2016

SHOP TRAINING

Technical, Sales and Management Programs for:

- Technicians
- Service Advisors
- Shop Managers & Owners
Welcome

Overview

Welcome to NAPA Autotech! Thank you for your interest in our technician and shop management training programs. The NAPA name means quality parts and services. It also means top quality training programs to help you build a more successful auto repair business.

This overview contains the best selection of what NAPA Training and other providers have to offer. Many people contribute to the success of our training programs:

- NAPA Autotech
- NAPA Suppliers and Manufacturers
- The Waterhouse Group
- RLO Training
- Automotive Training Institute (ATI)
- Elite™

Everyone has their preference about how they like to learn skills and gain knowledge. We ensure that courses are offered in a variety of formats so each person can maximize their learning.

- Hands-on classes, seminars, and clinics
- Live and recorded instructor-led webinars
- Web-based courses
- DVDs
- Manuals
- ClassPass

Mission Statement

The mission of NAPA Autotech is to provide automotive aftermarket technicians with career development opportunities through structured, disciplined, measurable, high-quality technical instruction. This instruction will enhance understanding of vehicle systems, increase first-time repair capability and increase customer satisfaction while contributing to profitability of NAPA and its customers.

What’s Inside

Where Do I Begin? .................................................................3
NAPA AutoCare Membership Training Benefits ...................4
Technician Skills Assessment .................................................5
Technician Instructor-Led Classes ........................................6-7
NAPA Autotech eLearning Subscription ...............................8-9
NAPA Autotech ClassPass Program ....................................10
ASE Certification Test Preparation .......................................11
Tech’s Edge ...........................................................................12
Service Advisor Training ......................................................13
NAPA Manufacturer and Supplier Training .........................14
Shop Management Training ...............................................15

Satisfaction Policy

Your satisfaction with NAPA’s training materials and programs is our goal. If, for any reason you are not 100% satisfied, please let us know. We offer a money back guarantee on all materials and sessions.

NAPA Training Service Center
P: 800-292-6428 | E: support@napaautotech.com
Where Do I Begin?

Your Training Plan

1. Start with the Skills Assessments to measure how much a technician knows about an automotive repair topic. There is one for Service Advisors, too! See page 5 for more details.

2. Build a solid foundation with multi-day hands-on classes and eLearning courses for newer technicians.

3. Take ongoing training using eLearning and our 4-hour evening training sessions. See page 6-9 for more details.

**NAPA Autotech Training Website**

Your one-stop training source on the Internet is [www.napaautotech.com](http://www.napaautotech.com). The website is available 24/7 and is the most cost-effective way to train your employees. Courses are regularly being added to the site. Use the website to do the following:

- Take online eLearning courses anytime, anywhere
- Learn about new offerings and check availability of classes
- Register yourself and employees for classes
- Order self-study materials
- Receive emails to make you aware of upcoming training events, new classes, online courses, and webinars
- Managers can maintain technician training history records
- NAPA Autotech ClassPass Program automates class registration and offers additional after-class materials and support

**Your Training Plan**

1. Start with the Skills Assessments to measure how much a technician knows about an automotive repair topic. There is one for Service Advisors, too! See page 5 for more details.

2. Build a solid foundation with multi-day hands-on classes and eLearning courses for newer technicians.

3. Take ongoing training using eLearning and our 4-hour evening training sessions. See page 6-9 for more details.

**Stay current with ongoing training**

**Ongoing Training**

*Experienced Employees and Managers – Webinars and eLearning*

**Build a foundation with fundamentals**

**Core Foundation Courses**

*New & Experienced Technicians – 16-32 hours – Hands-on*
Your 2016 training benefits include:

1. If an AutoCare Center subscribes to the DC-sponsored Schedule My Success classes, receive the entire eLearning package! **FREE**

2. ClassPass - Easy class registration process and online reference materials related to each class attended

3. Unlimited use of Technician Skills Assessments

4. Online library of Tech’s Edge Newsletters

5. Training Management Tool - employee progress, certifications, transcripts

6. Otherwise, AutoCare Center receives an eLearning sample: Safety Series
   - Best Practices for Proper Hoist Usage
   - Hand Safety Best practices
   - Hazardous Communication Best Practices
   - Lifting and Lowering Best Practices
   - Lockout/Tagout Best Practices
   - Parking Lot, Bay Area Navigation and Vehicle Safety
   - Safe Driving Best Practices
   - Shop Safety
   - Tool Usage & Maintenance
   - Tire Installation That’s Good to Go

7. Can purchase the eLearning Subscription for $294 ($498 value)

---

**Training Best Practices**

- Establish a training plan
  - Make someone the lead person for the shop to coordinate training

- Work toward a minimum of 40 hours per year - 30 hours classroom / 10 hours eLearning

- Require and compensate training
  - Make training part of the requirements of the job

- Encourage and recognize training completions
  - Hang certificates

---

Use single sign-on through [www.NAPAautocare.com](http://www.NAPAautocare.com)
**Technician Skills Assessment**

**Identify Opportunities to Increase Productivity**

Visit www.napaautotech.com and let the Technician Skills Assessment identify areas where training can increase your technicians’ productivity.

- Measures knowledge in:
  - Air Conditioning
  - Diesel
  - Alignment, Steering, & Suspension
  - Electrical
  - Hybrid Vehicle Safety
  - Batteries/Starting & Charging
  - New Technician Essentials
  - Brakes/ABS
  - Service Sales

- Includes multiple choice and ASE type questions covering 9 automotive repair topics
- Only takes approximately 15 minutes to complete an assessment
- Use all assessments for everyone in a shop or individually

**No Passing or Failing Grades**

Technicians and shop owners can view a detailed Personal Development Plan showing an inventory of each technician’s knowledge. If needed, they receive recommendations on which training courses will help improve performance.

For more information visit www.napaautotech.com, call 800-292-6428, or talk to your NAPA AUTO PARTS representative.
NAPA Autotech Training is First Class:

- Courses to develop technicians of all skill levels
- Up-to-date topics for almost every make and model
- Best classroom training available!
- All classes are 100% technical and taught by experienced instructors
- Each class has ClassPass supported materials for after-class reference
- Instructors are ASE Master Certified Technicians and receive Excellent ratings by their students

Wherever you are in your career, NAPA Autotech has a course for you!

NEW Classes

1st Half 2016
- Complete Fuel System Analysis - Ford Power Stroke Engines
- Powertrain Diagnostics - 4X4, AWD and Axle/Differential
- Diagnostic Specialist - Misfire
- Sealing Technology and Techniques
- A/C Diagnostics and Procedures

2nd Half 2016
- Brake Technology Diagnosis & Repair
- Next Gen Maintenance
- CAN BUS Communication and Diagnostics
- Cummins Fuel System Diagnostics and Update

Additional Elective Classes

- Air Conditioning Diagnostics & Procedures
- Electrical World Class Diagnostics
- Ford 6.7 PowerStroke Diagnostic Series I
- Fuel System Complete Analysis
- Powertrain Diagnostics - Transmissions
- Prius Diagnostics
- Diagnostics Specialist
- Dynamic Engine Testing
- Volkswagen TDI Diesel Diagnostics

Core Skills Foundation - Multi-day Courses

- Automotive Air Conditioning
- Brake Systems
- Electrical Systems
- Steering and Suspension Systems

Fleet Training

- Ford Power Stroke Diesel Engine Advanced
- GM Duramax Diesel Engine Advanced

Hybrid Series

- Hybrid Safety – First Responders

Light Truck Diesel Series

- Dodge Cummins Light Truck Turbo Diesel
- Dodge Cummins 6.7 Light Truck Turbo Diesel
- Dodge Cummins Light Truck Diesel Enhanced Driveability
- Ford 7.3 Light Truck Diesel
- Ford 6.4 Twin Turbo Diesel

Heavy Duty Truck Series

- Allison Driveability Diagnostics
- Allison Overhaul
- Heavy Duty Air Brakes Diagnostics
- Heavy Duty Air Conditioning Service
- Heavy Duty Electrical System
- International Engine Control Systems

More course topics available!
NEW Classes

1st Half 2016

Complete Fuel System Analysis – Ford PowerStroke Engines – Course No: 6553
• Visual inspection for contamination and suspended water
• Bio-fuel content
• Specific gravity
• Algae or microbial growth (bugs)
• Recognize Asphaltene issues
• Complete fuel system understanding which will lead to faster diagnostics
• Time saving techniques for testing fuel systems
• Proven effective tools & equipment demonstrated through videos and discussion

Powertrain Diagnostics – 4X4 and AWD – Course No: 6564
• Ford, GM, Chrysler and Jeep transfer cases
• Push button shift on the fly
• Vacuum actuated hubs
• Shift motors
• Front axle actuators
• Full time 4-Wheel drive, AWD
• Scan data analysis
• Code diagnostics
• Lab scope
• Current probe
• The HOOK
• DVOM
• Vacuum testing

Diagnostic Specialist – Misfire – Course No: 6563
• Misfire techniques
• Engine integrity
• Crankcase pressure waveforms
• Secondary ignition analysis
• Pressure pulse analysis
• Exhaust pulse analysis
• Exhaust back pressure testing
• Coil and ignition module testing
• Lean and rich conditions
• Injector balance testing

Sealing Technology and Techniques – Course No: 6560
• How many rear main seals does it take to fix an engine with excessive blow by?
• How much blow by is too much?
• Can your machine shop sabotage your head job with the wrong roughness average?
• Do I have a combustion leak into the coolant system or a stuck thermostat?
• Anybody got any way to leak test this motor before I install it?
• All O-rings are the same, right?
• Head gasket testing and repair
• Head bolt removal
• Seal installation including transmission input seals
• Choosing the right O-ring or gasket for each application
• Matting surface preparation
• Using innovative testing procedures
• Using the equipment you already own to its full potential
• Full floating rear end sealing techniques
• Using special seal installation tools

Air Conditioning Diagnostics & Procedures – Course No: 6528
• Refrigerant Update
  – HFO1234y
• Technology Changes
  – Variable compressors
  – Clutch-less compressors
  – IHX heat exchanger
  – Ejector
  – Thermal storage evaporators
• Advanced Temperature Testing
  – “At The Fender” check sheets
• Latest equipment discussion
• Proper flushing procedures
• Leak testing improved
• “Start/Stop” effects on A/C system
• Hybrid technology

2nd Half 2016

Brake Technology Diagnosis & Repair – Course No: 6559
• Brake technology update
• Remember the basics
• Fluid flushing procedures
• Scan tool diagnostics
• Vehicle stability control systems
• Regenerative braking
• Collision avoidance systems

Next Gen Maintenance – Course No: 6558
• Understanding which systems must not be overlooked
• Proper fluid selection and testing
• Direct Injection systems maintenance demands
• Avoiding the dreaded transmission trap
• Verifying improvement after the procedure
• Coverage of late model carbon issues and cleaning routines
• Ride control systems service
• When to shorten service intervals
• Learn what you been missing

About Our Instructors

• ASE Master Certified Full-time Instructors
• Geographically based to maximize relationships with leaders and students
• Provide interactive, engaging, and jam-packed sessions
• Required to continue training to stay abreast of industry changes
• Years of automotive industry experience!

CAN BUS Communication and Diagnostics – Course No: 6565
• What do I expect to see when I hook up to the CAN Bus with my Labscope?
• How many different communication protocols are there?
• Who is talking on the Bus anyway?
• What do I do when the scan tool will not communicate?
• Can I cause a communication problem?
• What steps should I take when I have a configuration error?
• A basic understanding of what you need to know about Bus systems
• Isolating modules for quicker diagnostics
• Tech tips from real world case studies
• Discussion on proper techniques and the importance of terminal integrity
• How to deal with each module one-on-one
• Precautions that will save you mistakes

Cummins Fuel System Diagnostics and Update – Course No: 6557
• Cummins supply side volume output
• High pressure pump output
• Injector function
• Injector return circuit
• Turbo charger operation
• No start
• Hard start
• Extended crank times
• Rough idles

Additional elective OE classes are available:
• Anti-lock Brake, Stability Control, and Traction Control Systems
• Engine Management Systems
• Advanced Fuel Systems including Gasoline Direct Injection
Do your shop technicians need training on one or more specific automotive systems?

NAPA’s eLearning all-inclusive subscription is organized by automotive system to help target specific training needs. You get all of the available courses packaged together for one great price! Don’t forget about the related ASE test preparation courses that help you prepare for the ASE tests!

NAPA Autotech has been accredited by ASE’s Continuing Automotive Service Education program. We were reviewed against industry standards and approved by peers. Earn Continuing Education Units (CEUs) credit with the courses. Technicians can be assured they are taking quality training!

Subscription is for all technicians in a shop unlimited use for ONE YEAR!

Features
- Saves time and money
- Accessible from any internet connection 24/7
- Immediately train employees
- Conveniently pay using a credit card

Benefits
- Increased employee productivity and safety
- Increased customer loyalty with excellent customer service skills
- Improved shop image through knowledge and professionalism
- Build the high-performing shop team you deserve!
- Prove your expertise to customers with ASE certification

For more information, go to www.napaautotech.com or call 800-292-6428
## eLearning Courses

### Testing / Assessments

**ASE Test Preparation (Many in Spanish)**
- A1-A9 Automotive Series
- B2-B6 Collision Series
- C1 Service Consultant
- G1 Auto Maintenance & Light Repair
- L1 Advanced Engine Performance
- P2 Automotive Parts Specialist
- T1-T8 Truck Series
- X1 Exhaust Systems

### Assessments
- A/C
- Alignment/Steering & Suspension
- Batteries, Starting & Charging Systems
- Brakes / ABS
- Diesel
- Electrical
- Hybrid Vehicle Safety
- New Technician Essentials
- Service Sales

### Service Essentials for New Hires

**Customer Service**
- Customer Satisfaction
- Professionalism

**Safety**
- Best Practices for Proper Hoist Usage
- Hand Safety Best practices
- Hazardous Communication Best Practices
- Lifting and Lowering Best Practices
- Lockout/Tagout Best Practices
- Parking Lot, Bay Area Navigation & Vehicle Safety
- Safe Driving Best Practices
- Shop Safety
- Tool Usage & Maintenance
- Tire Installation That’s Good to Go

### Technician – New or Experienced

**Steering, Suspension & Alignment**
- ASE A4 Autotech Test Preparation Series
- Modern 4-Wheel Alignment
- Ride and Vibration
- Steering & Suspension Inspections
- Steering & Suspension System Theory
- Tire Pressure Monitoring Systems

**Brakes (Many in French & Spanish)**
- ASE A5 Autotech Test Preparation Series
- Basic ABS Troubleshooting and Service
- Brake System Inspections
- Brake System Service
- Brake System Theory
- Diagnosing Antilock Brake Systems

**Diesel**
- 21st Century Diesels
- Cummins Diesel
- Diesel No Start, No Code Diagnostics – Dodge Ram Cummins – NEW
- Diesel No Start, No Code Diagnostics – Ford 6.0L Power Stroke – NEW

**Electrical / Electronic Systems**
- Introduction to Automotive Electrical/Electronics
- Airbags Service and Repair
- Electrical World Class Diagnostics Online – NEW
- Sensor Testing and Waveform Analysis – 1 – NEW
- Sensor Testing and Waveform Analysis – 2 – NEW
- Starting and Charging System Service
- Starting and Charging System Theory
- Tips and Tricks for Charging System Diagnostics
- Using Your Digital Multimeter

**Engine Performance & Diagnostics**
- Automotive Computer Operations
- Basics of Fuel Injection Systems
- Diagnostic Trouble Codes for OBD II
- Distributorless Ignition Systems: Spark Control
- Electrical - Practical Scope Testing – NEW
- Electrical - Voltage Drop – NEW
- EVAP Guru - The Basics – NEW
- EVAP Guru Chrysler System – NEW
- EVAP Guru Ford Diagnostics – NEW
- EVAP Guru Ford System Operation – NEW
- EVAP Guru General Motors System – NEW
- Flex Fuel Service
- Fuel Delivery Systems
- Ignition System Maintenance
- OBD II Diagnostics
- OBD II Major Monitors
- PCM Diagnosis and Repairs
- Troubleshooting Distributorless Ignition Systems
- Understanding Sensors and Diagnostic Procedures
- Using the Low Amp Probe for Advanced Diagnostics

**Heating & Air Conditioning**
- Air Conditioning System Service
- Air Conditioning System Theory
- Automatic Temperature Control
- Belts and Hoses
- Catastrophic A/C Failures: What to Do
- Critical Air Conditioning Service Techniques

**Hybrid**
- Introduction to Hybrid Systems – NEW
- Hybrid and Electric Vehicle Safety – NEW
- Hybrid Maintenance and Service Part 1 – NEW
- Hybrid Maintenance and Service Part 2 – NEW
- Prius Diagnostics Part 1 – NEW
- Prius Diagnostics Part 2 – NEW

**Preventive Maintenance Services**
- Air and Cabin Filters
- ASE Intro to Auto Service Series:
  - Preparation and Documentation
  - Fluids, Filters, Belts and Hoses Inspection and Service
  - Suspension, Tire and Brake Inspection and Service
  - Body, Battery, Charging and Electrical systems Inspection and Service
  - Final Quiz

**Management**
- Microsoft Office
  - Windows 7 (Basic & Advanced) & 8 & 8.1 (Basic)

**Managing Staff**
- Leadership Development Series
  - Assessing and Managing Performance
  - Delegating for Growth
  - Effective Coaching Skills
  - Giving and Receiving Feedback
  - Implementing Strategy
  - Interviewing & Hiring
  - Leading and Motivating
  - Running A Meeting

**Self Development Series**
- Art and Science of Communication
- Capitalizing On Change
- Cultivating Customer Loyalty
- Emotional Intelligence
- Making a Presentation
- Managing Difficult Interactions
- Managing Your Time
- Persuading and Influencing Others
- Solving Business Problems

**Business Management**
- Service Sales
  - Air Conditioning for Service Sales
  - Alignment for Service Sales
  - Brakes for Service Sales
  - Communication for Service Sales

**Shop Management - Workflow**
- Maximizing Your Labor Profit Opportunity
- Your Repair Labor Rate
- Diagnostic Labor Systems
- Selling Diagnosis Profitably
- Technician Labor Management System (TLMS)
- Timekeeping Systems
- Parts Management Systems
- Parts Matricing

**Shop Management - Production**
- Building Value with Your Customers
- Daily Appointment Schedule and Production Tracker
- Customer Write-Up Procedures
- Rack Workflow System I
- Rack Workflow System II
- Visual Vehicle Inspection Report
- Preventive & Scheduled Maintenance Programs
- Production Tracking
NAPA Autotech ClassPass Program

ClassPass Offers Easier Class Registration and Additional Benefits!

NAPA Autotech is pleased to offer a class participation program called ClassPass. This program is designed to:

- Ease Class Registration Processes
- Provide Additional After-Class Support
  - Job Aids
  - Tools & Equipment
  - Link to Carlyle Tool Club
- Award Additional Benefits

To stay competitive in today’s marketplace, technicians must have superior skills and knowledge to perform efficiently and effectively in their jobs. The NAPA Autotech ClassPass program provides participants with supplemental materials that reinforce what they have learned in a class. This will increase their knowledge and enable them to accurately and efficiently diagnose and repair today’s complex vehicles.

If you have any questions about the ClassPass program, please contact your NAPA Store or DC Representative.

Fender Ready Reference Materials!
ASE Certification
Test Preparation

Fast, Convenient, and Low Cost
Online ASE Technician Certification Test Preparation
ASE test prep courses provided by Cengage Learning can be purchased individually or two at a time with a discount. Everyone in your shop can use the online courses any time of the day or night - as many times as they like. Get the latest ASE preparation information for ASE certification tests.

Included in the All-in eLearning Subscription

It’s easy to get started! After purchasing, simply go online and click ASE Certification Test Preparation and start building your future!

More Opportunities to Certify Over 450 ASE Test Center Locations
Test all throughout the year, including weekends!

Visit www.ase.com/napaauto for more details

Check out our new page!

Paper Manuals
NAPA also offers paper self-study ASE test preparation manuals. These manuals provide detailed test preparation content and sample test questions. They allow you to review the content at your own pace.

All manuals are available for ordering on the website.

Many in Spanish!

Cengage Learning Manuals are available from NAPA:
• A1-A9 Automotive Series
• B2-B6 Collision
• C1 Service Advisor
• G1 Auto Maintenance and Light Repair
• H2-H7 Transit Buses
• L1 Advanced Engine Performance
• P1-P4 Automotive Parts Specialist
• S1-S7 -School Buses
• T1-T8 Truck Series
• X1 Exhaust Systems
Tech’s Edge is a useful, fresh, full-color, easy-to-read 4-page monthly newsletter that is full of important diagnostic tips, tools, and techniques.

Enroll now to get 24/7 online access to this publication every month. Save each electronic issue and build a library for your shop. That way your technicians can easily reference important automotive technology from previous issues that relate to the systems they are working on.

Online Only
Available 24/7 online at www.napaautotech.com
Build Your Own PDF Library of Tech’s Edge Issues!
NAPA Autotech now offers a wide range of Service Advisor training in a variety of formats that can be grouped together to best fit your training needs. Typically presented in a 2-day / 16-hour class.

**Equip a Service Advisor with communication skills and techniques to build a more trusting relationship with customers.**

- Better phone and customer greeting skills
- Sales skills including core selling
- 6 steps to better sales

---

### Air Conditioning for Service Sales

**Goal:** Equip a sales person with enough air conditioning systems knowledge and sales tips to allow more customers to say “yes” to recommended repairs.

- Automotive air conditioning system components and operation
- Air conditioning vocabulary, terminology and definitions
- Typical air conditioning service and repair issues
- Proper communication of total system service as opposed to component replacement
- Relating current conditions to possible future problems (cost savings)

### Maintenance for Service Sales

**Goal:** Equip a sales person to consult with the customer about their maintenance needs.

- Prioritize upcoming services
- Explain the why’s for the service requirements/needs
- Set up regular, ongoing appointments
- Use available NAPA AutoCare shop management programs (e.g., NAPA Service Advisor, Digital Vehicle Inspection)

### Brakes for Service Sales

**Goal:** Equip a sales person with enough brake systems knowledge and sales tips to allow more customers to say “yes” to recommended repairs.

- Brake system components and operation.
- Brake system vocabulary, terminology and definitions
- Typical brake system service and repair issues
- Proper communication of total system service as opposed to component replacement
- Relating current conditions to possible future problems (cost savings)

### Alignment, Steering, Suspension for Service Sales

**Goal:** Equip a sales person with enough wheel alignment system knowledge and sales tips to allow more customers to say “yes” to recommended repairs.

- Automotive steering and suspension system components and operation
- Vocabulary, terminology and definitions
- Typical steering and suspension system service and repair issues
- Proper communication of total system service as opposed to component replacement
- Relating current conditions to possible future problems (cost savings)

### Automotive Systems

- **English-to-Spanish Guide; Part #TRN-AS22S**
  - 8.5 x 11, Laminated spiral bound book with colorful illustrations translating automotive components and systems

---

For more information, go to [www.napaautotech.com](http://www.napaautotech.com)
NAPA Manufacturers and Suppliers offer a variety of training that includes courses for Technicians of all skill levels, Service Advisors, Managers and Shop Owners. These courses are organized by type, so that you can pick the training that best fits your needs. Contact your NAPA AUTO PARTS store for more information.

### Mitchell1 ProDemand
- OnDemand5.com is the Internet edition of Mitchell 1’s legendary OnDemand5 Repair and Estimating desktop software program.
- Updated monthly, making it the most current and complete repair information database available.
- Features the most current and complete TSB repository available.
- Powerful TSB Search Engine allows you to search all TSBs for a vehicle on a keyword or phrase.

### IDENTIFIX
IDENTIFIX is a great online resource that provides the latest information for diagnosing and fixing specific automotive repair issues. It allows you to search by options like the system or symptom you are dealing with, and then provides the latest techniques and tools for fixing the problem.

Today, training on the tasks of managing your business and your employees is more important than ever. Automobile designs have evolved and must require less parts, more equipment, and greater talent to repair them. Take time to improve your skills of running your business and you will experience more customer satisfaction and profits.

The Waterhouse Group has offered accounting, tax preparation, and training for repair shops and parts stores for years. We understand the repair business, know the issues you face, and provide solutions for those issues in our courses.

**Training Courses Available**
- Financial Health Check
- Financial Management for the Auto Repair Business
- Supper Club
- The Service Manager Plus... for the Auto Repair Business
- Team Technician

- Shop Sales
- Marketing
- Hiring and Managing
- Profit Building
- Coaching and Training

[www.eliteworldwidestore.com](http://www.eliteworldwidestore.com)

For more than 30 years, we’ve been helping thousands of automotive repair shop owners just like you increase their profits, reduce stress, and grow their businesses into the companies of their dreams.

Whether you need training, coaching or a state-of-the-art business model, we’ve got systems to help make the changes you want right away.

- Cash Profits Boot Camp
- Tire Profits Boot Camp
- Consulting Services

**NAPA Installer Connectivity Training**

**Training Courses Available**

**Industry Leading Estimating and Shop Management for Over 25 Years**

NAPA TRACS has the right tool for the job, so if it’s estimating, shop management, technical information, CRM or accounting you need, TRACS has a product that fits. TRACS users may take advantage of the following training resources:

- Onsite installation and training – right at your shop
- Live 800 # TRACS technical support 6 days a week
- Live, online web training sessions several times a week on a variety of TRACS topics
- Access to over 100+ online training video’s
- Free TRACS user group meetings
- Go to NAPATRACS.com and signup for a free, no obligation demo today!

**NAPA PROLINK**

Fast, Easy, Accurate

There’s no easier to use parts buying website than NAPA PROLink! Thousands of installer customers each day rely on PROLink to accurately identify vehicles, quickly search and order the NAPA parts they need to keep their bays turning. If you want a faster, more accurate and easy way to do business with your NAPA store, ask them to get you setup and trained on PROLink. The best part is - it’s free and constantly being updated with new features and enhancements aimed at helping you streamline workflow and improve shop efficiency.

- Call your local servicing NAPA Store or go to NAPAPROLink.com and click “Register” to get started today!

**NAPA Integration Partners**

**NAPA Connectivity for 3rd Party Shop Management Systems**

When you integrate NAPA cataloging and eProcurement into your estimating and shop management system, it saves you time, keystrokes and creates efficiency. The NAPA Integration Partner website - NAPAIBiz.com — is a one-stop resource that helps you connect your shop management system to your NAPA store. A complete listing of all Integration Partners along with set-up instructions and support numbers may be found on the site, and NAPA Commercial Systems Support is always just a phone call away at 888-SET-NAPA (888-738-6272) anytime you need help. A partial listing of NAPA Integration Partners include:

- NAPA TRACS
- R.O. Writer
- Epicor (Activant) users

ATMC Award Winning Courses

NAPA Autotech has received the National Excellence in Training Award from the Automotive Training Managers Council (ATMC) for its Engine Dynamics VE II, Ford Power Stroke Diesel Summit, and EVAP Guru classes.

To be selected for this honor, organizations must meet a level of excellence in seven training categories including Learning Objectives, Program Materials, Measurement of the Program’s Effectiveness and others.
