INDEPENDENT AUDITORS' REPORT

Honorable Mayor and City Council
City of Buffalo, Kansas

We have audited the accompanying fund summary statement of regulatory basis receipts, expenditures, and unencumbered cash balances of the City of Buffalo, Kansas, as of and for the year ended December 31, 2017 and the related notes to the financial statement.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with the Kansas Municipal Audit and Accounting Guide as described in Note 1; this includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statement in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the *Kansas Municipal Audit and Accounting Guide*. Those standards require we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statement, the financial statement is prepared by the City of Buffalo, Kansas on the basis of the financial reporting provisions of the Kansas Municipal Audit and Accounting Guide, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statement of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statement referred to above does not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the City of Buffalo, Kansas as of December 31, 2017, or changes in financial position and cash flows thereof for the year then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statement referred to above presents fairly, in all material respects, the aggregate cash and unencumbered cash balance of the City of Buffalo, Kansas as of December 31, 2017, and the aggregate receipts and expenditures for the year then ended in accordance with the financial reporting provisions of the Kansas Municipal Audit and Accounting Guide described in Note 1.

Other Matters***Supplemental Information***

Our audit was conducted for the purpose of forming an opinion on the fund summary statement of regulatory basis receipts, expenditures, and unencumbered cash balances (basic financial statement) as a whole. The summary of regulatory basis expenditures-actual and budget, individual fund schedules of regulatory basis receipts and expenditures-actual and budget, schedule of regulatory basis receipts and disbursements-agency funds (Schedules 1, 2 and 3 as listed in the table of contents) are presented for analysis and are not a required part of the basic financial statement, however are required to be presented under the provisions of the Kansas Municipal Audit and Accounting Guide. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statement. The information has been subjected to the auditing procedures applied in the audit of the basic financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statement or to the basic financial statement itself, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statement as a whole, on the basis of accounting described in Note 1.

We also previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statement of City of Buffalo, Kansas as of and for the year ended December 31, 2016 (not presented herein), and have issued our report thereon dated February 24, 2017, which contained an unmodified opinion on the basic financial statement. The 2016 basic financial statement and our accompanying report are not presented herein, but are available in electronic form from the web site of the Kansas Department of Administration at the following link <http://admin.ks.gov/offices/chief-financial-officer/municipal-services>. The 2016 actual column (2016 comparative information) presented in the individual fund schedules of regulatory basis receipts and expenditures-actual and budget for the year ended December 31, 2017 (Schedule 2 as listed in the table of contents) is presented for purposes of additional analysis and is not a required part of the basic financial statement. Such 2016 comparative information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2016 basic financial statement. The 2016 comparative information was subjected to the auditing procedures applied in the audit of the 2016 basic financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2016 basic financial

statement or to the 2016 basic financial statement itself, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2016 comparative information is fairly stated in all material respects in relation to the basic financial statement as a whole for the year ended December 31, 2016, on the basis of accounting described in Note 1.

an integral part of this statement.

CITY OF BUFFALO, KANSAS

Notes to Financial Statement
December 31, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statement and schedule of the City of Buffalo, Kansas, have been prepared in order to show compliance with the cash basis and budget laws of the State of Kansas. The Governmental Accounting Standards Board is the principal standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies follow. Note 1 describes how the City's accounting policies differ from accounting policies generally accepted in the United States of America.

Financial Reporting Entity

The City of Buffalo, Kansas, is a municipal corporation governed by an elected five-member council.

Related Municipal Entities: A related municipal entity is determined by the following criteria. Whether the City exercises oversight responsibility on financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters, scope of the public service, and significant operational or financial relationships with the City. Related municipal entities are not required to be included in the City's audit by the Kansas Municipal Audit and Accounting Guide (KMAAG).

The City has determined that no outside agency meets the above criteria and, therefore, no outside agency has been include as a related municipal entity in this financial statement.

Regulatory Basis Fund Types

A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The following types of funds comprise the financial activities of the City of Buffalo, Kansas, for the year of 2017:

General fund – the chief operating fund. Used to account for all resources except those required to be accounted for in another fund.

Special Purpose funds – used to account for the proceeds of specific tax levies and other specific revenue sources (other than Capital Project and tax levies for long-term debt) that are intended for specified purposes.

Bond and Interest funds - used to account for the accumulation of resources, including tax levies, transfers from other funds and payment of general long-term debt.

Business funds – funds financed in whole or in part by fees charged to users of the goods or services (i.e. enterprise and internal service fund etc.)

Agency fund – funds used to report assets held by the municipal reporting entity in a purely custodial capacity (payroll clearing fund, county treasurer tax collection accounts, etc.).

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Regulatory Basis of Accounting and Departure from Accounting Principles Generally Accepted in the United States of America. The Kansas Municipal Audit and Accounting Guide (KMAAG) regulatory basis of accounting involves the recognition of cash, cash equivalents, marketable investments, and certain accounts payable and encumbrance obligations to arrive at a net unencumbered cash and investments balance on a regulatory basis for each fund, and the reporting of changes in unencumbered cash and investments of a fund resulting from the difference in regulatory basis receipts and regulatory basis expenditures for the fiscal year. All recognized assets and liabilities are measured and reported at cost, unless they have been permanently impaired and have no future cash value or represent no future obligation against cash. The KMAAG regulatory basis does not recognize capital assets, long-term debt, accrued receivables and payables, or any other assets, liabilities or deferred inflows or outflows, other than those mentioned above.

The municipality has approved a resolution that is in compliance with K.S.A. 75-1120a(c), waiving the requirement for application of generally accepted accounting principles and allowing the municipality to use the regulatory basis of accounting.

Comparative Data

Comparative data for the prior year have been presented in the accompanying financial statement in order to provide an understanding of changes in the City's financial position and operations. However, complete comparative data in each of the statement have not been presented since their inclusion would make the statement unduly complex and difficult to read.

Reimbursed Expenses

K.S.A. 79-2934 provides that reimbursed expenditures, in excess of those budgeted, should be recorded as reductions in expenditures rather than cash receipts. In the financial statement and budget schedule comparisons presented in this report, reimbursements and refunds are recorded as cash receipts. The reimbursements are recorded as cash receipts when received by the city treasurer and are often difficult to identify the exact expenditure which they are reimbursing. In funds showing expenditures in excess of the original adopted budget, reimbursements are added to the adopted budget as budget credits for comparison with the actual expenditures.

Property Taxes

In accordance with governing state statutes, property taxes levied during the current year are a revenue source to be used to finance the budget of the ensuing year. Taxes are assessed a calendar year basis and become a lien on the property on November 1 of each year. The county treasurer is the tax collection agent for all taxing entities within the County. Property owners have the option of paying one-half of the full amount of taxes levied on or before December 20 during the year levied with the balance to be paid on or before May 10 of the ensuing year. State statutes prohibit the county treasurer from distributing taxes collected in the year levied prior to January 1 of the ensuing year. Consequently, for revenue recognition purposes, taxes levied during the current year are not due and receivable until the ensuing year. At December 31 such taxes are a lien on the property.

Pension Plan

Substantially all full-time City employees are members of the State of Kansas Public Employees Retirement System, which is a multi-employer state-wide pension plan. The City's policy is to fund all pension costs accrued. Such costs to be funded are actuarially determined annually by the State of Kansas.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgetary Information

Kansas statutes require that an annual operating budget be legally adopted for the general fund, special purpose funds (unless specifically exempted by statute), bond and interest funds, and business funds. Although directory rather than mandatory, the statutes provide for the following timetable in the adoption of the legal annual operating budget:

1. Preparation of the budget for the succeeding calendar year on or before August 1.
2. Publication in local newspaper on or before August 5 of the proposed budget and notice of public hearing on the budget.
3. Public hearing on or before August 15, but at least ten days after publication of notice of hearing.
4. Adoption of the final budget on or before August 25.

The statutes allow for the governing body to increase the originally adopted budget for previously unbudgeted increases in revenue other than ad valorem property taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after publication the hearing may be held and the governing body may amend the budget at that time. There were no such budget amendments for this year.

The statutes permit transferring budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of the individual funds. Budget comparison schedules are presented for each fund showing actual receipts and expenditures compared to legally budgeted receipts and expenditures.

All legal annual operating budgets are prepared using the regulatory basis of accounting, in which, revenues are recognized when cash is received and expenditures include disbursements, accounts payable, and encumbrances, with disbursements being adjusted for prior year's accounts payable and encumbrances. Encumbrances are commitments by the municipality for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. Any unused budgeted expenditure authority lapses at year-end.

A legal operating budget is not required for capital projects funds and trust funds.

Spending in funds which are not subject to the legal annual operating budget requirement is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the governing body.

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Revenue Bond Requirements

The City is required, under ordinances of the Waterworks System Revenue Bonds, to maintain in its Business Fund certain restricted accounts. The ordinances provide that the following reserve accounts be set up in amounts as described below:

<u>RESERVE ACCOUNT</u>	<u>REQUIRED AMOUNT</u>	<u>ACTUAL AMOUNT</u>
1983 Waterworks Utility Bond and Interest – requires transfers monthly of 1/6 of next maturing interest, beginning July 25, 1986, and 1/12 of next maturing principal, beginning July 25, 1983.	\$ 10,925.00	\$ 12,896.06
1983 Waterworks Utility Bond Reserve Account – requires monthly transfers of \$187.50 per month beginning July 25, 1983, until a maximum of \$22,500.00 is reached.	22,500.00	22,500.00
Total Reserves at December 31, 2017	<u>\$ 33,825.00</u>	<u>\$ 35,396.06</u>

The City agrees to fix, establish, maintain and collect such rates, fees or charges for water service furnished by or through the waterworks system which will be sufficient to enable the City to have, in each fiscal year, a net income in an amount that will be not less than 125% of the amount required to be paid by the City in the next succeeding fiscal year on account of both principal and interest of all waterworks system bonds of the City at the time outstanding. Net income is defined as gross income less operating expenses but before any transfers, depreciation and capital expense.

For the year ended December 31, 2017, the Water Utility Fund had a net income of \$51,761.07, which is 236.89% of the principal and interest requirements for 2018 of \$21,850.00.

Compliance with Kansas Statutes

Statement 1 and Schedule 1 have been prepared in order to show compliance with the cash basis and budget laws of Kansas. As shown in Statement 1 and Schedule 1, the City was in compliance with the cash basis and budget laws of Kansas.

3. DEPOSITS AND INVESTMENTS

K.S.A 9-1401 establishes the depositories which may be used by the City. The statute requires banks eligible to hold the City's funds have a main branch or branch bank in the county in which the City is located or in an adjoining county if such institution has been designated as an official depository, and the bank provide an acceptable rate of return on funds. In addition, K.S.A. 9-1402 requires the banks to pledge securities for deposits in excess of FDIC coverage. The City has no other policies that would further limit interest rate risk.

K.S.A 12-1675 limits the City's investment of idle funds to time deposits, open accounts, and certificates of deposit with allowable financial institutions; U.S. Government securities; temporary notes; no-fund warrants; repurchase agreements; and the Kansas Municipal Investment Pool. The City has no investment policy that would further limit its investment choices.

3. DEPOSITS AND INVESTMENTS (Continued)

Concentration of credit risk. State statutes place no limit on the amount the City may invest in any one issuer as long as the investments are adequately secured under K.S.A. 9-1402 and 9-1405.

Custodial credit risk – deposits. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State statutes require the City's deposits in financial institutions to be entirely covered by federal depository insurance or by collateral held under a joint custody receipt issued by a bank within the State of Kansas, the Federal Reserve Bank of Kansas City, or the Federal Home Loan Bank of Topeka.

Deposits: At year-end the carrying amount of the City's deposits was \$185,338.46 and the bank balance was \$182,828.68. The bank balance was held by one bank resulting in a concentration of credit risk. Of the bank balance, \$182,828.68 was covered by the Federal Deposit Insurance Corporation (FDIC) insurance.

4. CAPITAL LEASES

The City has entered into a capital lease agreement dated February 11, 2008, to partially finance a waterline project at a cost of \$91,617.00. The City agreed to make twenty semi-annual payments of \$4,003.71, including interest at 6.125%.

2018	\$ 8,007.42
2019	8,007.42
2020	8,007.42
2021	<u>2,775.92</u>
Total Net Minimum Lease Payments	26,798.18
Less: Imputed Interest	<u>(2,906.65)</u>
Net Present Value	23,891.53
Less: Current Maturities	<u>(6,644.28)</u>
Long-Term Capital Lease Obligations	<u>\$ 17,247.25</u>

5. OPERATING LEASES

As of December 31, 2017, the City has entered into an operating lease for office equipment. Rent expense for the year ended December 31, 2017, was \$1,085.26. Under the current lease agreements, there are no future minimum rental payments are as follows.

6. LONG-TERM DEBT

Changes in long-term liabilities for the City for the year ended December 31, 2017, were as follows:

Issue	Interest Rates	Date of Issue	Amount of Issue	Date of Final Maturity	Balance Beginning of Year	Additions	Reductions/ Payments	Balance End of Year	Interest Paid
General Obligation Bonds									
Paid By Utility Receipts:									
Sewer Utility System Bonds									
Series 2000	4.875%	December 21, 2000	\$ 315,800.00	December 21, 2040	\$ 252,800.00	\$ -	\$ 5,800.00	\$ 247,000.00	\$ 12,324.00

7. DEFINED BENEFIT PENSION PLAN

Plan description. The City of Buffalo participates in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, et. seq. Kansas law establishes and amends benefit provisions. KPERS issues a publically available financial report that includes financial statements and required supplementary information. KPERS' financial statements are included in its Comprehensive Annual Financial Report which can be found on the KPERS website at www.kpers.org or by writing to KPERS (611 South Kansas, Suite 100, Topeka, KS 66603) or by calling 1-888-275-5737.

Contributions. K.S.A. 74-4919 and K.S.A. 74-49,210 establish the KPERS member-employee contribution rates. KPERS has multiple benefit structures and contribution rates depending on whether the employee is a KPERS 1, KPERS 2 or KPERS 3 member. KPERS 1 members are active and contributing members hired before July 1, 2009. KPERS 2 members were first employed in a covered position on or after July 1, 2009, and KPERS 3 members were first employed in a covered position on or after January 1, 2015. Effective January 1, 2015, Kansas law established the KPERS member-employee contribution rate at 6% of covered salary for KPERS 1, KPERS 2 and KPERS 3 members. Member contributions are withheld by their employer and paid to KPERS according to the provisions of Section 414(h) of the Internal Revenue Code.

State law provides that the employer contribution rates for KPERS 1 and KPERS 2 and KPERS 3 be determined based on the results of each annual actuarial valuation. Kansas law sets a limitation on annual increases in the employer contribution rates. The actuarially determined employer contribution rate (not including the 1% contribution rate through March 31, 2016 with a 0% moratorium until September 30, 2017 for the Death and Disability Program) and the statutory contribution rate was 9.46% for the fiscal year ended December 31, 2017. Contributions to the pension plan from City of Buffalo were \$2,073.84 for the year ended December 31, 2017.

Net Pension Liability

At December 31, 2017, the City of Buffalo's proportionate share of the collective net pension liability reported by KPERS was \$17,961.00. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2016, which was rolled forward to June 30, 2017. The City of Buffalo's proportion of the net pension liability was based on the ratio of the City of Buffalo's contributions to KPERS, relative to the total employer and non-employer contributions of the Local subgroup within KPERS. Since the KMAAG regulatory basis of accounting does not recognize long-term debt, this liability is not reported in these financial statements.

The complete actuarial valuation report including all actuarial assumptions and methods, and the report on the allocation of the KPERS collective net pension liability to all participating employers are publicly available on the website at www.kpers.org or can be obtained as described above.

8. OTHER LONG-TERM OBLIGATIONS FROM OPERATIONS

Compensated Absences

Regular employees earn and accumulate vacation leave as follows:

- After One Full Year of Employment – 40 hours
- After Two Full Years of Employment – 80 hours
- After Five Full Years of Employment (if hired prior to 8/6/2012) – 120 hours
- After Ten Full Years of Employment (if hired after 8/6/2012) – 120 hours

Vacation is not earned for partial years worked. Employees must use vacation time in the year earned, as carryover is not allowed. Vacation time cannot be sold back to the City for more than one week, and only for employees eligible for 120 hours, as the employee must use at least two weeks. Upon resignation, quitting, termination, or lay-off, all earned vacation time will be paid to the employee.

Regular employees earn and accumulate sick leave from the beginning of employment at the rate of one day per two months worked, after a sixty (60) day probation period. The first year benefits are not to exceed five days. After the first year of employment, full-time employees will receive one day of sick leave for each month worked, and may accumulate up to twenty-four days of sick leave. Upon resignation, quitting, termination, or lay-off, all earned sick leave will be paid to the employee.

The City accrues a liability for compensated absences which meet the following criteria:

1. The City's obligation relating to employees' rights to receive compensation for future absences is attributable to employees' services already rendered.
2. The obligation relates to rights that vest or accumulate.
3. Payment of the compensation is probable.
4. The amount can be reasonably estimated and, is material.

In accordance with the above criteria, the City has estimated a liability for vacation pay of \$1,258.60. The City has not accrued a liability for sick pay, which has been earned, but not taken by City employees, as the amounts cannot be reasonably estimated.

9. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees; employees' health and life; and natural disasters. The City manages these risks of loss through the purchase of various insurance policies.

10. INTERFUND TRANSFERS

Operating transfers were as follows:

<u>From Fund:</u>	<u>To Fund:</u>	<u>Statutory Authority:</u>	<u>Amount:</u>
General	Special Highway Improvement Reserve	K.S.A. 12-825d	\$ 2,500.00
Water Utility	Water Utility Bond & Interest	K.S.A. 12-825d	22,217.04
Water Utility	Water Utility Lease Purchase Principal & Interest	K.S.A. 12-825d	11,163.00
Water Utility	Special Highway Improvement Reserve	K.S.A. 12-825d	2,500.00
Sewer Utility	G.O. Sewer Utility Bond & Interest	K.S.A. 12-825d	18,052.08

11. SUBSEQUENT EVENTS

There were no subsequent events requiring recognition in the financial statement. Additionally, there were no nonrecognized subsequent events requiring disclosure.

The Honorable Mayor and City Council
City of Buffalo, Kansas

In planning and performing our audit of the financial statement of City of Buffalo, Kansas as of and for the year ended December 31, 2017, in accordance with auditing standards generally accepted in the United States of America, we considered City of Buffalo, Kansas' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of the City of Buffalo, Kansas' internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Buffalo, Kansas' internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiencies in City of Buffalo, Kansas' internal control to be material weaknesses:

Preparation of Financial Statement

Accounting standards states the client must be able to accept responsibility and be able to identify a material misstatement when reviewing the financial statement, including footnotes and supplemental information. This would also include knowing if a required footnote disclosure was missing or not correctly stated. Presently, the City staff does not have the ability to process and prepare the required financial statement, including footnotes. The potential effects of this material weakness could be unrecognized errors on the financial statement. While we recognize that this condition is not unusual for a City your size, it is important that you be aware of this condition for financial reporting purposes. Management and the City Council should continually be aware of the financial reporting of the City and changes in reporting requirements.

Segregation of Duties

An internal control structure is, quite simply, the procedures and policies in effect which ensure that the City's financial activity is properly recorded, processed, summarized, and reported in the financial statements. A weakness in the control structure occurs when one person is responsible for all of the accounting activities such as performing billings, receipting cash, making deposits, reconciling the bank accounts, and having access to all books and records of the City. Due to small staff size, it is not possible for reviews of daily work to take place, potentially resulting in errors in financial records and reports.

Kansas Statutes

The City was in apparent violation of K.S.A. 10-130, which requires bond payments to be remitted to the state fiscal agency at least 20 days before the redemption of such bonds and the payment of the interest thereon. One bond payment was received by the Office of the State Treasurer 12 days prior to the redemption date.

This communication is intended solely for the information and use of management, City Council, and others within the City, and is not intended to be, and should not be, used by anyone other than these specified parties.

A handwritten signature in cursive script that reads "Jarred, Gilmore & Phillips, PA".
