

Standard Mileage Rate

The Internal Revenue Service (IRS) has announced changes in the standard mileage rates effective January 1, 2025. The IRS rate for privately owned automobiles increases to 70.0 cents per mile. Please see [IRS Announcement 2024-312](#) for more information.

The following table provides IRS mileage rates for prior periods (all rates are for business miles driven):

January 1, 2025 – December 31, 2025	70.0 cents per mile
January 1, 2024 – December 31, 2024	67.0 cents per mile
January 1, 2023 – December 31, 2023	65.5 cents per mile
January 1, 2022 – December 31, 2022	58.5 cents per mile
January 1, 2021 – December 31, 2021	56.0 cents per mile

Under the provisions of K.S.A. 75-3203(c) the governing body of a county, city, or school district may prescribe a mileage rate different from that provided by the State. If a different mileage rate is not prescribed by the governing body of a county, city, or school district, the rate established by the Secretary of Administration shall be the rate applicable to officers and employees of such county, city, or school district. The State's mileage rate can be found in the [State of Kansas On-line Employee Travel Expense Reimbursement Handbook](#).

Please note that KSA 75-3203a(c) restricts the State's mileage reimbursement rate to the lowest rate between: (1) the IRS rate currently in effect; (2) the rate used in preparing the Governor's budget; and (3) any rate adjustment authorized by the legislature in their approval of the Governor's budget.

The following table provides the current rates, effective July 1, 2025, established by the Secretary of Administration for maximum mileage reimbursement rates for use of a privately-owned conveyance.

Automobiles	70.0 cents per mile
Motorcycles	68.0 cents per mile
Planes	\$1.750 per mile
Moving	21.0 cents mile
