First Name:

Last Name:

Agency Name:

Address (Include Floor and Room Number):

Date Needed:

IT Setup

Has the agency ever configured Intercom users before?

If YES: Enter the Static IPs for the end user (separated by commas):

If NO: Configure your agency firewall AND enter the Static IPs for the end user below (separated by commas):

Firewall Configuration

* Agency IT staff will need to work with the KISO office to setup a VPN tunnel between the agency FW and the OITS FW.

* The agency IT staff will need to open their firewall from the end user device to the following IP's/ports:

-- OITS networks - 10.220.3.0/24 and 10.222.3.0/24 address spaces

-- Ports: TCP/443, TCP/38880, TCP/38881, UDP/51000-55000
