

# KanCare RFP

## Consensus Review Evaluation Guide

## Provider Network/Operations

Bidder Name	Question Number	Topic Area	Evaluation Criteria
Sunflower State Health Plan, Inc.	1	Experience and Qualifications	Experience

### RFP Technical Question

Describe the bidder's Medicaid Managed Care experience by completing a table that includes the information listed below for each contract.

- Name of state and program name.
- Start and end date.
- Services covered under the contract (e.g., physical health, behavioral health, long term services and supports, Pharmacy, Transportation).
- Covered population(s) (e.g., families and children, including pregnant women; aged, blind, and disabled without Medicare; aged, blind, and disabled with Medicare; CHIP; Members enrolled in Home and Community-Based Services (HCBS) Waivers; and foster care children.
- Average number of total member months for the most recent twelve (12) months of the contract (or most recent period if the contract has been in place less than twelve [12] months).
- Instances of non-compliance under the Medicaid Managed Care contract resulting in one (1) or more of the following actions: corrective action plan, directed corrective action plan, notice to cure, liquidated damage, withhold of all or part of a Capitation Payment, financial sanction, non-financial sanction, suspension of new enrollment, temporary management, termination, or non-renewal due to performance concerns. For each instance of non-compliance identified, provide a description of the non-compliance, the action taken by the state or contract holder, the actions taken by the bidder to correct the non-compliance, and the length of time for the bidder to correct the non-compliance.
- Instances of breach(es) of unsecured protected health information (PHI) under 45 CFR § 164.400 et seq. under the Medicaid Managed Care contract. For each instance of breach identified, provide a description of the breach and the actions taken by the state or contract holder to address the unsecured PHI under 45 CFR § 164.400 et seq.
- Subcontractors performing delegated Managed Care functions and the functions the Subcontractors performed.

Entire RFP

### Response Considerations

- Does the response fully address all aspects of the question?
- Does the response indicate the bidder has at least one (1) relevant contract that covers multiple years?
- Does the response indicate the bidder has experience with populations similar to those enrolled in KanCare?
- Does the response indicate the bidder has experience with enrollment of similar size or larger than the enrollment in KanCare?
- Does the response indicate the bidder has experience providing a similar scope of services as those in this RFP?
- Does the response provide confidence that the bidder has the experience and qualifications necessary to fulfill the responsibilities of this RFP?
- Regarding (f): Instances of non-compliance under the Medicaid Managed Care contract: Does the response indicate non-compliance that raises concerns about the bidder's ability to perform responsibilities required under this RFP?

<b>Response Considerations</b>
8. Regarding (g): Instances of breach(es) of unsecured PHI: Does the response raise concerns about the bidder's ability to prevent unauthorized disclosure of PHI?
9. Regarding (h): Subcontractors performing delegated managed care functions: Does the response raise concerns about the bidder's experience to perform key operational functions critical for integrated health care service delivery that cannot be delegated by the bidder (i.e., grievance and appeal system, quality management, medical management, provider relations, network and provider services contracting and oversight, member services, and/or corporate compliance)?

Bidder Name	Question Number	Topic Area	Evaluation Criteria
Sunflower State Health Plan, Inc.	3	Experience and Qualifications	Experience, Method of Approach

RFP Technical Question
The State is seeking to contract with MCOs that will be collaborative, adaptable, and supportive partners with the State, Providers, Medicaid Fiscal Agent, and each other to achieve the State's vision and goals for the KanCare program. Describe the actions the bidder will take to be an effective partner. Include specific examples of the bidder's experience with such partnering in a program similar to KanCare and how that experience will be leveraged to promote partnering in KanCare.

Response Considerations
<ul style="list-style-type: none"> <li>1. Does the response fully address all aspects of the question?</li> <li>2. Does the response fully address all relevant RFP requirements and is the response consistent with the RFP?</li> <li>3. Does the response describe a comprehensive behavioral health crisis response network that includes:</li> </ul>

Response Considerations
<ul style="list-style-type: none"> <li>i. A toll-free help line to respond to members in crisis needing immediate assistance;</li> <li>ii. The full array of behavioral health crisis services covered in KanCare;</li> <li>iii. Consideration of cultural, linguistic, trauma, and other member-specific needs in the delivery of behavioral health crisis services;</li> <li>iv. The availability of twenty-four (24) hours a day, seven (7) days a week, three hundred sixty-five (365) days a year emergency treatment and first response;</li> <li>v. Referrals to psychiatric and other community services, when appropriate;</li> <li>vi. Assessment of members experiencing a behavioral health crisis to determine the need for inpatient, treatment, crisis services, or other community treatment services;</li> <li>vii. Emergency consultation and education when requested by law enforcement officers, other professionals or agencies, or the public for the purposes of facilitating emergency services;</li> <li>viii. Follow up with any member seen for or provided with any emergency service and not admitted for inpatient care and treatment to determine the need for any further services or referral to any services within seventy-two (72) hours of crisis resolution?</li> </ul> <p>4. Regarding a, does the response describe the bidder's approach to collaborating with its behavioral health crisis providers, first responders, and other crisis resources, such as:</p> <ul style="list-style-type: none"> <li>i. Holding regular meetings with behavioral health crisis providers, first responders (e.g., law enforcement, fire, and EMS), and other community crisis resources to work together to improve the comprehensiveness and coordination of the behavioral health crisis continuum?</li> <li>ii. Providing mental health crisis training to law enforcement and other first responders?</li> <li>iii. Developing protocols for information sharing and how the bidder's behavioral health crisis services and resources (e.g., the MCO's member services, nurse advice line, care coordination team, and behavioral health help line) will interface with 988 and other crisis resources within the State?</li> </ul> <p>5. Regarding b, does the response describe the bidder's approach to collecting data, measuring, and evaluating the effectiveness of its behavioral health crisis services and implementing improvements, such as:</p> <ul style="list-style-type: none"> <li>i. Collecting crisis services data and information (e.g., claims, reporting, soliciting feedback) from crisis providers, first responders, other crisis resources and stakeholders?</li> <li>ii. Working with crisis providers, first responders, other crisis resources, and stakeholders to identify opportunities for implementing improvements?</li> <li>iii. Working with crisis providers, first responders, and other crisis resources to develop and continuously monitor measures (e.g., crisis call center metrics, response time for crisis mobile services, percent of crisis events resolve in the community, crisis stabilization service utilization) to evaluate the effectiveness of the bidder's behavioral health crisis prevention, intervention, and stabilization services?</li> </ul> <p>6. Regarding c, does the response describe how the bidder will evaluate and meet network adequacy with behavioral health crisis services, such as:</p> <ul style="list-style-type: none"> <li>i. Soliciting information from behavioral health crisis providers, first responders and members/family members to identify network gaps?</li> <li>ii. Analyzing utilization, demographic information, and the bidder's network of behavioral health crisis providers to assess the sufficiency of the number, type, capacity, and geographic distribution to timely meet the needs of its members?</li> <li>iii. Stratifying data and information to identify health disparities as it related to meeting members' needs for behavioral health crisis services?</li> <li>iv. Using the information gathered to inform the bidder's focus for network expansion?</li> <li>v. Leveraging telehealth and virtual options, when appropriate, to deliver crisis services?</li> </ul> <p>7. Regarding d, does the response describe how the bidder will promote awareness of 988 and how to access local crisis services to members, such as:</p>

Response Considerations	
	<ul style="list-style-type: none"><li>i. Publishing MCO behavioral health crisis help line contact information, 988, and information about behavioral health crisis services available prominently on the bidder's website and in member materials?</li><li>ii. Educating members and family members about the availability and how to access behavioral health crisis services through interactions with member services, nurse advice, crisis help lines, care coordinators, and behavioral health providers?</li><li>iii. Engaging the community (schools, providers, social service organizations) to help share information about 988 and community resources?</li></ul>
8.	Does the bidder's proposed approach recognize the limits of the current crisis system and describe a comprehensive and well-coordinated plan for developing a behavioral health crisis continuum for all members?

Bidder Name	Question Number
Sunflower State Health Plan, Inc.	16

EVALUATOR NOTES	
Response Strengths	Response Weaknesses
<p>The response is very good.</p> <ul style="list-style-type: none"> <li>Partnered with the state and providers to convene a sequential intercept model summit to address cooccurring BH and IDD encounters.</li> <li>Engaged an advisory committee that provided feedback on gap in services, sought services, and initiated training based on recommendations.</li> <li>Integrated 988 crisis line on the front of the member ID card.</li> <li>Provided several grants for promotion of 988.</li> <li>Implementing an app regarding social isolation.</li> <li>Encouraging providers to include 988 on discharge papers as a crisis support option for members.</li> <li>Described several pilot projects including donating tablets to the local police department and first responders and providing behavioral health support via telehealth for special populations.</li> <li>Using a strategy that incorporates a predictive modeling evidence-based practice tool to identify members at risk for suicide.</li> <li>Mentioned that the bidder was named Top Kansas MCO in 2022 for 7-day and 30-day follow-up after an ER visit for mental health members.</li> <li>Approach included a vast array of data sources for monitoring the network.</li> <li>Mentioned grant of \$160,000 to a medical center to improve access to telehealth services in rural and frontier areas.</li> </ul>	<p>Weaknesses were identified that can be easily overcome.</p> <ul style="list-style-type: none"> <li>Did not address member cultural and linguistic needs.</li> </ul>

- Mentioned two dedicated provider engagement administrators to retain and recruit behavioral health providers.
- Vast training curriculum for member service representatives around behavioral health.

Response Considerations
<ol style="list-style-type: none"> <li>1. Does the response fully address all aspects of the question?</li> <li>2. Does the response fully address all relevant RFP requirements and is the response consistent with the RFP?</li> <li>3. Does the response describe both initial and ongoing network development and management activities?</li> <li>4. Does the response include an achievable timeframe for completing network development activities?</li> <li>5. Does the response describe the bidder's approach to developing, managing, and monitoring its provider network, including, for example:             <ol style="list-style-type: none"> <li>i. Analyzing network needs based on enrollment, utilization data, and member information, including demographic data on age, race, gender, ethnicity, and geographical location;</li> <li>ii. Employing a variety of provider recruitment and retention strategies based on provider type, size, and geographic location;</li> <li>iii. Monitoring to ensure the provider network meets the needs of members (geo-mapping software to assess time and distance standards, geographic flow of members accessing providers, panel sizes, provider ratios, network adequacy metrics, provider recruitment and retention with consideration for population, provider type, geographic location, and cultural/linguistic needs);</li> <li>iv. Contracting with any willing pharmacy provider that meets requirements to participate in the bidder's network;</li> <li>v. Improving member access to services in rural and frontier areas of the State;</li> <li>vi. Ensuring there are sufficient participating providers in the network to ensure timely access to culturally and linguistically appropriate services for American Indian members eligible to receive services;</li> <li>vii. Ensuring that HCBS providers have capacity to meet the needs of members, including coverage for workers who are no-shows, call out sick, etc.;</li> <li>viii. Entering into agreements with OneCare Kansas health homes;</li> <li>ix. Offering a contract to all providers and BH provider types specified in the RFP (e.g., State hospitals, Regional Alcohol and Drug Assessment Centers, CCBHCs, FQHC, RHC, FBC);</li> <li>x. Establishing written provider agreements with all participating providers that include provisions specified by the State;</li> <li>xi. Monitoring to ensure access and availability standards are met using a variety of data and information sources (e.g., grievances, appeals, secret shopper surveys, satisfaction surveys, member advisory committee feedback, feedback from provider forums, basis for provider-initiated terminations) to inform network development and management;</li> <li>xii. Monitoring for and eliminating barriers for members who need an accommodation or adaptation to access and participate in services (e.g., translation/interpretation, sign language, auxiliary aides and devices, accessible medical office equipment to accommodate specific member needs); and</li> <li>xiii. Identifying provider gaps and developing/implementing strategies to address them?</li> </ol> </li> <li>6. Does the response describe the bidder's understanding of existing network challenges and gaps in KanCare (e.g., direct care workers, adult and child/adolescent psychiatrists, behavioral health residential providers, dental providers, certain specialty and sub-specialty providers, providers in rural and frontier areas)?</li> <li>7. Does the response address the bidder's methods and capabilities for ongoing management of the network (e.g., tracking and monitoring changes to the network; providers who are not accepting new patients; access for members with disabilities; and compliance with appointment availability standards)?</li> <li>8. Does the response describe the bidder's strategies to address network challenges, such as:             <ol style="list-style-type: none"> <li>i. Performing direct outreach and recruitment of necessary providers;</li> <li>ii. Recruiting providers with cultural and linguistic competency to deliver services to members (including providers on and off tribal lands);</li> <li>iii. Supporting graduate medical education residency training programs and other similar health care provider career pipelines;</li> <li>iv. Expanding the capacity and skill sets of the direct care workforce;</li> </ol> </li> </ol>

Response Considerations	
v.	Using innovative approaches to improve network access and availability, such as telehealth, mobile health units, pharmacy home delivery service, mail-order pharmacies);
vi.	Building and maintaining solid provider relationships through provider services offered (provider forums, provider manual, provider communication, website interfaces, provider training, and provider assistance);
vii.	Providing technical assistance to consumer and family-run organizations;
viii.	Simplifying/reducing administrative provider burdens (service authorization process, referral processes, credentialing/re-credentialing, contracting, claims submission, provider appeals processes); and
ix.	Offering higher negotiated rates, incentives and opportunities to participate in value-based purchasing arrangements?
9.	Does the response describe how the bidder will ensure member needs are met while addressing any identified gaps (e.g., via telehealth, providing access to and coverage of services provided by non-participating providers, working within the provider network to develop services to meet unmet member needs)?
10.	Does the response describe how the bidder will monitor the effectiveness of its network development and management strategies and revise them as needed?

Bidder Name	Question Number	Topic Area	Evaluation Criteria
Sunflower State Health Plan, Inc.	35	Case Scenarios	Method of Approach

RFP Technical Question
<p>Ernest is a senior executive with a hospital in a Rural area of the State. He reaches out to the bidder's Provider services call center seeking to find someone to speak to at an appropriate level in the MCO who will "take this situation seriously" and "has the authority to do something to try to fix this." Ernest explains that, as a Rural hospital, the ED provides a particularly important service for the community and surrounding area. The ED has, however, been struggling with the challenge of KanCare Members who present at the ED with significant psychiatric issues and who end up staying in the hospital's ED for extended periods because of a lack of available and suitable discharge options for them.</p> <p>Ernest reminds your Provider services representative that the ED is small and that as a Rural area, the community heavily depends on being able to access ED services. He shares that providing "psychiatric boarding" in the ED for these Members is problematic for many reasons, including: the loss of available treatment space; the challenges presented to his staff, who are not trained to provide psychiatric care; Members' agitation and other disruptive behaviors that escalate as the ED stay lengthens; and the effect of the Members' behaviors on other ED patients.</p> <p>Ernest states that he is concerned about the ED's ability to continue to ensure access to other patients in need of ED services, and that his staff, already under significant strain, may begin to leave hospital employment. Additionally, Ernest shares his concern that KanCare Members with psychiatric conditions do not have appropriate discharge options. Ernest says that while he recognizes this problem is not just limited to the bidder's MCO, your MCO is a contributor to the issue. Ernest wants to speak to the "right person" to understand what the bidder will do to address his concerns.</p> <p>Describe how the bidder will route and handle the call from Ernest, and the bidder's approach to addressing the Provider's concerns.</p>
