Attica Hospital District No. 1 Management's Discussion and Analysis

Our discussion and analysis of the financial performance of Attica Hospital District No. 1 (District) provides a narrative overview of the District's financial activities for the years ended December 31, 2022 and 2021. Please read it in conjunction with the accompanying financial statements.

Financial highlights

The District reported operating losses of \$1,308,768 in 2022, \$878,241 in 2021, and \$1,060,265 in 2020.

The District had nonoperating revenues which consisted primarily of District tax proceeds, CARES Act grant revenues, noncapital contributions, interest income, and rental income of \$519,083 in 2022, \$1,107,935 in 2021, and \$1,363,132 in 2020. The District received \$487,445 and \$399,039 in CARES Act grant revenues in 2021 and 2020, respectively. In 2021, the District received a supplemental Medicaid payment in the amount of \$212,100. The significant decrease in nonoperating revenues in 2022 is due to the District not receiving any CARES Act grant funds or supplemental Medicaid payments during the year.

After the inclusion of nonoperating revenues and expenses and capital grants and contributions, the District's net position decreased by \$779,685 or 23.8 percent in 2022, increased by \$266,512 or 8.9 percent in 2021, and increased by \$348,143 or 13.1 percent in 2020.

Using these financial statements

The District's financial statements consist of three statements - a Statement of Net Position; a Statement of Revenues, Expenses, and Changes in Net Position; and a Statement of Cash Flows. These financial statements and related notes provide information about the activities of the District, including resources held by the District and resources restricted for specific purposes by contributors.

One of the most important questions asked about the District's finances is, "Is the District as a whole better or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Net Position report information about the District's resources and its activities in a way that helps answer this question. These statements include all restricted and unrestricted assets and all liabilities using the accrual basis of accounting. For purposes of these two statements, revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and its changes. The District's net position - the difference between assets and liabilities - may be thought of as one way to measure its financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. Consideration must also be given to other nonfinancial indicators, such as changes in the District's physical plant and measures of the quality of services it provides to the community, as well as local economic factors, to assess the overall health of the District.

The final required statement is the Statement of Cash Flows. This statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities. It provides answers to such questions as "Where did cash come from?", "What was cash used for?", and "What was the change in cash balance during the reporting period?"

Attica Hospital District No. 1 Management's Discussion and Analysis - Continued

Assets, liabilities, and net assets

The District's statements of net position as of the end of each of the last three years are summarized as follows:

	<u>2022</u>	<u>2021</u>	<u>2020</u>
Assets Current assets Assets limited as to use Capital assets, net	\$ 2,750,479 163,776 1,398,741	\$3,425,478 128,377 1,523,864	\$3,139,044 128,349 1,660,463
Total assets	4,312,996	5,077,719	4,927,856
Deferred outflows of resources	591,281	419,634	500,436
Total assets and deferred outflows of resources	\$4,904,277	\$ 5,497,353	\$5,428,292
Liabilities Current liabilities Net pension liability Nonrefundable fees	\$ 197,688 1,675,166 4,605	\$ 246,867 1,112,491 6,184	\$ 296,960 1,587,056 16,059
Total liabilities	\$1,877,459	\$1,365,542	\$ 1,900,075
Deferred inflows of resources	\$ 529,450	\$ 854,758	\$ 517,676
Net position Invested in capital assets, net of related debt Restricted expendable net position Unrestricted	\$ 1,398,741 138,776 959,851	\$1,523,864 103,377 1,649,812	\$ 1,660,463 103,349 1,246,729
Total net position	\$ 2,497,368	\$3,277,053	\$3,010,541

In aggregate, the District's unrestricted cash and invested cash totaled \$1,891,252 and \$2,586,111 as of December 31, 2022 and 2021, respectively. These represent 169 days and 262 days, respectively, of average cash expenses during each of the years then ended.

Capital asset acquisitions were funded from operating cash flow and capital grants during 2022 and 2021. Net capital assets (after depreciation) decreased by \$125,123 during the 2022 fiscal year due to depreciation expense exceeding capital asset acquisitions during 2022 and decreased by \$136,599 during the 2021 fiscal year due to depreciation expense exceeding capital acquisitions during 2021.

The District's net resident accounts receivable was 12 percent of current assets as of December 31, 2022, and 9 percent as of December 31, 2021. The average number of days of net resident revenue in accounts receivable was 41 days as of December 31, 2022, and 40 days as of December 31, 2021.

The District's net position decreased by \$779,685 or 23.8 percent in 2022 and increased by \$266,512 or 8.9 percent in 2021.

Attica Hospital District No. 1 Management's Discussion and Analysis - Continued

Operating results and changes in net assets

The District's operating results and changes in net position for each of the last three years are summarized as follows:

	<u>2022</u>	<u>2021</u>	<u>2020</u>
Operating revenues Operating expenses	\$ 2,987,332 (4,296,100)	\$ 2,942,207 (3,820,448)	\$ 3,591,604 (4,651,869)
Operating income (loss)	(1,308,768)	(878,241)	(1,060,265)
Nonoperating income Capital contributions and grants	519,083 10,000	1,107,935 36,818	1,363,132 45,276
Increase (decrease) in net position	<u>\$ (779,685)</u>	\$ 266,512	\$ 348,143

The most significant components of the overall change in the District's decrease in net position in 2022 were a decrease in nonoperating income of \$588,852, an increase in net resident service revenue of \$37,364, and an increase in salaries and wages of \$131,650, employee benefits of \$111,043, and supplies and other expenses of \$240,448.

Gross and net resident service revenue for the past three years are analyzed as follows:

	<u>2022</u>	<u>2021</u>	<u>2020</u>
Daily resident care Independent living units	\$ 2,442,491 19,683	\$ 2,474,905 19,590	\$3,135,196 21,000
Gross resident service revenue Contractual adjustments Provision for bad debt	2,462,174 496,991 (25,000)	2,494,495 402,306	3,156,196 428,261 (25,171)
Net resident service revenue	\$ 2,934,165	\$ 2,896,801	\$3,559,286

Employee salaries and wages, including benefits, increased by \$242,693 or 11.3 percent during 2022; and decreased by \$569,634 or 21.0 percent during 2021. These changes are functions of changes in the number of employees, the number of resident days, pay rates, and benefits.

Supplies and other expenses increased by \$240,448 or 16.5 percent during 2022; and decreased during 2021 by \$260,857 or 15.17 percent. The increase in 2022 was attributable primarily to an increase in contract nursing services expenditures. The decrease in 2021 was attributable primarily to the decrease in the number of resident days from 17,542 in 2020 to 14,024 in 2021, a decrease of 20.1 percent.

Budgetary information

Actual expenditures for the year ended December 31, 2022, on the modified accrual basis of accounting and encumbrances were \$4,104,986 as compared to the legally adopted budgeted expenditures of \$5,258,000. Actual expenditures for the year ended December 31, 2021, on the modified accrual basis of accounting and encumbrances were \$3,605,557 as compared to the legally adopted budgeted expenditures of \$4,873,000.

Independent Auditor's Report

Board of Trustees Attica Hospital District No. 1 of Harper County, Kansas

Opinion

We have audited the accompanying financial statements of the business-type activities of Attica Hospital District No. 1 of Harper County, Kansas (District) as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the District as of December 31, 2022 and 2021, and the changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Kansas Municipal Audit and Accounting Guide. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 1 through 3 and the schedules of the District's proportionate share of net pension liability and District contributions to the defined pension plan on pages 23 and 24 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the basic financial statements as a whole. The supplementary information on pages 26 through 28 is for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Note A - Description of Reporting Entity and Summary of Significant Accounting Policies

1. Reporting entity

Attica Hospital District No. 1 of Harper County, Kansas, (hereinafter referred to as the District) was created under K.S.A. 80-2178, et seq., as a Kansas political body and entity, for the purpose of owning and operating a health care facility in Attica, Kansas, for the benefit of the community. Until July 1, 1991, the District operated a 12-bed acute care hospital, a long-term care unit, and a clinic. On July 1, 1991, inpatient acute care services were discontinued. The District continues to operate a long-term care unit licensed as a freestanding nursing facility that includes a 7-bed Alzheimer's unit that opened on December 13, 2010. On June 1, 2021, the District decreased the long-term care unit licensed beds from 55 to 46. In 2013, the District opened a 5-unit independent living complex in Attica, Kansas. The District is governed by an elected fivemember Board of Trustees of Attica Hospital District No. 1 of Harper County, Kansas.

2. Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

3. Basis of accounting

The District uses enterprise fund accounting. Revenues and expenses are recognized on the accrual basis using the economic resources measurement focus.

4. Allowance for uncollectible accounts

The District provides for accounts receivable that could become uncollectible in the future by establishing an allowance, when necessary, to reduce the carrying value of such receivables to their estimated net realizable value. The District estimates this allowance based on a review of its accounts receivable and its historical collection experience for each type of payor.

5. Inventories

Inventories are stated at the lower of cost or market with cost determined on the first-in, first-out method.

6. Investment income

Investment income on proceeds of borrowing, to the extent not capitalized, is reported as other revenue. Investment income from all other investments is reported as nonoperating revenue.

7. Capital assets

Capital assets are stated at cost. Depreciation of capital assets is provided on the straight-line method over the estimated useful lives of the assets which are substantially in conformity with useful lives established by the American Hospital Association.

The costs of maintenance and repairs are charged to operating expenses as incurred. The costs of significant additions, renewals, and betterments to depreciable properties are capitalized and depreciated over the remaining or extended estimated useful lives of the item or the properties. Gains and losses on disposition of capital assets are included in nonoperating revenues and expenses.

Note A - Description of Reporting Entity and Summary of Significant Accounting Policies - Continued

8. Nonrefundable private room contract fees

The District allows residents to enter into a nonrefundable fee contract for private rooms during their time at the facility. The fees are recorded as other liabilities when received and are amortized to income over the life expectancy of the resident.

9. Income taxes

The District is exempt from federal income taxes under Section 115 of the Internal Revenue Code.

10. Operating revenues and expenses

The District's statement of revenues, expenses, and changes in net position distinguishes between operating and nonoperating revenues and expenses. Operating revenues result from exchange transactions associated with providing health care services, which is the District's principal activity. Nonexchange revenues, including noncapital grants, District tax proceeds, and contributions, are reported as nonoperating revenues. Operating expenses are all expenses incurred to provide health care services, other than financing costs.

11. Grants and contributions

From time to time, the District receives grants and contributions from individuals and private organizations. Revenues from grants and contributions are recognized when all eligibility requirements, including time requirements, are met. Grants and contributions may be restricted for specific operating purposes or for capital purposes. Amounts that are unrestricted or that are restricted for a specific operating purpose are reported as nonoperating revenues. Amounts restricted to capital acquisitions are reported after nonoperating revenues and expenses.

12. Pension plan, deferred outflows, and inflows of resources

The District participates in the Kansas Public Employees Retirement System Plan (KPERS), a cost-sharing multiple-employer defined benefit pension plan. The District uses information provided by KPERS to measure the net pension liability, deferred outflows of resources, and deferred inflows of resources of the KPERS pension plan.

Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as revenue until then.

13. Net position

Net position of the District is classified in three components. "Net position invested in capital assets net of related debt" consists of capital assets net of accumulated depreciation and reduced by the balances of any outstanding borrowings used to finance the purchase or construction of those assets. "Restricted expendable net position" is noncapital net position that must be used for a particular purpose, as specified by creditors, grantors, or contributors external to the District. "Unrestricted net position" is the remaining net position that does not meet the definitions of the other two components of net position.

Note A - Description of Reporting Entity and Summary of Significant Accounting Policies - Continued

14. Net resident service revenue

Net resident service revenue is reported at established charges with adjustments for discounts, charity care, contractual adjustments, and provision for bad debts, including estimated retroactive adjustments under reimbursement agreements with third-party payors.

15. Charity care

The District provides care to residents who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the District does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

16. Cash and cash equivalents

Cash and cash equivalents include all cash and invested cash other than amounts included in assets limited as to use.

17. Reclassifications

Certain reclassifications have been made to the 2021 financial statements to conform with the 2022 presentation. These reclassifications did not affect previously reported net position or the change in net position.

Note B - Assets Limited as to Use

Assets limited as to use consist of assets whose use has been limited by grant guidelines or donors to a specific time period or purpose, assets restricted by the donor for capital acquisitions, and assets limited by an escrow agreement for self-funded unemployment benefits. Assets whose use is limited are invested as follows:

	<u>2022</u>	<u>2021</u>
Certificates of deposit Cash	\$ 25,000 138,776	\$ 25,000 103,377
Total assets limited as to use	\$ 163,776	\$ 128,377

Note C - Charity Care

The amounts of charges foregone for services and supplies furnished by the District under its charity care policy and the related cost during the years ended December 31, 2022 and 2021, were not significant.

Note D - Reimbursement Programs

The District has an agreement with a third-party payor that provides for payments at amounts different from its established charge rates. A summary of the payment arrangements with the third-party payor follows:

Medicaid - Services rendered to Medicaid residents in the long-term care unit are generally reimbursed at prospectively determined rates based upon costs of previous years adjusted for inflation, statewide limits, and other factors. Revenues from Medicaid accounted for approximately 81 percent and 83 percent of the District's net resident service revenue for the years ended December 31, 2022 and 2021, respectively.

Management estimates that there are no amounts due to or from Medicaid at either December 31, 2022 or 2021, related to potential settlements of cost reports.

Note E - Property Taxes

The District's property tax is levied and a lien attaches each November 1 on the assessed value as of the prior January 1 for all property located in the District. Assessed values are established by the County Assessor. The assessed values for property located in the District as of January 1, 2022 and 2021, on which the 2022 and 2021 levies were based were \$15,862,347 and \$16,174,908, respectively.

Property taxes are due in total by December 31 following the levy date, or may be paid in equal installments if paid by December 20 (first installment) and the following May 10 (second installment). The taxes are collected by the County Treasurer and subsequently remitted to the District.

Collection of current year property tax by the County Treasurer is not completed, apportioned, nor distributed to the various subdivisions until the succeeding year, such procedure being in conformity with governing State statutes. Consequently, current year property taxes receivable are not available as a resource that can be used to finance the current year operations of the District and, therefore, are recorded as a deferred inflow of resources in the year levied and recognized as revenue when they become available to pay liabilities.

Note F - Other Investment

In 2021, the District invested \$45,000 for a 25 percent share in the formation of Country Care Hospice, Inc. (Hospice). The Hospice was established by four nursing facilities in south central Kansas, each having an equal 25 percent interest in its operations. In 2022, the District invested \$7,416 in the Hospice. The District's share in undistributed net equity of the Hospice was \$(7,416) and \$(16,022) for the years ended December 31, 2022 and 2021, respectively. Under generally accepted accounting principles, an investment accounted for under the equity method is not recorded as a negative amount, therefore, the District has a carrying value of the Hospice investment of \$0 at December 31, 2022 and 2021.

The District has also advanced \$20,000 to the Hospice which is included in other receivables at December 31, 2022 and 2021, respectively. Management expects this amount to be received from the Hospice in 2023, thus, the receivable is included in current assets as of December 31, 2022.

Note G - Capital Assets

Capital asset additions, retirements, and balances are as follows:

	2022				
	Beginning <u>balance</u>	<u>Additions</u>	Retirements	Ending <u>balance</u>

End of period	\$ 4,605	\$ 6,184

Note I - CARES Act Grants Received

The Coronavirus Aid, Relief, and Economic Security Act, commonly referred to as the CARES Act, resulted in several programs to assist businesses and organizations. Included in the CARES Act were grants provided to health care providers. The purpose of these grants is to pay for health care related expenses and cover lost revenues that are attributable to coronavirus. The amount for which the District will be eligible to recognize as revenue is subject to the terms and conditions of the grant agreements issued with the disbursements. The District recognized \$487,445 of these funds as nonoperating revenues during the year ended December 31, 2021.

Note J - Deposits with Financial Institutions

Kansas statutes authorize the District, with certain restrictions, to deposit or invest in open accounts, time deposits, certificates of deposit, repurchase agreements, U.S. Treasury bills and notes, and the State Treasurer's investment pool. Also, statutes require that financial institutions pledge securities with a market value equal to total deposits in excess of F.D.I.C. coverage at any given time and the securities pledged be deposited with a Kansas state or national bank or trust company, the Federal Reserve Bank, or the Federal Home Loan Bank.

The carrying amount of the District's deposits with financial institutions was \$2,054,728 and the bank balance was \$2,230,056 at December 31, 2022. The bank balance is categorized as follows at December 31, 2022:

Amount insured by the F.D.I.C.	\$ 422,309
Amount insured by the N.C.U.S.I.F. \$250,000 - limited to bank balance	1,383
Uncollateralized (collateralized with securities held in safekeeping under joint custody receipt by an authorized depository other than the pledging financial institution's trust department, but	
not in the District's name)	1,806,364
	\$ 2,230,056

The District's bank deposits are included in the financial statements under the following categories:

Cash and cash equivalents Assets limited as to use	\$ 1,890,952 163,776
Total bank deposits	\$ 2,054,728

Note K - Defined Benefit Pension Plan

Plan description

The District participates in the Kansas Public Employees Retirement System (KPERS), a cost-sharing multiple-employer defined benefit pension plan as provided by K.S.A. 74-4901, et. seq. Substantially all employees of the District are eligible to participate in KPERS. KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Kansas law establishes and amends benefit provisions. Substantially all public employees in Kansas are covered by KPERS. Participation by local political subdivisions and entities is optional, but irrevocable once elected. KPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to KPERS (611 South Kansas Avenue, Suite 100, Topeka, Kansas 66603-3869) or by calling 1-888-275-5737.

Benefits

Benefits are established by statute and may only be changed by the Kansas Legislature. Members with ten or more years of credited service, may retire as early as age 55, with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with ten years of credited service, or whenever a member's combined age and years of credited service equal 85 "points."

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, members may withdraw their contributions from their individual accounts, including interest. Members who withdraw their accumulated contributions lose all rights and privileges of membership. For all pension coverage groups, the accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74-4922.

Members choose one of seven payment options for their monthly retirement benefits. At retirement, a member may receive a lump-sum payment of up to 50 percent of the actuarial present value of the member's lifetime benefit. His or her monthly retirement benefit is then permanently reduced based on the amount of the lump sum. Benefit increases, including ad hoc post-retirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas. For all pension coverage groups, the retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74-4922.

Contributions

Member contributions are established by state law, and are paid by the employee according to the provisions of Section 414(h) of the Internal Revenue Code. State law provides that the employer contribution rates be determined based on the results of an annual actuarial valuation for each of the three statewide pension groups. The contributions and assets of all groups are deposited in the Kansas Public Employees Retirement Fund established by K.S.A. 74-4921. All of the retirement systems are funded on an actuarial reserve basis.

KPERS has three benefit structures and funding depends on whether the employee is a Tier 1, Tier 2, or Tier 3 member. Tier 1 members were hired before July 1, 2009, Tier 2 members were first employed on or after July 1, 2009, and Tier 3 members were first employed on or after January 1, 2015. Kansas law established the KPERS member-employee contribution rate at 6 percent of covered salary for all members for 2022 and 2021, respectively. The employer rates established by statute at December 31, 2022 and 2021, are 8.90 percent and 8.87 percent, respectively. The District employer contributions to KPERS for the years ended December 31, 2022 and 2021, were \$146,807 and \$142,776, respectively, equal to the statutory required contributions for each year.

Note K - Defined Benefit Pension Plan - Continued

Employer and nonemployer allocations

Although KPERS administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense are determined separately for each of the following groups of the plan:

- State/School
- Local
- Police and Firemen
- Judges

To facilitate the separate (sub) actuarial valuations, the System maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The District is included in the local group. The allocation percentages presented for each group in the schedule of employer and nonemployer allocations are applied to amounts presented in the schedules of pension amounts by employer and nonemployer. The allocation percentages for the District's share of the collective pension amounts as of December 31, 2022 and 2021, are based on the ratio of each employer's contributions to total employer and nonemployer contributions of the group for the years ended June 30, 2022 and 2021, respectively. The contributions used exclude contributions made for prior service, excess benefits, and irregular payments. As of December 31, 2022, the District's proportion was 0.084 percent which was a decrease of 0.009 percent from its share at December 31, 2021.

Net pension liability

At December 31, 2022 and 2021, the District reported a liability of \$1,675,166 and \$1,112,491, respectively, for its proportionate share of the net pension liability.

Actuarial assumptions

The total pension liability was determined by actuarial valuations as of December 31, 2021 and 2020, which were then rolled forward to June 30, 2022 and 2021, using the following actuarial assumptions:

<u>Actuarial assumptions</u>	<u>2021</u>	<u>2020</u>
Price inflation	2.75%	2.75%
Salary increases, including wage increases	3.50% - 12.00%	3.25% - 12.00%
Long-term rate of return net of investment		
expense and including price inflation	7.00%	7.25%

For 2021 and 2020, mortality rates were based on the RP 2014 Mortality Tables, with age setbacks and age set forwards as well as other adjustments based on different membership groups. Future mortality improvements are anticipated using scale MP-2016.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of

Note K - Defined Benefit Pension Plan - Continued

return by the target asset allocation percentage. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocations as of June 30, 2022, are summarized in the following table:

<u>Asset class</u>	Long-term target <u>allocation</u>	Long-term expected real rate of return
U.S. Equities	23.50 %	5.20 %
Non-U.S. Equities	23.50	6.40
Private Equity	8.00	9.50
Private Real Estate	11.00	4.45
Yield driven	8.00	4.70
Real return	11.00	3.25
Fixed Income	11.00	1.55
Short-term investments	4.00	0.25
Total	<u>100.00</u> %	

Discount rate

The discount rates used to measure the total pension liability as of December 31, 2021 and 2020, were 7.00 and 7.25 percent, respectively. The State, School, and Local employers do not necessarily contribute the full actuarial determined rate. Based on legislation passed in 1993, the employer contribution rates certified by the System's Board of Trustees for these groups may not increase by more than the statutory cap. The statutory cap for the year ended June 30, 2022, was 1.2 percent.

Sensitivity of the net pension liability to changes in the discount rate

The following table presents the net pension liability of the pension plan as of June 30, 2022, calculated using the discount rate of 7.00 percent, as well as what the pension plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	Current				
	1% decrease (6.00%)	discount rate (7.00%)	1% increase (8.00%)		
District's share of net pension liability	\$ 2,406,430	\$ 1,675,166	\$ 1,065,917		

Pension expense

For the years ended December 31, 2022 and 2021, the District recognized pension expense of \$208,370 and \$94,451, respectively, which includes the changes in the collective net pension liability, projected earnings on pension plan investments, and the amortization of deferred outflows of resources and deferred inflows of resources for the period.

Note K - Defined Benefit Pension Plan - Continued

Deferred outflows of resources and deferred inflows of resources

A summary of the collective deferred outflows of resources and deferred inflows of resources at December 31, 2022 and 2021, are included in the tables below. Experience gains/losses and the impact of changes in actuarial assumptions or other inputs, if any, are recognized over the average expected remaining service life of the active and inactive plan members at the beginning of the measurement period. Investment gains and losses are recognized over a fixed five-year period.

	<u>2022</u>	<u>2021</u>
Deferred outflows of resources Differences between expected and actual experience Change of assumptions Net difference between projected and actual earnings on pension plan investments Changes in proportion and differences between Hospital District contributions and proportionate	\$ 63,362 267,766 141,803	\$ 43,913 218,995
share of contributions	43,932	78,377
Employer contributions subsequent to the measurement date	74,418	78,349
Total deferred outflows of resources	\$ 591,281	\$ 419,634
Deferred inflows of resources Differences between expected and actual experience Net difference between projected and actual earnings on pension plan investments Changes in proportion and differences between Hospital District contributions and proportionate	\$ 3,003	\$ 10,073 395,042
share of contributions	96,044	22,989
Total deferred inflows of resources	\$ 99,047	\$ 428,104

The following table provides the deferred outflows of resources and deferred inflows of resources as of December 31, 2022, that will be recognized in pension expense in future years:

Year ended	cont subs	Employer contributions subsequent to the measurement		contributions net deferred subsequent to outflows/(inflows)				
December 31,		<u>date</u>		by year	<u>Total</u>			
2023 2024 2025 2026 2027	\$	74,418	\$	125,311 116,784 43,268 130,010 2,443	\$	199,729 116,784 43,268 130,010 2,443		
	\$	74,418	\$	417,816	\$	492,234		

Note L - Budgetary Information

Kansas statutes require that an annual operating budget be legally adopted for the District. The statutes provide for the following sequence and timetable in the adoption of the legal annual operating budget:

- 1. Preparation of the budget for the succeeding calendar year on or before August 1.
- 2. Publication in local newspaper of the proposed budget and notice of public hearing on the budget on or before August 5.
- 3. Public hearing on or before August 15, but at least ten days after publication of notice of hearing.
- 4. Adoption of the final budget on or before August 25.

The statutes allow for the governing body to increase the originally adopted budget for previously unbudgeted increases in revenue other than ad valorem property taxes. To do this, a notice of public hearing to amend the budget must be published in the local newspaper. At least ten days after publication, the hearing may be held and the governing body may amend the budget at that time. There were no amendments to the budget for the years ended December 31, 2022 and 2021.

The statutes permit transferring budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Actual expenditures for the year ended December 31, 2022, on the modified accrual basis of accounting and encumbrances were \$4,104,986 as compared to the legally adopted budgeted expenditures of \$5,258,000. Actual expenditures for the year ended December 31, 2021, on the modified accrual basis of accounting and encumbrances were \$3,605,557 as compared to the legally adopted budgeted expenditures of \$4,873,000.

All legal annual operating budgets are prepared using the modified accrual basis of accounting, modified further by the encumbrance method of accounting. Revenues are recognized when cash is received. Expenditures include disbursements, accounts payable, and encumbrances. Encumbrances are commitments by the municipality for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. All unencumbered appropriations lapse at year-end.

A legal operating budget is not required for capital projects funds. Spending of funds, which are not subject to the legal annual operating budget requirement, is controlled by federal regulations, other statutes, or by the use of internal spending limits established by the governing body.

Note M - Risk Management

The District is insured with respect to professional and general liability risks under an insurance policy issued by commercial insurers on a claims-made basis with a limit of \$1,000,000 per occurrence up to an annual aggregate of \$3,000,000 for all claims made during the policy year. Coverage is currently in effect through November 1, 2023. The District intends to renew this coverage on that date and is aware of no reason why such coverage would be denied at that time. Management believes that if any claims are asserted for incidents occurring through December 31, 2022, such claims would be settled within the limits of insurance coverage.

In addition to the risk disclosed elsewhere in these financial statements and notes thereto, the District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District purchases commercial insurance for these risks. Settled claims have not exceeded this commercial coverage in any of the past three years.

Note N - Risks and Uncertainties

On March 11, 2020, the World Health Organization designated coronavirus (COVID-19) as a global pandemic. Resident volumes and revenues for the District's services have been negatively impacted by the pandemic. While many restrictions have eased and operations are beginning to return to normal, the pandemic continues to affect operations. The impact on future operations will be driven by several factors many of which are uncertain at this time. Management is focused on managing this uncertainty as it works to reopen its campus to the public. The CARES Act and subsequent legislation enacted by the federal government has provided much needed funding during these uncertain times. See Note I pertaining to the CARES grant funds.

Note O - Subsequent Events

The District has evaluated subsequent events through April 4, 2023, which is the date the financial statements were available to be issued.
