

KanCare RFP Consensus Review Evaluation Guide

Care Coordination/Medical Management

| Bidder Name | Question Number | Topic Area | Evaluation Criteria |
|-----------------------------------|-----------------|-------------------|--------------------------------|
| Sunflower State Health Plan, Inc. | 4 | Member Experience | Experience, Method of Approach |

RFP Technical Question

Describe the bidder's approach to encouraging and engaging KanCare Members to actively participate in their health care and meet their personally defined health and wellness goals and cross service system needs. Provide an example of a strategy the bidder has successfully used in a program similar to KanCare, including the impact of the approach on outcomes.

Response Considerations

1. Does the response fully address all aspects of the question?
2. Does the response fully address all relevant RFP requirements and is the response consistent with the RFP?
3. Does the response describe how the bidder will identify member engagement strategies, such as using data to identify members who are not participating in expected preventive care, have high inappropriate ER use, or are not accessing services identified as part of an early and periodic screening, diagnostic and treatment (EPSDT) screen?
4. Does the bidder's response describe engagement strategies for both individual and systemic levels?
5. Does the response describe the bidder's strategies to encourage members to complete health screens, health risk assessments, needs assessments, and the development of PCSP/plan of service?
6. Does the response describe strategies to engage hard-to-reach members to participate in care coordination?
7. Does the response describe engagement strategies, such as:

| Response Considerations | |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | <ul style="list-style-type: none">i. Using member incentive programs;ii. Educating members about the availability of incentives, value-added benefits and in lieu of services;iii. Using MCO care coordination resources to promote outreach and engagement;iv. Using community resources (e.g., leveraging PCPs, community-based care coordination entities, community health workers) to support outreach and engagement;v. Incorporating member and family health literacy and linguistic/cultural considerations into outreach and engagement strategies;vi. Educating members through publication of member information in multiple formats (e.g., online, written materials, texts);vii. Using the secure member web portal for member engagement and health care participation; and/orviii. Using the member call center to engage members and families. |
| 8. | Does the response describe the use of quality improvement processes to identify barriers, implement interventions, measure efficacy, and revise member engagement strategies as necessary? |
| 9. | Does the bidder's example include a measurable impact of the approach on outcomes? |
| 10. | Does the bidder provide an example of a strategy that is relevant and transferrable to KanCare? |

| <ol style="list-style-type: none"> 1. Does the response fully address all aspects of the question? 2. Does the response fully address all relevant RFP requirements and is the response consistent with the RFP? 3. Regarding subpart a, the bidder's care coordinator staff distribution and location, does the bidder's response describe: <ol style="list-style-type: none"> i. The physical location of its care coordinators; ii. How the bidder determines appropriate distribution of its care coordinators and ensures geographical proximity to members; and iii. How the bidder monitors appropriate distribution of care coordination staff? 4. Regarding subpart b, the bidder's approach to avoiding duplication of care coordination with delegated or other models of care coordination: <ol style="list-style-type: none"> i. Does the response acknowledge the primary care coordination role of CCBHCs and OneCare Kansas providers/partners? ii. Does the response describe how the bidder will delineate roles and responsibilities between MCO staffed care coordination, community care coordinators contracted with the bidder, and other care coordination/case management entities? iii. Does the response acknowledge the bidder's ultimate responsibility to ensure members receive the appropriate level of care coordination to address their needs? iv. Does the response describe how the bidder will monitor to detect and address care coordination gaps and duplication, including how information systems and technology will be used to support the identification of gaps and duplications? v. Does the response describe how the bidder will collect, analyze, and share data and information with all persons and entities involved in the care coordination of a member? 5. Regarding subpart c, the roles, responsibilities, and functions for staff performing care coordination responsibilities, does the response describe: <ol style="list-style-type: none"> i. Appropriate staff composition and assignment of staff within the bidder's care coordination team to perform care coordination roles, responsibilities and functions (e.g., member outreach and engagement; performing health screens, HRAs, and needs assessments; developing, implementing, and monitoring PCSPS/POS; conducting member contacts and home visits; coordinating transportation; and coordinating and collaborating with community care coordinators and care coordination/case management entities) based on the type of tasks and staff qualifications; and ii. Appropriate oversight of care coordinators? 6. Regarding subpart d, the bidder's approach and strategies to effectively engaging members in care coordination, does the bidder's response describe how it will: <ol style="list-style-type: none"> i. Address the cultural and linguistic needs of members; ii. Educate members about the availability and benefits of care coordination; iii. Use local community resources (e.g., community-based care coordination entities, community health workers) to support outreach and engagement; iv. Use multiple methods and attempts to perform outreach and ongoing engagement; and v. Have different strategies to engage members across various settings (e.g., inpatient, nursing facility, and community-based settings)? 7. Regarding subpart e, the bidder's proposed care coordination caseload ratios, does the bidder's response describe: <ol style="list-style-type: none"> i. The bidder's methodology for establishing caseload ratios and factors considered (e.g., complexity of needs, risk, whether the member is receiving delegated care coordination); ii. How the bidder will evaluate appropriateness of caseload ratios; and iii. The circumstances that trigger a review or adjustment of caseload ratios? 8. Regarding subpart f, case assignment considerations and managing vacancies to ensure members' continuity of care, does the bidder's response describe: |

| Response Considerations |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"> i. The bidder's consideration of factors such as member needs (including cultural and linguistic needs), care coordinator experience and qualifications, geographic proximity to member in establishing case assignments; ii. How the bidder will evaluate appropriateness of caseload assignments; iii. The circumstances that trigger a review or adjustment of caseload assignments; and iv. How the bidder will monitor and address care coordination vacancies (e.g., temporary reassignment of cases within the bidder's care coordination team, leveraging community care coordinator and care coordination/case management entities, notifications to the member)? <p>9. Regarding subpart g, identifying and supporting the needs of members who are not on a 1915(c) HCBS Waiver and have a temporary or transitional need for care coordination, does the bidder's response describe:</p> <ul style="list-style-type: none"> i. Temporary or transitional member needs or circumstances in which the member would benefit from time-limited care coordination (e.g., follow-up care from ER visit, hospital discharge that requires in-home care, linkages to community resources); ii. How the bidder will identify the need for temporary or transitional care coordination; iii. How the bidder will offer and engage the member in temporary/transitional care coordination; and iv. How the bidder will address case closure? <p>10. Regarding subpart h, does the bidder describe how the bidder's care coordination program interfaces with its disease management resources and activities (disease/condition-specific care management interventions, staffing structures and coordination)?</p> <p>11. Regarding subpart i, the bidder's processes and systems that will be used to share and exchange information with those involved in the care and treatment of the KanCare member to optimize integrated, longitudinal, whole person care, does the bidder's response describe:</p> <ul style="list-style-type: none"> i. How respondent supports information sharing and exchange among parties involved in the care and treatment of the member; and ii. The bidder's electronic care management system and capabilities for using its data systems to share and exchange information timely? <p>12. Regarding subpart j, the bidder's approach to monitoring and ensuring that KanCare members receive necessary services, supports, and resources necessary to improve individual and population outcomes, does the bidder's response describe:</p> <ul style="list-style-type: none"> i. How the bidder will identify and follow up on member-specific and systemic opportunities for improvement; ii. How the bidder will monitor and evaluate performance/outcomes for its care coordination program at the individual and population level; and iii. How the bidder will use quality improvement processes to develop, measure, and adjust (when necessary) its improvement efforts? |

|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Response Strengths | Response Weaknesses |
| <p>The response is very good.</p> <ul style="list-style-type: none"> • The response provided many Kansas-specific examples of success. • The response described multiple staff locations, including a layered heat map, multiple care coordination locations, and how staff distribution meets member needs. • The response described low turnover rates for care coordinators and having backup care coordinators to fill absences. • The response described working with providers on non-duplication of case management, communication with the provider network to limit duplicate services, and how care coordination case load ratios are established. • The response described providing community care coordinators with dashboard reports, including actionable data. • The response described a care management platform to support care management efforts, limit duplication, and clearly define roles and interaction with other roles. • The response described multiple positive outcomes resulting from their care coordination model, including an increase in PCP visits. • The response described using peer specialists for their hard-to-reach populations and providing life share navigator for members not in care coordination. • The response included a description of three levels of care coordination. • The response included a strong prevention standpoint. | <p>Weaknesses were identified that can be easily overcome.</p> <ul style="list-style-type: none"> • The response lacked a description of utilization of individuals “with lived” experience. • The response lacked information regarding how members/providers refer themselves/members to care coordination. • The response lacked innovation for engaging hard to reach members. |

- The response described enrolling pregnant members in Smart Start program.
- The response described interfacing with providers, including acknowledging and supporting providers with varying technical capabilities.
- The response provided impact statistics for care coordination.
- The response included a person-centered approach (e.g. Life Sharing model).
- The response included a well-rounded process for delegation of community care coordination, including sharing an IT system.

General Notes

- The evaluation team requests clarity on caseload ratios.
- The evaluation team requests more detail on what triggers movement between the three levels of care coordination.

| Response Strengths | Response Weaknesses |
| <p>The response is very good.</p> <ul style="list-style-type: none"> The response described a SDOH dashboard that aggregates screening, assessment, and claims data. The response described their life stage model and the composition of their SDOH team. The response indicated their care coordination staff has an average tenure of five years. The response described performing outreach to all new members five times within the first 30 days to complete a health screening, as well as completing a mini screen at every interaction with the member. The response included examples that provided evidence of members utilizing services and benefiting from SDOH activities. The response described using Project SEARCH to assist IDD members in job-finding, which is expanding to multiple employment sites. The response described their mobile application targeting social isolation, to be implemented in the future, which has shown efficiencies in other markets. The response described identifying health equity neighborhoods within the State and partnering with communities for health-related events or initiatives. The response included multiple examples that demonstrated the commitment to SDOH, at an individual and population level. | <p>Weaknesses were identified that can be easily overcome.</p> <ul style="list-style-type: none"> The response described a peer liaison as part of the care coordination model, but lacked details about how peer support is integrated into the model to support SDOH. The response lacked detail regarding measuring outcomes for the various initiatives listed, including evaluation of pilot programs. The response does not include how staff will be educated or trained on SDOH tools. The response does not include how members will be educated on value-added benefits or how they will use the member functionality within the closed-loop referral system. |

- The response described their SDOH rewards program, which rewards providers financially for using z-codes and provides a z-code dashboard.
- The response described their closed-loop referral system.

General Notes

- The response is very broad and could take away from more targeted approaches with more measurable impacts.

| Sunflower State Health Plan, Inc. | 14 |

| EVALUATOR NOTES | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| Response Strengths | Response Weaknesses |
| <p>The response is excellent.</p> <ul style="list-style-type: none"> The response provided multiple examples of how they participate in pharmacy initiatives, including collaboration with the State and/or other MCOs. Examples include anti-psychotic use in NFs, 90-day policy, high-dollar rare disease drugs, and oncology related drugs. The initiatives resulted in savings related to an initiative, reduced member burden, and reduced use of anti-psychotics in NFs. The response described sharing data with the State for informing policy making, including data for MAT, anti-obesity medications, continuous glucose monitors, and approval and denial rates. The response described active engagement with stakeholders within the State. The response included clinical initiatives, such as comprehensive medical reviews and targeted medical interventions. The response described their ability, willingness, and experience using a single pharmacy benefit manager. The response described value-based purchasing for pharmacies that meet certain HEDIS measures. The response described a program to internally review prescriptions for youth members prescribed multiple psychotropic drugs to mitigate risk of adverse drug reactions. The response described two interactive programs to streamline the PA process and increase efficiency for providers. | |

- The response described their lock-in process in compliance with the RFP and included evidence of decreased ED and IP utilization.
- The response outlined the experience and qualifications of the Pharmacy Director, as well as their local staff.
- The response indicated they support local pharmacies by contracting with independent pharmacies and recruiting MAT practitioners in underserved areas.

General Notes

- While the response indicates they will comply with RFP requirements, they did not specifically state they would use the State PDL.
- The response does not address the use of long term injectable anti-psychotic drugs.
