KCJIS Conference Discussion:

Sec. Burns-Wallace / Director Marshall – (Handouts) Sec. Burns-Wallace stressed the need to keep the conference going and the value loss if we don't. The survey feedback identified the need for CJIS users to get together annually to train, discuss and issues peers are having across the state. Concerns and discussion about fees and a balance of a backup and affordability of any gaps that may occur. Look at planning over multiple years. Vendors are very interested coming back and working in person with the state. Restart the KCJIS conference sub-committee to look at education, training, and funding options going forward. Action: to provide the committee an overview of topics, locations and funding.
