

Painters

Job Code	Job Title	Pay Grade
3277N2	Painter	18
3268N2	Painter Senior	21

CONCEPT:

Skilled painting work performing construction and maintenance tasks or assisting highly skilled painters in major renovation projects. Work involves performance of routine painting within the trade in the application of paint to a variety of surfaces with brush or spray gun.

TASKS:

- Performs routine maintenance painting or finishes areas after new construction or renovation. Areas may include office spaces, classrooms, hallways and other interior surfaces using brushes and rollers.
- Preparation of surfaces includes scraping, sanding, masking, minor patching of sheetrock and plaster and priming of surfaces.
- Prepares exterior surfaces including scraping, steel brushing and/or sanding to accept proper finish. Surfaces may include window frames, doors, screens, siding, curbs, parking lots and include both wooden and metal surfaces.
- Prepares new and old wood surfaces for enameling, staining and/or varnishing.
- Performs normal interior and exterior painting treatments, plus as needed tint paints and match color to specifications. Reads and works from blueprints; estimates materials; and directs the work of less skilled painters.
- Performs custom painting work with specialized commercial finishes such as Zolotone or vinyl wall coverings.
- Replasters and matches textured surfaces; strips and refinishes woodwork. May apply proper bonding primers for surfaces. Matches existing stains which are obsolete or faded.
- Paints with a variety of equipment including spray guns to paint vehicles, metal surfaces or apply textured ceilings.
- Performs screen printing or signage for buildings.
- Determines type, cuts, and glazes various types of glass in windows and doors.
- Mixes plaster, mortar, and other masonry components; pours, levels, smooths, and shapes components in preparing various types of epoxy floors.
- Lays out and marks parking lots and crosswalks using approved products. Operates various line lasers, heat guns, and temperature gauges to assure proper adhesion.
- Sets-up and operates all scaffolding equipment needed to accomplish work, including stationary scaffolds, mobile scaffolds, boson chairs and swing stages using appropriate safety precautions.
- Provides on-the-job training for other painters on assigned work projects; reviews finished work for quality; recommends corrective measures for any deficiencies.

LEVELS OF WORK

- Class Group consists of two classes.

Painter- Routine painting work involving the application of paint to a variety of surfaces with brush or spray gun.
Minimum Requirements: Six months of experience as a painter. Education may be substituted for experience as determined relevant by the agency.
