting principles require that the basic financial statements present the City (the primary government) and its component units. Component units are required to be included in the City's reporting entity based on the concept of financial accountability, including the significance of their operational or financial relationships with the City. Based on the evaluation criteria, there are no component units related to the City which should be included in the basic financial statements.

B. Basis of Presentation

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's major funds).

Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the City, the primary government, as a whole. Governmental activities are generally financed through taxes, intergovernmental revenues, and other non-exchange transactions.

The government-wide Statement of Activities presents a comparison between expenses and program revenues for each program of the governmental activities. Expenses are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program is self-financing or draws from the general revenues of the City.

The City's net position is reported in three parts—net investment in capital assets, which consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any borrowings that are attributable to the acquisition, construction or improvement of those assets; restricted, which consists of net position that is legally restricted by outside parties or by law through constitutional provisions or enabling legislation; and unrestricted. The City generally utilizes restricted resources first to finance qualifying activities.

The government-wide focus is more on the sustainability of the City as an entity and the change in the City's net position resulting from the current year's activities.

Fund Financial Statements

Fund financial statements report detailed information about the City. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

The major governmental funds of the City are described below:

<u>General Fund</u> - is the main operating fund of the City which accounts for all financial transactions not accounted for in other funds. The general operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are financed through revenues received by the General Fund.

<u>Capital Projects Fund</u> - is used to account for all resources derived from a dedicated sales tax, bond proceeds, grants, and transfers from the General Fund to finance major capital improvements in the City.

<u>Debt Service Fund</u> - is used to account for resources to be used for the payment of principal, interest and related costs of the general obligation bonds and certain other long-term obligations of the City.

<u>Equipment Reserve Fund</u> - is used to account for transfers from the General Fund to accumulate resources to finance the acquisition of equipment pursuant to K.S.A. 12-1,117.

<u>Federal Grants Fund</u> - is used to account for the receipt and expenditure of federal grant funds.

C. Measurement Focus and Basis of Accounting

Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, sales tax and donations. Revenues from grants or donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. This approach differs from the manner in which governmental fund financial statements are prepared. Therefore, the governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Governmental Fund Financial Statements

All governmental funds are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

Revenue Recognition

In applying the susceptible to accrual concept under the modified accrual basis, certain revenue sources are deemed both measurable and available (collectible within the current year or within two months of year-end and available to pay obligations of the current period). This includes sales taxes, franchise taxes, investment earnings and state-levied locally shared taxes (including motor fuel taxes). Reimbursements due for grant funded projects are accrued as revenue at the time the expenditures are made, or when received in advance, deferred until expenditures are made.

Property taxes, though measurable, are not available soon enough in the subsequent year to finance current period obligations. Therefore, property taxes receivable are recorded and deferred until they become available.

Other revenues, including licenses and permits, certain charges for services, and miscellaneous revenues, are recorded as revenue when received in cash because they are generally not measurable until actually received.

Expenditure Recognition

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on long-term debt which have not matured are recognized when due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Budgetary Basis Accounting and Information

Kansas statutes require that an annual operating budget be legally adopted for the General Fund, Special Revenue Funds (unless specially exempted by statute), and the Debt Service Fund. An annual operating budget is not required for the Federal Grants and Drug Tax special revenue funds under the statutory exemption. The statutes provide for the following sequence and timetable in the adoption of the legal annual operating budget:

- (1) Preparation of the budget for the succeeding calendar year on or before August 1st.
- (2) Publication in local newspaper of the proposed budget and notice of public hearing on the budget on or before August 5th.
- (3) Public hearing on or before August 15th, but at least ten days after publication of notice of hearing.
- (4) Adoption of the final budget on or before August 25th.

The statutes allow for the governing body to increase the originally adopted budget for previously unbudgeted increases in revenue other than ad valorem property taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after publication the hearing may be held, and the governing body may amend the budget at any time. There were no budget amendments in 2021.

The statutes establish the overall budget level of control at the fund level by prohibiting expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Management may not amend a fund's budgeted expenditures without Council approval. Spending in funds that are not subject to the legal annual operating budget requirement are controlled by federal regulations, other statutes, or by the use of internal spending limits established by the City.

All legal annual operating budgets are prepared using the modified accrual basis of accounting, modified further by the encumbrance method of accounting. Expenditures include disbursements, accounts payable, and encumbrances. Encumbrances are commitments by the City for future payments such as purchase orders or contracts.

Property Taxes Receivable

In accordance with governing state statutes, property taxes levied during the current year are revenue sources to be used to finance the budget of the ensuing year. Taxes are assessed on a calendar year basis and are levied and become a lien on the property on November 1 of each year. The County Treasurer is the tax collection agent for all taxing entities within the County. Property owners have the option of paying one-half or the full amount of the taxes levied on or before December 20 during the year levied with the balance to be paid on or before May 10 of the ensuing year. State statutes prohibit the County Treasurer from distributing taxes collected in the year levied prior to January 1 of the ensuing year. Consequently, the taxes levied during the current year are not recognized as revenue until the ensuing year. At December 31, such taxes are recorded as taxes receivable with a corresponding amount recorded as deferred inflows of resources on the balance sheets of the appropriate funds. It is not practical to apportion delinquent taxes held by the County Treasurer as of December 31, 2021. Estimated delinquencies are insignificant and have not been recorded.

Deposits and Investments

The disclosures that follow have been prepared in accordance with the provisions of GASB Statement No. 40, *Deposit and Investment Risk Disclosures*. This statement establishes disclosure requirements for investment and deposit risks related to credit risk, concentrations of credit risk, interest rate risk, and foreign currency risk.

The City pools temporarily idle cash from all funds for investment purposes. Each fund's portion of the pool is shown on the financial statements as deposits and investments. Deposits during the year included cash in interest bearing and demand bank accounts, and certificates of deposit. Interest is allocated to each fund based on the respective invested balance.

A summary of the carrying values of deposits, certificates of deposit and petty cash at December 31, 2021 is as follows:

Total deposits	\$ 3,506,933
Certificates of deposit	423,002
Petty cash	169
	\$ 3,930,104

Restricted deposits and investments consist of cash held for court bonds in the General Fund.

Investment Policies

State statutes limit the types of investments the City may utilize. Allowable investments generally include United States Treasury bills or notes with maturities not exceeding two years, repurchase agreements and the Kansas State Municipal Investment Pool. In addition, bond proceeds may be invested in United States government agency securities, money market mutual funds that invest in United States government or agency securities and certain Kansas municipal obligations.

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. For deposits, the City's policy follows state statutes which require pledged collateral with a fair value equal to 100% of the funds on deposit, less insured amounts, and that the collateral be held in safekeeping in the City's name at other than the depository financial institution.

At December 31, 2021, the City's deposits were covered by Federal depository insurance or were fully collateralized by securities held by the City's agent in the City's name.

Interest Rate Risk

As a means of managing its exposure to fair value losses arising from increasing interest rates, the City follows state statues which generally limit investment maturities to two years. To minimize the risk of loss, the City matches investments to anticipated cash flows and diversifies the investment types to the extent practicable.

Capital Assets

Capital assets, which include property, equipment, and infrastructure assets (i.e., roads, storm sewers, etc.), are reported in the applicable governmental activities column in the government-wide financial statements. In the governmental fund statements, capital assets are charged to expenditures as purchased. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at estimated fair value as of the date of the donation.

Capital assets are defined by the City as assets with an initial individual cost of \$5,000 or more and a useful life greater than one year. Additions or improvements and other capital outlays that significantly extend the useful life of an asset, or that significantly increase the capacity of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Assets, which have been acquired with funds received through grants, must be used in accordance with the terms of the grant.

Depreciation on exhaustible assets is recorded as an allocated expense in the Statement of Activities with accumulated depreciation reflected in the Statement of Net Position and is provided on the straight-line basis over the following estimated useful lives:

Buildings	20 years
Improvements other than buildings	7-30 years
Equipment	5-20 years
Infrastructure	10-50 years

Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for deferred outflows of resources. This financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports the deferred amount on refunding, pension and postemployment benefit related amounts in this category. A deferred amount on refunding results from the difference in the carrying value of refunded debt and its reacquisition price and is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the Statement of Net Position and balance sheets reports a separate section for deferred inflows of resources. This financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City reports unavailable revenue from property taxes that will be recognized as an inflow of resources in the period for which they were levied, and pension and other postemployment benefit related amounts in this category.

Compensated Absences

City employees earn vacation time in varying amounts based upon their length of service. The City's policies allow unused vacation leave and all unused compensatory time to be carried over into the next year. The unused vacation leave carryover is limited to the maximum number of hours earned in the calendar year. This carryforward is payable upon separation from service. The liability of \$222,619 for compensated absences at December 31, 2021 is reported in the government-wide financial statements, but not in the governmental fund financial statements as it is not estimated to be payable from expendable available resources.

In lieu of sick time, employees are allowed to receive salary continuation for up to 30 consecutive days per illness upon approval of their supervisor. If an employee is unable to perform their duties as a result of illness or disability, the City provides a short-term disability policy through a third-party to all full-time employees. The policy takes effect on the 31st calendar day following a salary continuation that has been paid for by the City and may last up to 22 weeks.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Kansas Public Employees' Retirement System (KPERS) and additions to and deductions from KPERS' fiduciary net position have been determined on the same basis as they are reported by KPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post Employment Benefit Plans (OPEB)

The City sponsors a single-employer, defined benefit healthcare plan and participates in the Kansas Public Employees Death and Disability Plan, a multiple-employer defined benefit plan. The total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense have been determined on the same basis as they are reported by the OPEB plans. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms.

Long-term Obligations

In the government-wide financial statements, long-term debt and obligations are reported in the Statement of Net Position as liabilities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Issuance costs are expensed when incurred. Bonds payable are reported net of the applicable bond premium or discount. Refunding costs are deferred and amortized on a straight-line basis over the life of the new debt, or the remaining life of the old debt, whichever is shorter.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balances

In the governmental fund financial statements, fund balances are reported in the following classifications, which are primarily based on the extent to which a government is bound to observe constraints imposed upon the use of the resources.

Nonspendable – Nonspendable consists of amounts that cannot be spent because they are not in spendable form or are legally or contractually required to be maintained intact.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or is imposed by law through constitutional provisions or enabling legislation.

Committed – This classification consists of amounts that can be used only for the specific purposes imposed by a formal action of the governing body and cannot be used for any other purpose unless removed or changed by taking the same type of action that previously committed those amounts.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts would represent intended uses established by the governing body or a City official delegated that authority, and includes the amount to be used to finance expenditures for the next year's budget.

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first to finance qualifying expenditures, when either restricted or unrestricted amounts are available. For unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts.

Minimum Unassigned Fund Balance – It is the policy of the City to maintain an unassigned fund balance in the General Fund equal to 20% of the current year budget to be used for unanticipated expenditures of an emergency or nonrecurring nature, and for cash flow needs. Amounts above the minimum may be used for transfers to the Capital Projects or Debt Service funds.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Note 2: Capital Assets

A summary of changes in capital assets for the year follows:

	Beginning Balances	Increases	D	ecreases	Ending Balances
Governmental activities:					
Capital assets not being depreciated:					
Land	\$ 3,499,614	\$ 141,714	\$	-	\$ 3,641,328
Construction in progress	 36,434	-		32,684	3,750
Total capital assets not being depreciated	3,536,048	141,714		32,684	3,645,078

Total capital assets being depreciated, net	 14,442,822	(68,889)		(29,531)	14,344,402
Governmental activities capital assets, net	\$ 17,978,870	\$ 72,825	\$	(62,215)	\$ 17,989,480

Depreciation expense was charged to the functions/programs of the City government as follows:

General administration	\$ 96,481
Public safety	90,668
Public works	544,303
Parks and recreation	160,694
Total depreciation expense	\$ 892,146

Note 3: Special Assessments

Special assessment taxes consist of charges to the City's residents for trash and recycling services and are due and payable with annual ad valorem property taxes.

Note 4: Long-term Liabilities

The following is a summary of changes in long-term liabilities for the year ended December 31, 2021:

	·	Balance January 1, 2021	ı	ncreases	I	Decreases	De	Balance ecember 31, 2021	 ounts Due Within One Year
General obligation bonds	\$	8,285,000	\$	-	\$	680,000	\$	7,605,000	\$ 565,000
Unamortized premium		166,005		-		30,084		135,921	30,084
Bonds payable		8,451,005		-		710,084		7,740,921	595,084
Lease purchase agreement		381,301		-		92,150		289,151	94,235
Capital leases		102,900		-		24,566		78,334	25,323
Compensated absences*		231,984		100,869		110,234		222,619	111,967
Total governmental activities debt	\$	9,167,190	\$	100,869	\$	937,034	\$	8,331,025	\$ 826,609

^{*} Compensated absences typically have been liquidated in the General Fund.

General obligation bonds outstanding at December 31, 2021 are as follows:

	Date Issued	Interest Rates	Original Amount	Maturity Date	Outstanding December 31, 2021
ternal improvements:					
Series 2012 A	12/15/12	2%	\$ 2,670,000	9/1/22	\$ 215,000
Series 2014 A	10/30/14	1%	1,000,000	9/1/34	675,000
Series 2015 A	2/26/15	1 - 3%	2,100,000	9/1/34	1,835,000
Series 2016 A	10/27/16	2%	3,760,000	9/1/29	3,170,000
Series 2019 A	4/4/19	2 - 3%	1,845,000	9/1/38	1,710,000
			\$11,375,000		\$ 7,605,000

The annual debt service requirements to amortize the general obligation bonds outstanding as of December 31, 2021 are as follows:

Year	 Principal		Interest		Total
2022	\$ 565,000	\$	173,051	\$	738,051
2023	585,000		161,496		746,496
2024	595,000		149,491		744,491
2025	705,000		137,291		842,291
2026	725,000		122,941		847,941
2027 - 2031	2,910,000		387,647		3,297,647
2032 - 2036	1,275,000		124,350		1,399,350
2037 - 2038	 245,000		11,100		256,100
Total	\$ 7,605,000	\$	1,267,367	\$	8,872,367
	\$ 	\$		\$	

The City entered into an \$850,000 lease purchase agreement to acquire a building for its public works facility. The lease purchase carries an interest rate of 2.25% and is payable in semi-annual installments through September 2, 2024. The annual debt service requirements as of December 31, 2021 are:

<u>Year</u>	<u>F</u>	Principal	<u>l</u>	<u>nterest</u>	<u>Total</u>		
2022	\$	94,235	\$	5,979	\$	100,214	
2023		96,368		3,846		100,214	
2024		98,548		1,666		100,214	
	\$	289,151	\$	11,491	\$	300,642	

The City has entered into a capital lease to finance the purchase of equipment with a cost of \$247,281 and a depreciated value of \$151,116 at December 31, 2021. The interest rate is 3.08% and payments due in semi-annual installments through 2024. The future minimum lease obligations and the net present value of these minimum lease payments as of December 31, 2021 are as follows:

2022	\$ 27,736
2023	27,736
2024	27,736
	83,208
Less imputed interest	4,874
Present value of minimum	
lease payments	\$ 78,334

Legal Debt Margin

The City is subject to state statutes, which limit the amount of bonded debt (exclusive of revenue bonds, bonds issued for storm drainage and sanitary sewer improvements, and refunding bonds) that the City may issue to 30% of assessed valuation. Currently the City has a debt limit of \$36,323,558, leaving a debt margin of \$28,718,558.

Note 5: Pension and Other Postemployment Benefit Plans

Defined Benefit Pension Plan

General Information about the Pension Plan

<u>Plan Description</u> – The City participates in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan (the Plan). Kansas law establishes and amends benefit provisions. KPERS issues a publicly available financial report that includes financial statements and required supplementary information in its Comprehensive Annual Financial Report which can be found on the KPERS website at http://www.kpers.org or by writing to KPERS (611 South Kansas, Suite 100, Topeka, KS 66603) or by calling 1-888-275-5737.

KPERS provides pension benefits to the following statewide pension groups under one plan, as provided by K.S.A. 74, article 49:

- 1) Public employees, which includes state/school employees and local employees
- 2) Police and firemen
- 3) Judges

Substantially all public employees are covered by the Plan. Participation by local political subdivisions is optional, but irrevocable once elected.

The employees participating in the Plan for the City are included in the local employee group or the police and firemen group.

<u>Benefits Provided</u> – KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Benefits are established by statute and may only be changed by the General Assembly. Member employees (except police and firemen) with 10 or more years of credited service may retire as early as age 55 (police and firemen may be age 50 with 20 years of credited service), with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with 10 years of credited service, or whenever an employee's combined age and years of credited service equal 85 (police and firemen's normal retirement ages are 60 with 15 years of credited service, age 55 with 20 years, age 50 with 25 years, or any age with 36 years of service).

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, member employees may withdraw their contributions from their individual accounts, including interest. Member employees who withdraw their accumulated contributions lose all rights and privileges of membership. The accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74-4922.

Member employees choose one of seven payment options for their monthly retirement benefits. At retirement, a member employee may receive a lump-sum payment of up to 50% of the actuarial present value of the member employee's lifetime benefit. His or her monthly retirement benefit is then permanently reduced based on the amount of the lump-sum. Benefit increases, including ad hoc post-retirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas.

The 2012 Legislature made changes affecting new hires, current members and employers. A new KPERS 3 cash balance retirement plan for new hires starting January 1, 2015, was created. Normal retirement age for KPERS 3 is 65 with 5 years of service or 60 with 30 years of service. Early retirement is available at age 55 with 10 years of service, with a reduced benefit. Monthly benefit options are an annuity benefit based on the account balance at retirement.

For all pension coverage groups, the retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74-4922.

<u>Contributions</u> - Member contribution rates are established by state law and are paid by the employee according to the provisions of Section 414(h) of the Internal Revenue Code. State law provides that the employer contribution rates be determined based on the results of each annual actuarial valuation for each of the three state-wide pension groups. The contributions and assets of all groups are deposited in the Kansas Public Employees Retirement Fund established by K.S.A. 74-4921. All of the retirement systems are funded on an actuarial reserve basis.

For fiscal years beginning in 1995, Kansas legislation established statutory limits on increases in contribution rates for KPERS employers. Annual increases in the employer contribution rates related to subsequent benefit enhancements are not subject to these limitations. The statutory cap increase over the prior contribution rate is 1.2% of total payroll.

The actuarially determined employer contribution rate and the statutory contribution rate (not including the 1% contribution rate for the Death and Disability Program) for the local employee group are both 8.87%. The member contribution rate as a percentage of eligible compensation for the fiscal year ended June 30, 2021 is 6%. The actuarially determined employer contribution rate and the statutory contribution rate for the police and firemen group are both 22.80%. The member contribution rate for this group is 7.15%.

Contributions to the Plan from the City for the local employee group and police and firemen group were \$85,064 and \$135,266, respectively, for the year ended December 31, 2021.

<u>Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of</u> Resources Related to Pensions

Although KPERS administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense are determined separately for each group of the Plan. The City participates in the local (KPERS) group and the police and firemen (KP&F) group.

At December 31, 2021, the City reported a liability of \$535,240 for KPERS and \$959,607 for KP&F for its proportionate share of the KPERS' collective net pension liability. The collective net pension liability was measured by KPERS as of June 30, 2021, and the total pension liability used to calculate the collective net pension liability was determined by an actuarial valuation as of December 31, 2020, which was rolled forward to June 30, 2021. The City's proportion of the collective net pension liability was based on the ratio of the City's actual contributions to KPERS and KP&F, relative to the total employer and nonemployer contributions of the KPERS and KP&F for the fiscal year ended June 30, 2021. The contributions used exclude contributions made for prior service, excess benefits and irregular payments.

At June 30, 2021, the City's proportion and change from its proportion measured as of June 30, 2020 were as follows:

	Net p	ension liability	Increase (decrease) in		
	as of	June 30, 2021	June 30, 2021	proportion from June 30, 2020	
KPERS (local)	\$	535,240	.044605%	(.000065)%	
KP&F		959,607	.100562%	.000332%	
	\$	1,494,847			

For the year ended December 31, 2021, the City recognized pension expense of \$64,551 for KPERS and \$102,047 for KP&F. At December 31, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		 rred Inflows Resources
Differences between expected and actual experience	\$	96,847	\$ 4,846
Net differences between projected and actual			
earnings on pension plan investments		-	441,816
Changes in proportions		59,031	170,146
Changes in assumptions		227,426	-
Contributions subsequent to the measurement date		124,035	 -
Total	\$	507,339	\$ 616,808

\$124,035 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended December 31, 2022. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized as increases (decreases) to pension expense as follows:

Year Ended	
2022	\$ (19,335)
2023	(67,741)
2024	(51,836)
2025	(103,769)
2026	 9,177
	\$ (233,504)

Actuarial Assumptions

The total pension liability for KPERS in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions:

Price inflation	2.75%
Payroll growth	3.50%
Salary increases	3.50% to 12.00%, including price inflation
Long-term rate of return, net of investment	

The actuarial cost method is entry age normal. The amortization method is level percentage of payroll, closed.

Mortality rates were based on the RP-2014 Mortality Tables with age setbacks and set forwards, as well as other adjustments based on different membership groups. Future mortality improvements are anticipated using Scale MP-2016.

The actuarial assumptions used in the December 31, 2020 valuation were based on the results of an actuarial experience study dated January 7, 2020 conducted for the three-year period beginning January 1, 2016.

The actuarial assumption change adopted by the Pension Plan for all groups based on the experience study is as follows:

- Investment return assumption was lowered from 7.50% to 7.25%
- General wage growth assumption was increased from 3.25% to 3.50%

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage. Best estimates of arithmetic real rates of return for each major asset class as of the most recent experience study, dated January 7, 2020, are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
U.S. Equities	23.50%	5.20%
Non-U.S. Equities	23.50%	6.40%
Private Equity	8.00%	9.50%
Real Estate	11.00%	4.45%
Yield Driven	8.00%	4.70%
Real Return	11.00%	3.25%
Fixed Income	11.00%	1.55%
Short-term investments	4.00%	.025%
Total	100.00%	

Discount Rate

The discount rate used by KPERS to measure the total pension liability at June 30, 2021 was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the contractually required rate. The local employers do not necessarily contribute the full actuarial determined rate. Based on legislation first passed in 1993 and subsequent legislation, the employer contribution rates certified by the KPERS' Board of Trustees for this group may not increase by more than the statutory cap. Local and KP&F employers are currently contributing the full actuarial determined contribution rate. The expected

employer actuarial contribution rate was modeled for future years for these groups, assuming all actuarial assumptions are met in the future years. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the collective net pension liability calculated using the discount rate of 7.25%, as well as what the City's proportionate share of the collective net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate:

	19	% Decrease (6.25%)	Dis	Current scount Rate	 % Increase (8.25%)
City's KPERS proportionate share of the net pension liability	\$	880,419	\$	535,240	\$ 245,765
City's KP&F proportionate share of the net pension liability		1,440,279		959,607	 557,526
	\$	2,320,698	\$	1,494,847	\$ 803,291

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued KPERS financial report.

Payable to the Pension Plan

The City's contributions payable to the plan for the year ended December 31, 2021 were \$8,183.

Defined Contribution Plan

The City has established a defined contribution plan for those full-time employees eligible for the KPERS and KP&F programs. The plan is administered by Voya Financial, and any changes to the plan's provisions or the contribution requirements are determined by the governing body of the City. The City's contributions in 2021 were \$38,690. The balances in the plan are not controlled by the City, and therefore, the related assets and liabilities are not reflected in the financial statements.

Other Postemployment Benefits

City Healthcare Plan

<u>Plan Description</u> - In addition to providing the pension benefits described above, the City has a single-employer defined benefit healthcare OPEB plan that provides employees that retire under KPERS and KP&F at the same time they end their service to the City the opportunity for

continuation of medical and dental insurance coverage offered through Midwest Public Risk (MPR). The plan is administered by MPR who has the authority to establish or amend the plan provisions or contribution requirements; and no assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75. The plan does not issue a stand-alone financial report.

<u>Benefits Provided</u> - Retirees who elect to continue coverage in the medical and dental plans offered through MPR are required to pay a contribution until the retiree or spouse becomes eligible for Medicare. Upon retiree death or attainment of age 65, spouses may continue COBRA coverage for up to three years. The City requires the retirees to pay 125% of the premiums charged to active employees. The rates being paid by retirees for benefits are typically lower than those for individual health insurance policies. The difference between these amounts is the implicit rate subsidy, which is considered other postemployment benefits (OPEB) under GASB Statement No. 75.

<u>Contributions</u> - The City does not pay retiree benefits directly; they are paid implicitly over time through employer subsidization of active premiums that would be lower if retirees were not part of the experience group. Retirees who elect to continue coverage in the medical and dental plans offered through MPR are required to pay a contribution until the employee becomes eligible for Medicare. Since the retirees pay the premiums each year, the City's share of any premium costs is determined on the basis of a blended rate or implicit rate subsidy calculation. The plan is financed on a pay-as-you-go basis. The benefits and benefit levels are governed by City policy and the MPR trust agreement.

Employees Covered by Benefit Terms

As of the July 1, 2019 actuarial valuation, the following employees were covered by the benefit terms:

Inactive members or beneficiaries currently receiving benefit payments

Active employees

1
21
22

Total OPEB Liability

The City's total OPEB liability of \$153,871 was measured as of December 31, 2021 and was determined by an actuarial valuation as of July 1, 2019.

Actuarial Assumptions – The total OPEB liability in the July 1, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement:

Salary increase 3.00% per year

Discount rate 2.04% end of year; 1.96% beginning of year

contribution premiums based on the July 1, 2021 renewal data; 8.00% for the 2021 fiscal year, decreasing by 0.5% per year through 2023 and then decreasing by 0.25% per year to an ultimate rate of 5.0% for 2029 and later years

Retirees' share of benefitrelated costs

Retirees are required to pay 125% of premiums

The discount rate was based on the S&P Municipal Bond 20-year High Grade and the Fidelity GO AA-20 Years indexes.

Mortality rates were based on the Society of Actuaries Pub-2010 Public Retirement Plan Headcount-weighted Mortality Tables using Scale MP-2021 Full Generational Improvement.

The actuarial assumptions used in the July 1, 2019 valuation were based on an experience analysis of the plan's past experience, the actuary's experience with plans of similar size, plan design, and retiree contribution level.

Change in the Total OPEB Liability

Beginning of year	\$ 135,550
Changes for the year:	
Service cost	7,349
Interest	2,747
Differences between expected and actual experience	14,946
Changes in assumptions and inputs	(1,221)
Benefit payments (Employer contributions)	(5,500)
End of year	\$ 153,871

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City, calculated using the discount rate of 2.04%, as well as what the City's total OPEB liability would be using a discount rate that is one percentage point lower (1.04%) or one percentage point higher (3.04%) than the current rate:

	Decrease (1.04%)	Current Discount Rate		1% Increase (3.04%)	
Total OPEB Liability	\$ 170,271	\$	153,871	\$ 139,062	

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the City, calculated using the healthcare cost trend rate of 8.00%, as well as what the City's total OPEB liability would be using a discount rate that is one percentage point lower (7.00%) or one percentage point higher (9.00%) than the current rate:

	1%	Decrease			19	% Increase
	`	% decreasing 0 4.00%)	Current Healthcare Rate		(9.00% decreasing to 6.00%)	
Total OPEB Liability	\$	136,410	\$	153,871	\$	174,349

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2021, the City recognized OPEB expense of \$13,935. The City reported deferred outflows and deferred inflows related to OPEB from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Changes in assumptions	\$ 16,253	\$ (5,686)
Differences between expected		
and actual experience	34,120_	
	\$ 50,373	\$ (5,686)

Amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized as a reduction of OPEB expense as follows:

Year Ending	Amount		
2022	\$	3,839	
2023		3,839	
2024		3,839	
2025		3,839	
2026		3,839	
2027 and thereafter		25,492	
	\$	44,687	

KPERS Death and Disability Plan

<u>Plan Description</u> - The City participates in an agent multiple-employer defined benefit OPEB plan which is administered by KPERS. The plan provides long-term disability benefits and a life insurance benefit for disabled members to KPERS members, as provided by K.S.A. 74-04927. The plan is administered through a trust held by KPERS that is funded to pay annual benefit payments. However, because the trust's assets are used to pay employee benefits other than OPEB, the trust does not meet the criteria in paragraph 4 of GASB Statement 75. Accordingly, the plan is considered to be on a pay-as-you-go basis.

<u>Benefits Provided</u> - Benefits are established by statute and may be amended by the KPERS Board of Trustees. The plan provides long-term disability benefits equal to 60% (prior to January 1, 2006, 66-2/3%) of annual compensation, offset by other benefits. Members receiving long-term disability benefits also receive credit towards their KPERS retirement benefits and have their group life insurance coverage continued under the waiver premium provision.

The monthly long-term disability benefit is 60% of the member's monthly compensation, with a minimum of \$100 and a maximum of \$5,000. The monthly benefit is subject to reduction by deductible sources of income, which include Social Security primary disability or retirement benefits, worker's compensation benefits, other disability benefits from any other sources by reason of employment, and earnings from any form of employment. If the disability begins before age 60, benefits are payable while the disability continues until the member's 65th birthday or retirement date, whichever occurs first. If the disability begins after age 60, benefits are payable while the disability continues, for a period of five years or until the member retires, whichever occurs first.

Benefit payments for disabilities caused or contributed to by substance abuse or non-biologically based mental illnesses are limited to the shorter of the term of the disability or 24 months per lifetime. There are no automatic cost-of-living increase provisions. KPERS has the authority to implement an ad hoc cost-of-living increase.

The death benefit paid to beneficiaries of disabled members is 150% of the greater of the member's annual rate of compensation at the time of disability or the members previous 12 months of compensation at the time of the last date on payroll. If the member has been disabled for five or more years, the annual compensation or salary rate at the time of death will be indexed using the consumer price index, less one percentage point, to compute the death benefit. If a member is diagnosed as terminally ill with a life expectance of 12 months or less, the member may be eligible to receive up to 100% of the death benefit rather than having the benefit paid to the beneficiary. If a member retires or disability benefits end, the member may convert the group life insurance coverage to an individual insurance policy.

Employees Covered by Benefit Terms

As of December 31, 2021, the following employees were covered by the benefit terms:

Inactive members or beneficiaries currently receiving benefit payments	1
Active employees	<u>12</u>
	<u>13</u>

Total OPEB Liability

The City's total OPEB liability of \$133,271 was measured as of June 30, 2021 and was determined by an actuarial valuation as of December 31, 2020, which was rolled forward to June 30, 2021.

Actuarial Assumptions and Other Inputs - The total OPEB liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement:

Price inflation 2.75%
Payroll growth 3.00%

Salary increases, including inflation 3.50 to 10%, including price inflation

Discount rate 2.16%

Actuarial cost method Entry Age Normal

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Index.

Mortality rates were based on the RP-2014 Mortality Tables, adjusted for generational mortality improvements for future years using MP-2021.

The actuarial assumptions used in the December 31, 2020 valuation were based on an actuarial experience study conducted for two years ending December 31, 2018. Other demographic assumptions are set to be consistent with the actuarial assumptions reflected in the December 31, 2020 KPERS pension valuation.

Change in the Total OPEB Liability

Beginning of year	\$ 130,271
Changes for the year:	
Service cost	3,745
Interest	2,894
Economic/demographic gains or losses	2,111
Benefit payments	(6,223)
Changes in assumptions or other inputs	546
End of year	<u>\$ 133,344</u>

Changes of assumptions and other inputs reflect the effects of changes in the discount rate each period. The discount rate decreased from 2.21% on June 30, 2020 to 2.16% on June 30, 2021.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the KPERS OPEB liability of the City, calculated using the discount rate of 2.16%, as well as what the City's KPERS OPEB liability would be using a discount rate that is one percentage point lower (1.16%) or one percentage point higher (3.16%) than the current rate:

	 1% Decrease (1.16%)		Current count Rate	1% Increase (3.16%)		
Total OPEB Liability	\$ 144,989	\$	133,344	\$	122,991	

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

Healthcare cost trend sensitivity analysis is not applicable as healthcare trend rates do not affect the liabilities related to the long-term disability benefits sponsored by KPERS.

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2021, the City recognized OPEB expense of \$8,196. The City reported deferred outflows and inflows related to OPEB from the following sources:

	Deferred	Deferred
	Outflows of	Inflows of
	Resources	Resources
Changes in assumptions	\$ 13,961	\$ (4,989)
Differences between expected		
and actual experience	6,499	(1,842)
	\$ 20,460	\$ (6,831)

Amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized as a reduction of OPEB expense as follows:

Year Ending	A	mount
2022	\$	1,557
2023		1,557
2024		1,557
2025		1,557
2026		1,790
2027 and thereafter		5,611
	\$	13,629

Summary of OPEB Plans

As of December 31, 2021, the City's total OPEB liability, deferred outflows and inflows of resources and OPEB expense associated with the two OPEB plans are summarized as follows:

Total OPEB liability	\$ 287,215
Deferred outflows of resources	70,833
Deferred inflows of resources	12,517
OPEB expense	22.131

Note 6: Interfund Transfers

Interfund transfers for the year ended December 31, 2021 are as follows:

	Tra	ansfers In	Tra	nsfers Out
General fund	\$	-	\$	891,000
SIM fund		31,000		-
Capital Projects fund		700,000		-
Equipment Reserve fund		160,000		-
	\$	891,000	\$	891,000

Transfers are used to (1) move revenues from the fund that a statute or the budget requires to collect them to the fund that a statute or the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Any transfers within the governmental funds have been eliminated in the government-wide Statement of Activities.

Note 7: Commitments and Contingencies

Litigation

The City is subject to various legal actions and claims arising in the normal course of its activities. In the opinion of management and counsel, the probability of material aggregate liabilities not covered by insurance resulting from these claims is remote.

Tax Abatements

Generally accepted accounting principles require the City to disclose information about tax abatement agreements entered into by it, or other governmental entities, that reduce the City's tax revenues. As of December 31, 2021, the City has not entered into any such agreements, and based on its review, has determined that no other governmental entities have entered into any agreements that would reduce its tax revenues.

Commitments

Capital projects often extend over several years. The City has made normal commitments for future expenditures related to capital project programs.

Note 8: Risk Management

The City is exposed to various risks of loss related to torts, loss and damage to property, errors and omissions and injuries to employees. There have been no significant changes in coverages from the previous year and settled claims have not exceeded the insurance coverage in any of the past three years. The City obtains health, dental, and property and liability coverage through its membership in Midwest Public Risk (MPR), which was formed as a public entity risk retention pool. MPR has the authority to assess its members additional premiums should reserves and premiums be insufficient to meet its obligations. MPR has not had any deficiencies in the last three years and the City does not anticipate any additional assessments in excess of the premiums paid.

The City obtains workers' compensation insurance through its membership in the Kansas Eastern Region Insurance Trust (KERIT), whose members consist of local cities and counties. KERIT is a risk-sharing pool organized under the insurance laws of the State of Kansas, which self-insures workers' compensation and other related expenses up to certain limits and reinsures additional excess amounts up to certain limits. The City pays annual premiums to the Trust based upon historical experience and legal requirements mandated by the State of Kansas. The trust agreement allows for member assessments in the event claims and expenses exceed the Trust's self-insured retention limit. The City does not anticipate any additional assessments in excess of premiums paid as a result of their participation in the Trust.

Note 9: Shawnee Indian Mission Historical Site

In 2016, the City entered into various agreements to manage the Shawnee Indian Mission (SIM) historical site and created the Shawnee Indian Mission Fund to account for the activities associated with these agreements. The agreements are with the Kansas State Historical Society (KSHS), which is the custodian of the site, and the Shawnee Indian Mission Foundation (SIMF), a not-for-profit corporation whose purpose is to preserve and promote the site.

The agreement with the KSHS permits the City to manage the daily operations of the site, including the responsibility for routine maintenance, and allows the City to retain any admissions and rental fees. The agreement also provides funding for the operating costs of the site, subject to state appropriation, over the term of the agreement, which originally was from July 1, 2016 to June 30 2021, and was extended in 2021 to June 30,2022, with the funding only for the period from July 1, 2016 to June 30, 2019.

The agreement with the SIMF establishes the collaboration with the City to preserve and maintain the site and specifies the minimum SIMF funding to be provided to the City for the term of the agreement, which originally was from July 1, 2016 to June 30, 2021, and was extended in 2021 to June 30, 2022. The funding for 2021 was \$68,269. The City and the SIMF have also entered into an agreement to establish an endowment fund in order to generate additional resources to support the site.

Note 10: Community Improvement District

On December 14, 2020, the City authorized the creation of the 55th and Parkway Community Improvement District (the CID) to finance certain project costs in the CID through the imposition of a 1.5% CID sales tax for a period of up to twenty-two years. On this date the City also approved a development agreement to reimburse the developer a maximum of \$400,000 of project costs for CID improvements. The reimbursement is on a pay-as-you-go basis solely from the proceeds of the sales tax. If the proceeds are not sufficient to fully reimburse the developer, the City will have no responsibility for any deficiency in the amount to be reimbursed. The CID will terminate at the earlier of the reimbursement of the maximum costs or twenty-two years. The sales tax collections will begin in 2022.

Notes to Required Supplementary Information December 31, 2021

Required supplementary information includes financial information and disclosures that are required by GASB but are not considered a part of the basic financial statements. This information includes the Budgetary Comparison Schedule – General Fund, Schedule of the City's Proportionate Share of the Net Pension Liability, Schedule of Pension Contributions, and the Schedule of Changes in Total OPEB Liability and Related Ratios.

Budgetary Data

The City utilizes encumbrances for budgetary reporting purposes. Encumbrances relating to certain contractual agreements, supplies and equipment that have been ordered but not received are reported in the year the commitment arises for budgetary reporting purposes. However, for financial reporting purposes, the goods or services are reported when they are received. All unencumbered appropriations lapse at year-end.

Pension Schedules - Changes of Benefits or Assumptions

There were no changes in benefit terms during the Plan year ended June 30, 2021 that affected the measurement of the total pension liability.

Actuarial assumption changes that were adopted by the Plan that were effective for the December 31, 2020 valuation consisted of:

- Lowering the investment return assumption from 7.50% to 7.25%
- Increasing the general wage growth assumption from 3.25% to 3.50%

OPEB Schedules - Changes of Benefits or Assumptions

There were no changes in benefit terms. Actuarial assumption changes that were adopted by the Plans for the most recent valuations consisted of:

City Healthcare Plan July 1, 2019 valuation:

Increasing the discount rate from 1.96% to 2.04%

KPERS Death and Disability Plan December 31, 2020 valuation:

Lowering the discount rate from 2.21% to 2.16%
