

SHARP 9.2 Fluid Overview of Time Reporting and Approval Using Employee Self Service

Step 1: Log in to Employee Self Service at <http://admin.ks.gov/offices/personnel-services/ssc> or www.kansas.gov/employee (bookmark this page for easy access!) **Hint:** Use the Forgot Password link when signing in if you forget your password!

Step 2: Select **My Time** tile to access your timesheet so you can record time for the current pay period – both exempt and non-exempt employees must record and submit their time each pay period! NOTE: Only supervisors will see the “Team Time” tile that is displayed in the page print listed below.

Step 3: Adjust the size of your timesheet (if it appears too large or too small):

- Press and hold the **Ctrl key** on your keyboard, then use the **wheel** on your mouse to reduce or increase the size of your timesheet; Or...
- Press and hold the **Ctrl key** on your keyboard and click the plus (+) or minus (-) symbol to zoom in and out
- To return to 100%, Press and hold the **Ctrl key** on your keyboard and press the 0 (zero) key on your keyboard

Step 4: Enter and Save or Submit your time. Your standard work schedule (if established by your agency in SHARP) will default into your timesheet. NOTE: The work schedule will be blank if your agency does not establish a set work schedule for you – in that case, you would **enter both the hours and Time Reporting Code or adjust existing hours if needed (see Recording Changes to the Default Schedule section below)**. If you are updating your timesheet daily, be sure to **click Save for Later**. If it is the end of the reporting period and no changes are required to the hours defaulted, **Click ‘On’ the affirmation statement checkbox, “All times listed on this report reflect actual times charged (including time worked and leave taken) and are true and correct to the best of my knowledge. Note: Salaried employees may record actual hours worked or accept the default hours.” and Click ‘Submit’** to send time to your supervisor/manager for approval. On-Line edits will run when time is submitted. **Remember, only click Submit when you are finished entering your time at the end of the two week time period.**

Reported Time Status Summary Leave / Compensatory Time Exceptions Payable Time

NOTE: Click on the folder tabs listed directly below the affirmation statement to view:

- the **Reported Time Status** of your timesheet, such as Saved, Needs Approval, Approved
- a **Summary** of the hours you've reported by week and by pay period
- your **Leave / Compensatory Time** balance information
- **Exceptions** (errors)
- **Payable Time**. Payable Time only displays after your timesheet has processed through a batch edit process

Recording Changes to the Default Schedule:

To report hours different from what is defaulted (i.e. vacation leave, etc.), scroll to the right and click on the '+' button to add a new row (or '-' button to delete a row). Select the appropriate Time Reporting Code, from the drop down box, then add/modify the hours on the appropriate day. NOTE: Your supervisor may be able to record time for you if you are absent. Upon your return, you should sign an Official State of Kansas paper time document provided by your HR Office. Your supervisor will also sign/date the form and turn it into your HR Office.

NOTE: The Taskgroup field designates funding and will default based on agency established values. The Taskgroup field will not need to be modified by you, unless you are reporting time for integration to the Project Costing module.

Recording Time Throughout the Pay Period: You have the option to record time throughout the pay period (daily, weekly, etc.) through early evening Sunday following the last day of the pay period. We expect employees to record time at work prior to their shift ending. Do not enter time outside of your normal work hours. NOTE: Employee Self Service is down from 8AM–Noon on Sundays and from 6-7PM nightly. Self Service is also down one Saturday-Sunday per month. After you enter your time, simply **click** on the ‘**Save for Later**’ button to save the time recorded. The system will give you the option to have the online edits run each time the ‘Save for Later’ button is submitted - just **click Yes**. If any errors occur (i.e. not enough leave to cover the time reported) make the necessary corrections and Save again.

All times listed on this report reflect actual times charged (including time worked and leave taken) and are true and correct to the best of my knowledge. Note: Salaried employees may record actual hours worked or accept the default hours.

NOTE: Non-exempt employees should not update their timesheets after regular work hours.

Submit Time: When you submit your time at the end of the pay period, you'll receive a Timesheet 'Submit Confirmation' message. Before the message appears, you'll most likely see the **blue processing icon**:

Be patient as the processing may take awhile as it is gathering the list of supervisors and timekeepers who can review and approve your timesheet.

After the processing icon disappears, a **green ribbon** with the words “**Saving**” may appear briefly, followed by the **Submit Confirmation** statement. Once the statement appears, **click the OK button** to return to your timesheet.

A workflow notification email is sent to your supervisor to notify him/her that time has been submitted that requires approval. Upon approval by your supervisor, an e-mail notification is sent to you noting that the reported time was approved for payment. NOTE: The job that produces the emails runs every hour from 8:15AM-5:15PM, so it could take up to an hour before you or your supervisor receives the email.
